The Moral Commonwealth Social Theory And The Promise Of Community:

The Moral Commonwealth Philip Selznick, 1994-09-09 Establishes the intellectual foundations of a new movement in American thought communitarianism Emerging in part as a response to the excesses of American individualism communitarianism seeks to restore the balance between individual rights and social responsibilities **Moral**

Commonwealth Philip Selznick, 1994 Philip Selznick's study of moral and social theory establishes the intellectual foundations of an important new movement in American thought communitarianism Emerging in part as a response to the excesses of American individualism particularly rampant during the 1980s communitarianism seeks to restore the balance between individual rights and social responsibilities The Moral Commonwealth attempts to explain and justify this communitarian turn and give it a liberal interpretation **The Moral Commonwealth** Philip Selznick, 1992 **The Moral**

Bond of Community Bernard Vincent Brady, 1998 Comprehensive in its approach yet written in plain language The Moral Bond of Community offers a biblically based concept of Christian justice that can be applied to moral questions in everyday life Brady examines four forms of Christian moral discourse narrative prophetic ethical and policy and shows how each contributes to a fuller understanding of Christian morality **Soul, Self, and Society** Edward L. Rubin, 2015 Morality is not

declining in the modern world Instead a new morality is replacing the previous one Centered on individual self fulfillment and linked to administrative government it permits things the old morality forbid like sex for pleasure but forbids things the old morality allowed like intolerance and equality of opportunity *The Concept of Dilemma in Legal and Judicial Ethics* Przemysław Kaczmarek, Krzysztof J. Kaleta, Paweł Łabieniec, Marcin Pieniążek, Paweł Skuczyński, Sebastian Sykuna, 2018-10-12 Judges and lawyers have to shape their moral competences in order to maintain their professional ethics at a high standard if they want to effectively meet the challenges that modern society will throw at them This requirement is due to the growing expectation that they will be socially and morally responsible for the law Thus the need to place ethics at the heart of legal education and to make ethical reflection pervasive in academic courses becomes more obvious every day Using the concept and examples of moral dilemmas is a way of facilitating this task The main purpose of this book is to analyse the concept of moral dilemma in context of judicial and legal ethics and to provide material for legal education The structure of this book is designed with this double aim in mind The theoretical part presents the concept of dilemmas on grounds of metaethics and the perspectives for its application in a professional legal context The former encompasses situations of conflict of duties or obligations in which the choice of one conduct necessarily prevents a different conduct and therefore leads to an unacceptable outcome Hence the situation of dilemma always involves an issue of moral responsibility and the problem of dirty hands How such situations are present in legal practice and how to deal with them is the main concern of this part The considerations are divided into three levels of reflection deontological axiological and moral responsibility The practical part of the book contains an overview of 150 dilemmas that can be useful in legal ethics or other

legal courses The dilemmas are divided into chapters covering the following branches of law criminal law civil and commercial law family and custody law labour and social security law and constitutional law Every dilemma presents a description of the facts a reconstruction of dilemma its standard solution and some critical remarks from a meta ethical perspective The dilemmas cover situations regularly met in everyday practice as well as examples of more exceptional challenges in connection with constitutional crises that have occurred in Poland in recent years

A Theory of Urbanity

Anton Zijderfeld,2017-09-29 Cities provide for people not just functionally in terms of jobs obligations and practical pursuits but also and above all emotionally We like some cities and detest others Despite shared rationalizations and common modes of administration and design each city has its own culture A culture is typically human in that it contains all dimensions of the human personal condition from the lowest to the most sublime Urban culture comprises both economic and civic culture and is the source of a city s vitality For today s urban sprawls which have a weak and failing economic and civic culture the task of the urban administration and various economic and civic organizations is to strengthen conditions that can prevent the emergence of urban anomie With suburbanization the edge city and the emergence of cyberspace some argue that cities as integrated places of working and living are things of the past Zijderfeld argues that people are and remain social animals who like and need one another s company particularly in their economic socio cultural and political activities Throughout the ages cities have provided the environment in which people fulfill these needs Anton Zijderfeld discusses urban preferences the organizations and ramifications of urbanity the modernization of urban culture the uneasy alliance between urbanity and the interventionist state and the cultural dimensions of urban renewal Zijderfeld sees the economic and civic culture of the city as the centerpiece of contemporary urban management and contemporary urban democracy In this sense the new technology is an ally of the new urban renewal Most postmodern treatises on the end of the city are impressionistic and unsystematic In contrast Zijderfeld puts the qualitative dimensions of city life into focus catching its pulse and cultural rhythms in a systematic context that prior studies have lacked As such it will be of great interest to urban administrators p

Handbook of Citizenship Studies Engin F Isin, Bryan S Turner, 2002 The contributions of Woodiwiss Lister and Sassen are outstanding but not unrepresentative of the many merits of this excellent collection The British Journal of Sociology From women s rights civil rights and sexual rights for gays and lesbians to disability rights and language rights we have experienced in the past few decades a major trend in Western nation states towards new claims for inclusion This trend has echoed around the world from the Zapatistas to Chechen and Kurdish nationalists social and political movements are framing their struggles in the languages of rights and recognition and hence of citizenship Citizenship has thus become an increasingly important axis in the social sciences Social scientists have been rethinking the role of political agent or subject Not only are the rights and obligations of citizens being redefined but also what it means to be a citizen has become an issue of central concern As the process of globalization produces multiple diasporas we can expect increasingly complex relationships between homeland and host societies that will make the traditional idea of national citizenship problematic As societies are forced to manage cultural difference and associated tensions and conflict there will be changes in the processes by which states allocate citizenship and a differentiation of the category of citizen This book constitutes the most authoritative and comprehensive guide to the terrain Drawing on a wealth of interdisciplinary knowledge and including some of the leading commentators of the day it is an essential guide to understanding modern citizenship About the editors Engin F Isin is Associate Professor of Social Science at York University His recent works include *Being Political* Genealogies of Citizenship Minnesota 2002 and with P K Wood *Citizenship and Identity* Sage 1999 He is the Managing Editor of *Citizenship Studies* Bryan S Turner is Professor of Sociology at the University of Cambridge He has written widely on the sociology of citizenship in *Citizenship and Capitalism* Unwin Hyman 1986 and *Citizenship and Social Theory* Sage 1993 He is also the author of *The Body and Society* Sage 1996 and *Classical Sociology* Sage 1999 and has been editor of *Citizenship Studies* since 1997

Property and Human Flourishing Gregory S. Alexander, 2018 Many people assume that what morally justifies private ownership of property is either individual freedom or social welfare defined in terms of maximizing personal preference satisfaction This book offers an alternative way of understanding the moral underpinning of private ownership of property Rather than identifying any single moral value this book argues that human flourishing understood as morally pluralistic and objective is property s moral foundation The book

goes on to develop a theory that connects ownership and human flourishing with obligations Owners have obligations to members of the communities that enabled the owners to live flourishing lives by cultivating in their community members certain capabilities that are essential to leading a well lived life These obligations are rooted in the interdependence that exists between owners and their community members and inherent in the human condition Obligations have always been inherent in ownership Owners are not free to inflict nuisances upon their neighbors for example by operating piggeries in residential neighborhoods The human flourishing theory explains why owners at times have obligations that enable their fellow community members to develop certain necessary capabilities such as health care and security This is why for example farm owners may be required to allow providers of health care and legal assistance to enter their property to assist employees who are migrant workers Moving from the abstract and theoretical to the practical this book considers implications for a wide variety of property issues of importance both in the literature and in modern society These include questions such as When is a government s expropriation of property legitimated for the reason it is for public use May the owner of a historic or architecturally significant house destroy it without restriction Do institutions that owned African slaves or otherwise profited from the slave trade owe any obligations to members of the African American community What insights may be gained from the human flourishing concept into resolving current housing problems like homelessness eviction and mortgage foreclosure
