The Mojo Hands Call I Must Go:

The Mojo Hands Call, I Must Go Sterling Plump, 1982 Plump's themes are all of a piece he probes his Mississippi beginning like a sore tooth poking at it getting pleasure and pain from its rawness and its elemental reverberations He continually counterpoints his down home cultural roots with brutal at times sardonic riffs on urban Chicago displacement This is his big theme Next to it though not secondary to it is his political commitment Additionally the collective history of black America haunts Plump He continually evokes this history directly and indirectly by his use of blues forms From Maria K Mootry Ikerionwu review in CLA journal volume 28 number 4 June 1985 page 468 **The Mojo Hands Call, I Must Go**

,1982 **Mississippi Writers** Dorothy Abbott, 1988-05 Poetry recounting the experience of growing up in the Deep South **Conversations with Sterling Plump** John Zheng, 2016-06-28 Conversations with Sterling Plump is the first collection of interviews with the renowned poet of Home Bass and other much admired works Spanning thirty years and drawn from literary and scholarly journals and other media these interviews offer insights into his poetic innovation of blues and jazz and his mastery of black vernacular in poetry This collection seems fundamental to an understanding of the life and work of an African American poet who has been innovative in fusing blues and jazz rhythms with poetic insight and in vivifying the vernacular landscape of African American poetry Born in 1940 in Clinton Mississippi Plump has been living in Chicago since 1962 Home Bass received the 2014 American Book Award The finest blues poet of his generation Plump became a model for contemporary poetry and poetics and a leading figure in the tradition of blues jazz poetry He continues to reinvent the language while exploring the registers of individual and communal memory and of local national and global history His poetry is important in attempts to define the black aesthetic from the era of the Harlem Renaissance to the seminal Black Arts Movement It is also important for its re articulation of the Great Migration especially expressed by blues musicians who left Mississippi for Chicago **Encyclopedia of the Blues** Edward M. Komara, 2006 This comprehensive two volume set brings together all aspects of the blues from performers and musical styles to record labels and cultural issues including regional evolution and history Organized in an accessible A to Z format the Encyclopedia of the Blues is an essential reference resource for information on this unique American music genre For a full list of entries contributors and more visit the Encyclopedia of the Blues website **The Lever of Riches** Joel Mokyr, 1992-04-09 In a world of supercomputers genetic engineering and fiber optics technological creativity is ever more the key to economic success But why are some nations more creative than others and why do some highly innovative societies such as ancient China or Britain in the industrial revolution pass into stagnation Beginning with a fascinating concise history of technological progress Mokyr sets the background for his analysis by tracing the major inventions and innovations that have transformed society since ancient Greece and Rome What emerges from this survey is often surprising the classical world for instance was largely barren of new technology the relatively backward society of medieval Europe bristled with inventions and the period between the

Reformation and the Industrial Revolution was one of slow and unspectacular progress in technology despite the tumultuous developments associated with the Voyages of Discovery and the Scientific Revolution What were the causes of technological creativity Mokyr distinguishes between the relationship of inventors and their physical environment which determined their willingness to challenge nature and the social environment which determined the openness to new ideas He discusses a long list of such factors showing how they interact to help or hinder a nation s creativity and then illustrates them by a number of detailed comparative studies examining the differences between Europe and China between classical antiquity and medieval Europe and between Britain and the rest of Europe during the industrial revolution He examines such aspects as the role of the state the Chinese gave up a millennium wide lead in shipping to the Europeans for example when an Emperor banned large ocean going vessels the impact of science as well as religion politics and even nutrition He questions the importance of such commonly cited factors as the spill over benefits of war the abundance of natural resources life expectancy and labor costs Today an ever greater number of industrial economies are competing in the global market locked in a struggle that revolves around technological ingenuity The Lever of Riches with its keen analysis derived from a sweeping survey of creativity throughout history offers telling insights into the question of how Western economies can maintain and developing nations can unlock their creative potential *Black American Literature Forum* ,1991 Provides image and full text online access to back issues Consult the online table of contents for specific holdings **Africana Studies** James L. Conyers,1997 Known variously as African studies black studies African American studies Afro American studies and Africology the academic study of the African diaspora as a holistic discipline is a relatively new phenomenon University programs have been created with reference to a disciplinary matrix retarding the development of appropriate theory and methods throughout Africana studies Fifteen leaders in the field of Africana studies provide the conceptual framework for establishing the field as a mature discipline The focus is on four basic areas administration and organizational structure disciplinary matrix Africana womanism and cultural aesthetics The work examines both the theory and the method of scholars in African and African diaspora studies **Black Southern Voices** John Oliver Killens,Jerry Washington Ward,1992 Anthology of fifty six African American Southern writers whose works address the living contradictions of the South *The Blues Encyclopedia* Edward Komara,Peter Lee,2004-07-01 The Blues Encyclopedia is the first full length authoritative Encyclopedia on the Blues as a musical form While other books have collected biographies of blues performers none have taken a scholarly approach A to Z in format this Encyclopedia covers not only the performers but also musical styles regions record labels and cultural aspects of the blues including race and gender issues Special attention is paid to discographies and bibliographies *Mississippi Poets* Catharine Savage Brosman,2020-08-25 Mississippi has produced outstanding writers in numbers far out of proportion to its population Their contributions to American literature including poetry rank as enormous Mississippi Poets A Literary Guide showcases forty seven poets associated with the state and assesses their work with the aim of appreciating it and its

place in today's culture. In Mississippi the importance of poetry can no longer be doubted. It partakes as Faulkner wrote of the broad aim of all literature to uplift man's heart. In *Mississippi Poets*, author Catharine Savage Brosman introduces readers to the poets themselves, stressing their versatility and diversity. She describes their subject matter and forms, their books and particularly representative or striking poems. Of broad interest and easy to consult, this book is both a source of information and a showcase. It highlights the organic connection between poetry by Mississippians and the indigenous music genres of the region, blues and jazz. No other state has produced such abundant and impressive poetry connected to these essential American forms. Brosman profiles and assesses poets from the twentieth and twenty-first centuries. Grounds for selection include connections between the poets and the state, the excellence and abundance of their work, its critical reception, and both local and national standing. Natives of Mississippi and others who have resided here draw equal consideration. As C. Liegh McInnis observed, "You do not have to be born in Mississippi to be a Mississippi writer. If what happens in Mississippi has an immediate and definite effect on your work, you are a Mississippi writer." *Mississippi Writers: Poetry*, Dorothy Abbott, 1985.

The Greenwood Encyclopedia of African American Literature: O-T, Hans A. Ostrom, J. David Macey, 2005. Designed to meet the needs of high school students, undergraduates, and general readers, this encyclopedia is the most comprehensive reference available on African American literature from its origins to the present. Other works include many brief entries or offer extended biographical sketches of a limited selection of writers. This encyclopedia surpasses existing references by offering full and current coverage of a vast range of authors and topics. While most of the entries are on individual authors, the encyclopedia gathers together information about the genres and geographical and cultural environments in which these writers have worked and the social, political, and aesthetic movements in which they have participated. Thus, the encyclopedia gives special attention to the historical and cultural forces that have shaped African American writing. Publisher: *Men of Our Time*, Fred Moramarco, Al Zolynas, 1992-10-01. In this groundbreaking volume, Fred Moramarco and Al Zolynas bring together a comprehensive and widely representative selection of poetry reflecting both the diversity and commodity of male experience in the United States today. Since the beginning of the contemporary phase of the women's movement in the 1960s, various anthologies devoted to the poetry of women have articulated and defined a distinctive sensibility attuned to the particularities of a woman's life in our time. Although much has been written recently about the male role in our society, as well, the discussion generally has assumed a sociopsychological or mythic perspective. Poetry, Moramarco and Zolynas believe, can reveal most about the nature of male life today, especially the enormous changes men have experienced in recent years. As the editors state in their introduction, "A quiet revolution has been taking place in men's poetry over the past few decades as men have been chronicling the history of their hearts and have been examining those relationships central to their being in the world: their connections to their fathers and mothers, their own sense of fatherhood and of being sons and brothers, their marriages, divorces, and other aspects of their love lives, as

well as the ways they conceive of maleness and femaleness The poems collected in *Men of Our Time* 257 from more than 170 poets include a wide mix of ethnic and racial perspectives that reflect the multicultural tenor of American life They reveal men s most intimate feelings about the loss of childhood sexual anxieties and fantasies aging self sufficiency and dependency and the perennial quest for a masculine identity Above all the poems are unapologetically grounded in a distinctly male experience or imagination *Men of Our Time* reclaims a poetry that is connected to and expressive of men s lives in the closing decade of the twentieth century
