The Moral Order An Introduction To The Human Situation:

The Moral Order Raoul Naroll, *The Moral Order* Raoul Naroll, 1983-03 A distinguished cross cultural researcher presents a brave heartfelt and exciting challenge to the social sciences the creation of an international moral order He advocates the use of cross cultural research to uncover a common core of values and morality This research would then be used to ameliorate problems and guide policy in the light of those values He shows his procedures at work in the study of ten major social and personal ills such as mental illness divorce sex roles and child abuse His research leads him inexorably to the concept of the moralnet the social group that provides values and support When these are disrupted problems are aggravated or even created The work of Naroll fits in well with *Bible Translation and the Spread of the Church* Philip C. Stine, 1990 This book deals with the effect that translation of the Bible has had on the theology of developing churches over the past 200 years and also examines cultural factors which affect translation as well as how Bible translation itself affects a people's social and cultural development *Bible translation and the spread of the church* Philip C. Stine, 2016-04-26 The growth of the Church in the last two centuries has been paralleled by an explosion in the number of languages into which all or part of the Bible has been translated This book is perhaps the first serious effort to examine a number of issues related to that phenomenon among them how theology can affect the kind of translation prepared and how the type of translation itself can affect the theology of a church It also addresses the topics of why a church generally develops faster and with a deeper faith if it has the Bible how decisions of text canon exegesis type of language and type of translation are related to the matter of authority what forces are at play in a culture to which a translator must be sensitive and how Bible translation affects a society and culture The authors of these papers are distinguished scholars in the fields of missiology history cultural anthropology theology or church history Some address theological issues of Bible translation and others the cultural and political questions But ultimately they conclude that if the church of tomorrow is to grow and not be fragmented then access to the Bible will be crucial

A Philosophy of Need Soran Reader, Gillian Brock, 2024-05-02 Appeals to need are everywhere This seminal volume introduces the concept as a vital component in the business of living

The Age of Insanity John F. Schumaker, 2001-08-30 The often misunderstood modern person syndrome is a disorder linked to the conditions of living in our contemporary society The author argues that the conditions of modernity have introduced new processes forces and cultural motivations that have major implications for all aspects of mental health and social well being While modernity offers unprecedented opportunities

for personal enhancement and creative expression there is mounting evidence of a mental health crisis that demands the immediate attention of mental health professionals In order to address the new challenges that have arisen under conditions of modernity mental health professionals must rethink fundamental assumptions about the relationship between society and mental health as well as the impact of modern social concerns upon individual behavior and psychological well being This innovative approach to mental health seeks to explain a variety of psychological trends including the steep rise in depression the sharp increase in the prevalence of existential disorders and the emergence of consumption disorders By shedding light on the interaction between modernity and mental health Schumaker illuminates the emerging patterns of mental disturbance while also offering new and more effective intervention and prevention strategies [The Politics of Human Nature](#) John H. Kautsky,2017-09-04 The effort to understand human nature in a political context is a daunting challenge that has been undertaken in a variety of ways and by a myriad of disciplines through the ages From Plato to Hobbes and Burke to Wallas and Oakeschott in our era efforts have been made to provide some organic framework for the political study of mankind What has added greatly to the complexity of the task is the increasing denial even rejection in the positivist and behaviorist traditions of the very notion of a human nature The work can be described as a series of interlocking propositions the proverbial view of human nature can be explained by evolutionary theory Biological differences between men and women are responsible for family community and group life Social evolution goes through stages which are recapitulated in the moral life of individuals A well defined federal system mirrors human development And finally for Fleming most problems in social and political life stem from violations of this federalist system Fleming s volume takes up a variety of issues sex and gender differences democracy and dictatorship individual and familial patterns of association He does so in the context of showing how forms of legitimate authority such as families communities and nations establish such authority by appeals to human nature and that these appeals while presumably resting on empirical evidence also confirm the existence of normative structures Fleming s work is an effort of synthesis that is sure to arouse discussion and debate It represents a serious addition to a literature retrieved from the historical dustbins to which it has been repeatedly consigned **Playing for Peace** Charles Keil,William L. Benzon,2022-07-25 Some call it the Anthropocene humans taking responsibility for the mess we have made here on Mother Earth I have come to believe that drumming singing dancing ngoma in every ecological niche is the way out And every goma becoming a dromena i e we re doing the rite this year like we did it last year and will do it again next year We need to bring out the best festive spirit in every single soul helping each child to full expression in a healthy social context will restore peace and ecoequilibrio locally and globally I was born 1939 into a world at war when the first wave of fascisms were flourishing and demonstrating daily what a terrible deathtrip the multiple addictions to technology nationalism militarism dominance control dualisms dishonesty patriarchy scape goating etc could become I have spent most of my eighty two years on this planet trying to stop the juggernaut of Civilization and Progress from running over

us and grinding us into the dust In the course of putting these chapters together I came to realize that our species being or human nature is humorous playful and collaborative Humo ludens collaborans We are NOT homo sap sap all the same knowing knowers we don t know shit We don t know how the flora and fauna in our own guts digest our food for us hundreds of organisms collaborating inside us and making us possible We don t know why we are here with millions of other lifeforms surrounding us My guess is that Humo ludens collaborans will have more fun finding the answers one soul at a time living in pursuit of wholistic happiness for everyone Charlie Keil Encyclopedia of Anthropology H. James Birx,2006 Focuses on physical social and applied anthropology archaeology linguistics and symbolic communication Topics include hominid evolution primate behaviour genetics ancient civilizations cross cultural studies and social theories **A Theory of Human Need** Len Doyal,Ian Gough,1991-08-23 Rejecting fashionable subjectivist and cultural relativist approaches this important book argues that human beings have universal and objective needs for health and autonomy and a right to their optimal satisfaction The authors develop a system of social indicators to show what such optimization would mean in practice and assess the records of a wide range of developed and underdeveloped economies in meeting their citizens needs

Handbook of Cross-cultural Psychology: Social behavior and applications John W. Berry,Ype H. Poortinga,Janak Pandey,1997 Presenting the human relations in a cultural context this book explores various social psychology concepts and applied topics in the light of cross cultural research It also features the developments in the field as well as diversity in the cultural and theoretical backgrounds of the editors and chapter authors War Over the Family David Popenoe,2017-09-29 One of the most surprising and controversial social debates of the past two decades has been about the meaning and importance of marriage and the family in contemporary American life Referred to by some as a culture war over the family the debate has pitted those concerned about the weakening of the traditional married parent nuclear family especially in its impact on children against those arguing that nothing has gone wrong with families that they are merely diversifying David Popenoe has been one of the most influential figures in laying out for a wide audience the importance of family decline and what it means for our children our society and our future The Creation of the Human Development Approach Tadashi Hirai,2017-03-15 This book examines the main reasons and challenges for the success of the human development approach both in theory and practice as an alternative to the economic growth model Unlike the preceding research which has typically been either theoretical prescriptive or empirical descriptive it follows a pragmatic historical and institutional methodology since human development cannot be understood without considering the complexities added centrally by the formation process in the UNDP Referring to the capability approach it also addresses how to best reflect happiness within this paradigm **The State of the Nation** Derek Curtis Bok,1998 The author shows that although Americans are better off today in most areas than they were in 1960 they have performed poorly compared with other leading industrial nations

Understanding Ethics and Responsibilities in a Globalizing World Maria Cecilia Coutinho de Arruda,Boleslaw

Rok,2015-12-21 This book contemplates the ethics of responsibility in a large range of meanings consequences and impacts It reflects the perspectives and reasoning of 24 authors from all continents All chapters are original papers presented at the Fifth World ISBEE Congress that took place in Warsaw Poland at the Kozminski University on 11 14 of July 2012 In this book ethics and responsibility are considered essential traits of character not only in the business or governmental arenas but in any initiative decision and activity The contributions to this book focus on a spectrum of themes terms and concepts the global corporate social responsibilities perspective covering impacts challenges analysis criticism consequences of important topics of real life sustainability international economy and regimes corruption poverty and violence among others The book is intended for academics researchers and professionals in all continents who are dedicated to Ethics Business Ethics Corporate Social Responsibility Social Innovation and Sustainability Management **Aggression and War** Jo

Groebel,Robert A. Hinde,1989-03-23 Derived from a meeting of natural and social scientists this interdisciplinary book aims to summarize the main issues regarding the problem of human aggression as well as human beliefs about the subject This study brings together internationally known authorities and presents their recent contributions which range in complexity from the physiological to individual aggression group conflict and international war The study concludes with a multi level approach to the problems of aggression and war In nontechnical language suitable for general science readers the book provides a valuable framework for the development of ideas and new attitudes in a field rife with misconceptions

Culture's Consequences Geert Hofstede,2001-04-20 Geert Hofstede has completely rewritten revised and updated Culture s Consequences for the twenty first century he has broadened the book s cross disciplinary appeal expanded the coverage of countries examined from 40 to more than 50 reformulated his arguments and a large amount of new literature has been included The book is structured around five major dimensions power distance uncertainty avoidance individualism versus collectivism masculinity versus femininity and long term versus short term orientation *Civic Repentance* Amitai Etzioni,1999 This collection of essays by scholars of diverse backgrounds explores the notion of repentance in our culture focusing on individuals who have been excluded from society as a result of violating its laws What must these individuals do to gain redemption and be readmitted Amitai Etzioni argues that the lack of a well grounded concept of civic repentance has significant negative social consequences for our society Denying people the opportunity to regain their social standing and membership in their communities is simply unfair and the absence of such opportunities for restoration through repentance exacts heavy social costs The essays in this collection address these issues from a variety of perspectives and discuss possible ways of filling this void including restorative justice physician rehabilitation programs and religious reconciliation rituals

Alcohol and Pleasure Stanton Peele,Marcus Grant,2013-05-13 There is no simple threshold between the experience of drinking and the pleasure it can bring on the one hand and the pain and suffering caused by alcohol abuse on the other But if we are to understand the role of alcohol in society then at the very least we need to acknowledge the pleasure as well as the

pain Alcohol and Pleasure aims to bring together existing knowledge on the role of pleasure in drinking and determine whether the concept is useful for scientific understanding and policy consideration
