Trigger,1988-09-01 Trigger s work integrates insights from archaeology history ethnology linguistics and geography This wide knowledge allows him to show that far from being a static prehistoric society quickly torn apart by European contact and the fur trade almost every facet of Iroquoian culture had undergone significant change in the centuries preceding European contact He argues convincingly that the European impact upon native cultures cannot be correctly assessed unless the nature and extent of precontact change is understood His study not only stands Euro American stereotypes and fictions on their heads but forcefully and consistently interprets European and Indian actions thoughts and motives from the perspective of the Huron culture The Children of Aataentsic revises widely accepted interpretations of Indian behaviour and challenges cherished myths about the actions of some celebrated Europeans during the heroic age of Canadian history In a new preface Trigger describes and evaluates contemporary controversies over the ethnohistory of eastern Canada *Utility Corporations* United States.
