The Holy Monastery of St Catherine on Mount Sinai has been characterized by scholars as the most celebrated of the world's monasteries while in the conscience of the Orthodox peoples it was and remains the most revered and longed for focus of pilgrimage after the Holy Places. In the course of the Monastery's fifteen centuries of uninterrupted life and despite the great difficulties faced in the midst of alien peoples not only has St Catherine's managed to maintain the Orthodox faith intact and provide the Church and the Ecumenical Patriarchate with pre eminent figures of Asceticism but it also secured special privileges from the Prophet Mohammed and at a later date from popes of Rome and leaders of both the East and West. The Monastery thus proved itself a great spiritual hearth of Hellenism rendering the most distinguished service to monasticism. Orthodoxy the Church and the Greek people. At the same time the Monastery acquired international fame as a unique centre of Byzantine icon painting. Here the specialist may study the uninterrupted development of this art from the 6th century up till the present day. Furthermore the Monastery also developed its own Sinaitic school of icon painting with its own stylistic techniques and Sinaitic subject matter. Examples of this school's work are encountered not only in icons but also in illuminated manuscripts of the calligraphic and chrysographic workshop of the Monastery's world famous Library. The Monastery of Sinai moreover surrounded as it is by the fortification walls built by its founder the Emperor Justinian and isolated in the inhospitable desert was through the centuries a secure haven for invaluable works of art sent from all corners of the Earth as devout offerings of the faithful. Byzantine, Post Byzantine and Modern Greek works representing all types of ecclesiastical art make up the artistic treasures of the Monastery.

The first comprehensive study of the monastery of St Catherine at Mt Sinai in its full historical, art historical and religious dimensions, the nineteen collected essays in *Approaching the Holy Mountain* provide a unique view of the longest continuously inhabited Christian monastery. As an important pilgrimage site, Sinai enjoyed an international reputation in the Middle Ages. The monastery also benefited from regional connections to Egypt and the Holy Land. The essays in this volume examine the pilgrims, monks

artists builders and scholars who came to the mountain and left their marks on the monastery and its holdings as well as the image of the monastery that was promoted outside of Sinai Because of its dry isolated location in the Sinai desert the monastery possesses the world s greatest collection of Byzantine icons These icons have been celebrated in highly popular exhibitions in Athens London St Petersburg New York and Los Angeles few longer studies of the icons have been attempted In this volume authors investigate icons from the sixth to the sixteenth centuries and offer new interpretations of their meaning provenance and function Essays also explore celebrated illuminated Byzantine manuscripts in the library of St Catherine s pilgrim s accounts of the monastery a recently excavated early church on the summit of Mt Sinai liturgy at Sinai during the first Christian millennium the influence of Sinai on later paintings and engravings and the recent history of Sinai studies The result is a significant advance in our understanding of one of the most important centres of early Christianity

Weitzmann, George Galavaris, 1990 At the Monastery of St Catherine at Mount Sinai is preserved the one Byzantine monastic library that antedates those on Mount Athos and the only one that retains something like its medieval profile Kurt Weitzmann and George Galavaris present a catalogue of the sixty nine illuminated manuscripts from the period between the ninth century and about 1200 The visual documentation amounts to over 700 illustrations including ornamental decorations many never before published The discussions of the manuscripts include palaeographical and codicological data and information on the history and condition bindings illustrations and iconography and style of each item A bibliography is also included for each The introduction gives a survey of the history and vicissitudes of the library which is now housed in a fireproof building Some of the manuscripts were certainly produced on Sinai while others may be attributed to the eastern or western provinces of the Empire The finest are Constantinopolitan works of outstanding quality and merit A second volume to appear later will include the manuscripts written between the thirteenth and fifteenth centuries      **The Monastery of Saint Catherine** Oriana Baddeley, Earleen Brunner, Foundation for Hellenic Culture (London, England), 1996
