Anxiety - The Inside Story Niall McLaren, 2018 In *Anxiety The Inside Story* the author takes a critical look at modern psychiatry's twin notions that all mental disorders are biological in nature but anxiety is hardly worth worrying about. By the simple process of taking a careful detailed history Niall McLaren shows that anxiety is far more common and far more destructive than mainstream psychiatry realizes. Detailed case histories chart how anxiety arises as a psychological disorder and how it reinforces itself to the point where it destroys lives. McLaren concludes that anxiety is a major factor in most mental disorders especially depression and bipolar disorder. This book will change your understanding of mental disorders. Niall Jock McLaren writes as he speaks and he pulls no punches. I love this. People should listen to what he has to say about the academic corruption of his specialty psychiatry. Read this book. The man is unique And funny as well. Prof Peter Gotzsche, Director Nordic Cochrane Centre, Copenhagen. Debilitating anxieties are frequently misdiagnosed as depression by GPs and specialists alike. In this wonderfully accessible account of anxiety Dr McLaren demonstrates with great clarity and very movingly how a case history approach can help patients confront and overcome their psychological

demons He provides compelling evidence that instead of drugging people listening to them attentively and analytically has to be the beginning of the healing process Dr Allan Patience University of Melbourne Anxiety The Inside Story offers readers a devastating blistering critique of psychiatry together with a provocative exploration of how anxiety so often dismissed as a minor difficulty should be understood as the root cause of so much suffering which manifests in a diverse range of behaviors that get wrongly categorized as distinct psychiatric illnesses Niall McLaren presents a compelling case that psychiatric care in Australia and beyond needs to be completely rethought Robert Whitaker author of Mad in America and Psychiatry Under the Influence From Future Psychiatry Press Learn more at www.FuturePsychiatry.com The ^AView from Everywhere

Helen Yetter-Chappell,2025-05-02 Helen Yetter Chappell here explores novel ideas about the nature of reality and our place within it She rigorously develops a nontheistic form of idealism and offers a unique account of how our minds relate to the world This view renders reality intelligible and captures important elements of commonsense that are left out of a stark scientific image of the world Other topics she explores include science illusion and the mind body problem The View from Everywhere shows that there are distinctive benefits to embracing idealism benefits that should lead us to reassess our commitment to materialist orthodoxy *The Uttal Tetralogy of Cognitive Neuroscience* William R. A. Longhurst,2017-07-05 Miguel de Unamuno 1864 1936 is widely regarded as Spain s greatest and most controversial writer of the first half of the twentieth century Professor of Greek and later Rector at the University of Salamanca and a figure with a noted public profile in his day he wrote a large number of philosophical political and philological essays as well as poems plays and short stories

but it is his highly idiosyncratic novels for which he coined the word *novela* that have attracted the greatest critical attention *Niebla* 1914 has become one of the most studied works of Spanish literature such is the enduring fascination which it has provoked In this study C A Longhurst a distinguished Unamuno scholar sets out to show that behind Unamuno's fictional experiments there lies a coherent and quasi philosophical concept of the *novela* genre and indeed of writing itself Ideas about freedom identity finality mutuality and community are closely intertwined with ideas on writing and reading and give rise to a new and highly personal way of conceiving fiction
