The Hens Hat:

A Hat for Minerva Louise Janet Morgan Stoeke, 1997-01-01 Stoeke's second book about that intrepid screwball Minerva Louise is a rare find The Horn Book starred review The other chickens hate snowy mornings But not Minerva Louise To her a snowy day like everything else is an adventure But this chilly chipper hen needs something to keep her warm What she finds and how she finds it will keep young readers cackling Minerva Louise expresses a range of emotions from pleasure to curiosity A great choice for storytime School Library Journal starred review An ALA Notable Book A School Library Journal Best Book of the Year *Annual Report*, 1883 **American Poultry Advocate**, 1914 **Use It or Lose It** John David Merwin, 2004-04-12 USE IT OR LOSE IT This little volume has been designed as a self help tool for anyone intent on improving his or her memory skills While it is an accepted fact that physical exercise is an essential element in maintaining a healthy body there is seldom if ever a suggestion that regular brain exercises might play an important role in improving memory or in restoring a healthy brain The author draws upon his personal experience and the extensive study of memory phenomena over a span of half a century in selecting and presenting a series of exercises which if conscientiously followed can achieve meaningful results Recent clinical studies at London's University College and at the Albert Einstein Hospital in the Bronx New York confirm that Alzheimers patients who are beginning to forget names can learn to remember After just one month of training several of the patients showed considerable improvement Many of the feats of memory which are recommended in the later chapters of this volume are beyond the comprehension of the uninitiated and are often referred to as miracles They are in fact nothing more than the achievements of anyone who is truly determined to succeed in improving and or restoring his or her memory Should the mnemonic exercises described and recommended herein also prove helpful in improving the mental condition of persons in the early stages of Alzheimers the authors fondest hopes will surely be realized *The Independent*, 1920 **Ball Cap Nation** Jim Lilliefors, 2009-07-01 As the country grows increasingly diverse and complicated Americans seek and occasionally find a common thread to unite them And as Jim Lilliefors reveals in his new book that common thread is what the baseball cap is made of indeed what has transformed it into America's National Hat As fads go it's no longer even a fad but a part of the national identity that for better or worse is a symbol of America It feeds an illusion that Americans cherish that despite their differences and no matter what position they play when wearing a baseball cap they're all part of the same team Exploring every aspect of caps and their culture including the history manufacturing and evolution of baseball caps collecting and caring for caps cap etiquette and even cap urban legends and packed with photos throughout Ball Cap Nation is a delightful look at a uniquely American phenomenon **The Metal Gear Solid Series** Steven Kielich, Chris Hall, 2025-01-23 This collection arriving in the wake of the 25th anniversary of 1998's Metal Gear Solid provides scholars and fans alike with a wide ranging selection of critical essays on the franchise from diverse disciplinary and thematic perspectives With the conclusion of Hideo Kojima's Metal Gear Solid video game series only

recently behind us it is now both possible and essential to study this critically commercially and culturally resonant series as a whole The essays contained in this volume which are all new contributions from both established and emerging scholars take up this crucial opportunity to consider and reconsider the cultural historical political philosophical and aesthetic impact of the Metal Gear Solid games in analyses spanning the series canonical entries adding to the understanding of both well studied installments and under examined ones These contributions connect themes that emerge from the games such as sexuality and queerness rhetoric and ethics and subjectivity and embodiment while also demonstrating how the series opens up broader questions about ecology race gender militarization pedagogy and game design that demand continued analysis and application Each essay develops new avenues for theoretical rhetorical and political exploration of the Metal Gear Solid series for Game Studies and for the study of Popular Culture writ large As the first collection of critical inquiries into the Metal Gear Solid series this volume serves as crucial exegesis of and critical companion to any future study of the series by celebrating critiquing and critically interrogating its entries rich cultural and disciplinary import
