The Importance of Marital Separation and Divorce

Marital separation is one of the most profound experiences that a human being can undergo. Marriage is one of those institutions involving a lifetime bond, marriage, and death. Most people in our civilization do marry, and for all but a very few, marrying is associated with family-related changes in their state of consciousness, their partners, and the world. The marriage ceremony makes the transition from the family of origin to a new family, consisting of the two married partners and possibly their children.

An individual entering into marriage undergoes transitions in intrapsychic, interpersonal, and social spheres. He or she usually directs most drives for social satisfaction toward a unique object he or greater, rather than most nonmarital adults do.

• The married partner may be the object of a full range of strategies, that drive, ranging from various infantile components to sophisticated drives for mature adult sexuality. A married partner may fulfill needs for pleasure or the nurtured, he control or be controlled, he give or be given to, he gratify or be gratified sexually, and he triggers anger or the other targets of children's anger.

• Whereas the intrapsychic integration focuses on the infant psychobiological of our person, the interpersonal approach considers interactions between two or three people. Viewing marriage from this perspective, a couple interacts in many aspects of life. These include common living arrangements, legal and financial contracts, mutualities, role assign-

Therapy with Single Parents Joan D Atwood, Frank Genovese, 2014-02-25 Provide effective counseling to members of single parent families With more than half of all first marriages ending in divorce it's time to rethink the notion that divorce means failure Therapy with Single Parents focuses on the strengths of the single parent family rather than its weaknesses stressing the need to look at the socially constructed norms values and definitions associated with marriage and family in order to provide effective counseling This unique book examines experiences that are common to single parents and presents interventive strategies for treating single parent family issues drawing on clinical case studies to provide technical knowledge in everyday language Current research shows that single parents account for 27 percent of family households that

include children under 18 and that the number of single mothers in the United States more than tripled between 1970 and 2000. *Therapy with Single Parents* challenges outdated notions that the single parent family is somehow deficient and associated with adjustment problems in children. It doesn't ignore the anger, pain, sadness, and guilt experienced by many members of single parent families but offers therapeutic considerations from a more balanced approach. The book examines the social, psychological, and sexual experiences of newly single parents and addresses the ups and downs they'll face in dealing with schools, the workplace, and social services. *Therapy with Single Parents* examines social and psychological differences between divorce and widowhood, cognitive behavioral principles of single parent families, what children can learn from divorce, dealing with the ghosts of past relationships, relationship rules, dealing with adult children and extended families, the effect of change in divorcing families, the feminization of poverty, the therapeutic value of social networks. *Therapy with Single Parents* is an invaluable resource for psychologists, professional counselors, social workers, and marriage and family therapists. The book presents a thorough, in-depth examination of the single parent family system as a viable, healthy family form.

Handbook of Community Psychology Julian Rappaport, Edward Seidman, 2012-12-06. As a field progresses, people write about their own work in journals, chapters, and books, but periodically the work needs to be collected and organized. It needs to be brought together in a format that can both introduce new members to the field and reacquaint continuing members with the work of their colleagues. Such a collection also affords an opportunity for the growing number of people with particular expertise to provide a reference for others whose work is related but differs in focus. This is the first *Handbook of Community Psychology*. It contains contributions from 106 different authors in addition to our editorial introductions. Its thirty-eight chapters, including two that are divided into multiple individually authored parts, are concerned with conceptual frameworks, empirically grounded constructs, intervention strategies and tactics, social systems design, assessment and analysis, cross-cutting professional issues, and contemporary intersections with community psychology. Although interrelated, each chapter stands on its own as a statement about a particular part of the field, and the volume can serve as a reference for those who may want to explore an area about which they are not yet familiar. To some extent, community psychologists eschew the distinction between researcher and practitioner, and regardless of one's primary work environment—university, small college, practice setting, government, or grassroots organization—there is something of interest for anyone who wants to explore the community psychology approach.

Is There Life after Divorce in the Church? Richard L. Morgan, 2006-04-01. Richard L. Morgan has produced a welcome resource for those of us who have been divorced and felt we were beyond the pale of the Christian community. It is true that Jesus speaks against divorce, but it is also true that some New Testament scholars believe he was speaking to protect the rights of the oppressed under ancient law, the oppressed being women. On the other hand, divorce is a painful experience that impacts over half of those who married. It cannot be ignored by religious leaders, some of whom themselves may be divorced. If we believe in acknowledging sin without casting

the sinner out we need to find ways of healing in churches I always reminded myself in giving sermons that if national statistics were right half of my listeners had been impacted by divorce Rev Dr John C Morgan minister teacher and author of *Awakening the Soul* Richard Lyon Morgan is a retired Presbyterian minister and pastoral counselor now living at Redstone Highlands North Huntingdon Pennsylvania In addition to his doctorate in church history he has a master s degree in counseling from Wake Forest University A former pastoral counselor with School of Pastoral Care he has led divorce support groups and counseled many persons young and old going through the process of divorce Dr Morgan is divorced and married again with ten grandchildren
