New Europe in Transition Peter Anderson, Georg Wiessala, Christopher Williams, 2001-01-01 The essays address the key

questions currently confronting Europe seeking to provide a broad based introduction to the post millennial politics of this complex continent These questions are addressed on three levels first at the level of the major institutions which straddle large parts of Europe NATO and the OSCE and the E U second from the perspective of a large sample of European countries including parts of the former Soviet Union and third with regard to the economic cultural and social dimensions of European society both East and West

The Spanish Economy Joseph Harrison, 1995-09-14 A concise survey of the Spanish economy from the end of the Civil War of 1936-9 to the present written specifically for students

Spain Joseph Harrison, David Corkill, 2016-03-09 Perhaps more than any other European country Spain has undergone a remarkable transformation in the post war period To the surprise of many it has succeeded in making the leap from a predominantly agricultural and politically repressed country to a modern European democracy with a diversified economy containing important manufacturing and service sectors Yet despite the fact that at the beginning of the twenty first century Spain is the world's eighth largest economy old stereotypes that see the Iberian nation as an inflexible unchanging society persist As such scholars will welcome this new study which challenges the picaresque and outdated notions of Spanish economic development replacing them with a picture of rapid and profound modernization Building upon the recent work of historians and economists the authors provide a thoughtful and compelling overview of the subject that clearly elucidates both the positive and negative aspects of modern Spanish development Thus as well as charting the undoubted successes achieved persistent problems most notably high unemployment are also explored Written in a straightforward and engaging manner this book engages with research from a wide variety of disciplines and will be of interest to anyone with a specific interest in modern Spain or a wider interest in economic development within the framework of the European Union

housing policy throughout Europe anchored in a thorough analysis of the UK this book is a text for students of housing at the undergraduate and graduate levels The book considers housing tenure types and looks at standards of living housing stock housing allowances and subsidies and European funds There are separate chapters for France Germany Spain The Netherlands and Sweden The later chapters focus on Britain and look more in depth at population issues and economics and address regional policy

Remaking Madrid H. Stapell, 2015-10-14 Remaking Madrid is the first full length study of Madrid's transformation from the dreary home of the Franco dictatorship into a modern and vibrant city It argues that this remarkable transformation in the 1980s helped secure Spain's fragile transition to democracy and that the transformation itself was primarily a product of regionalism even though the capital is typically associated with Spanishness and with the nation The official project to distance Madrid from its dictatorial past included urban renewal and administrative reform but above all it involved greater cultural participation which led the revival of the capital's public festivals and the development of a modern cultural outpouring known as the *movida madrileña* The book also explains the ultimate failure of regionalism in the capital by the end of the 1980s and asks whether or not Madrid's inclusive form of civic identity might have served as a model for the country as a whole

Contemporary Spanish Politics José M. Magone, 2004-07-31 This book gives fresh insight into the formal and informal workings of this dynamic southern European democracy thoroughly discussing history politics institutions parties economy and foreign policy at an introductory level

Retirement Migration Caroline Oliver, 2012-08-06 The book is the first ethnographic study of international retirement migration and offers a sometimes surprising picture of the potentials seductions and limitations of the lifestyles People envision retirement as freedom from responsibilities through shedding the restrictive shackles of their former selves in a time of life dedicated to fun friendship healthy activity and individual fulfillment However as Oliver documents a number of contradictions underpin the pursuits of such a lifestyle She shows how retirees must balance time use to achieve both freedoms and busy social schedules their activities their relationships and their cultural identities to balance both the security of nationality with the discovery of the new Retirement Migration gives a critical insight into the new ways aging identities are experienced by a growing number of older people in Western societies today
