Encoded Archival Description on the Internet Wendy Duff, Daniel V Pitti, 2024-12-20 Archivists and librarians here is the perfect introduction to archival description and its latest technological applications Encoded Archival Description on the Internet introduces a variety of perspectives that will assist you in deciding whether EAD is an appropriate tool in a given context and if it provides the knowledge you need to begin planning organizing and implementing projects and programs in your library This informative book shows how archival description differs from bibliographic description presents EAD as a standard and shows its relation to the MARC format and other standards discusses implementation issues examines museum use of EAD gives you an overview of the history of the development of EAD explores the reference implications of EAD discusses implications for nontraditional users examines the concept of union universal access to archives EAD version 1 0 was formally released by the Society of American Archivists and the Library of Congress Network Development and MARC Standards Office in autumn 1998 Since then a great number of institutions have invested significant time and money to prepare for implementation of EAD programs The most compelling reason for EAD s success is that in the words of Editors Pitti and Duff Archivists recognize in EAD their shared principles and practice and have embraced EAD not as a full realization of all of their expectations but as common ground upon which they can negotiate and realize the future of one of the profession s central responsibilities Encoded Archival Description on the Internet shows how EAD will not only benefit the public but also librarians and archivists It describes how information professionals will now be able to easily share information about complementary records and collections and to virtually integrate collections related by provenance but dispersed administratively or by geographic distance

Archiving Websites Adrian Brown, 2006-06 This important book is the first to offer practical guidance to information management professionals seeking to implement web archiving programmes of their own It is essential reading for those who need to collect and

preserve specific elements of the web from national domains or individual subject areas to an organization's own website. Drawing on the author's experience of managing the National Archives web archiving programme together with lessons learned from other international initiatives, this book provides a comprehensive overview of current best practice. It assumes only a basic understanding of IT and web technologies but also offers much to more technically oriented readers. Contents include the development of web archiving selection policies, collection methods, quality assurance, preservation, delivery to user, optimizing websites for archiving, legislation, managing a web archiving programme, future trends. Readership: Written to address audiences from the whole spectrum of information management sectors, this book is vital reading for three types of reader: policy makers who need to make decisions about establishing or developing an institutional web archiving programme; information management professionals who may be required to implement a web archiving programme; and website owners and web masters who may be required to facilitate archiving of their own websites. *Archives of Philosophy*, 1907

Archives and Authority Control Avra Michelson, 1989 **Recordkeeping in International Organizations** Jens Boel, Eng Sengsavang, 2020-12-29 *Recordkeeping in International Organizations* offers an important treatment of international organizations from a recordkeeping perspective while also illustrating how recordkeeping can play a vital role in our efforts to improve global social conditions. Demonstrating that organizations have both a responsibility and an incentive to effectively manage their records in order to make informed decisions, remain accountable to stakeholders and preserve institutional history, the book offers practical insights and critical reflections on the effective management, protection and archiving of records. Through policy advice, surveys, mind mapping, case studies and strategic reflections, the book provides guidance in the areas of archives, records and information management for the future. Among the topics addressed are educational requirements for recordkeeping professionals, communication policies, data protection and privacy, cloud computing, classification and declassification policies, artificial intelligence, risk management, enterprise architecture and the concepts of extraterritoriality and inviolability of archives. The book also offers perspectives on how digital recordkeeping can support the UN's 2030 Agenda for Sustainable Development and the accompanying Sustainable Development Goals (SDGs). *Recordkeeping in International Organizations* will be essential reading for records and archives professionals, information technology, legal, security, management and leadership staff, including chief information officers. The book should also be of interest to students and scholars engaged in the study of records, archives and information management, information technology, information security and law. Chapters 7 and 9 of this book are freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Attribution NonCommercial ShareAlike CC BY NC SA 4.0 license. **Annual Report for the Year Ended ...** United States.
