Senses of Touch: Human Dignity and Deformity from Michelangelo to Calvin Marjorie O'Rourke Boyle,2021-10-11 Senses

of Touch anatomizes the uniquely human hand as a rhetorical figure for dignity and deformity in early modern culture It concerns a valuational shift from the contemplative ideal as signified by the sense of sight to an active reality as signified by the sense of touch From posture to piety from manicure to magic the book discovers touch in a critical period of its historical development in anatomy and society It features new interpretations of two landmarks of western civilization Michelangelo's fresco of the Creation of Adam and Calvin's doctrine of election It also accords special attention to the typing of women as sensual creatures by using their hands as a heuristic Its alternative interpretations explore in theory and in practice the sensuality the creativity and the plain utility of hands thus integrating biology and culture     *Rick Steves Best of Europe*
