Stanford Quad 1930:

The Stanford Quad, 1930 Stanford University, 2013-06 Published June 1930 By The Associated Students Of Stanford University Etc **The Stanford Quad**, 1924 **The Stanford Album** Margo Baumgartner Davis, Roxanne Nilan, 1989 The Stanford Album brings together some 600 photographs largely unpublished and an interpretive text to tell the story of the community life of Stanford University from the University's creation in 1885 through the Second World War. It is a fitting coincidence that at the same time Stanford is celebrating its Centennial Years 1985-91 the art of photography has reached its own anniversary of 150 years since the birth of the daguerreotype. The founders of the university Jane and Leland Stanford sat for their wedding portraits in 1850 and these daguerreotypes were just the beginning of the Stanfords' fascination with patronage of the new art form. Leland Stanford's perception of the value of the camera as a medium of documentation resulted in a superb pictorial record of the planning, construction and dedication of the university, some of which is reproduced in *The Stanford Album*. By the turn of the century technical advances in photography made possible the small handheld camera and at Stanford the snapshot image of campus life began to proliferate. Commercial photographers mainly concentrated on athletic events, drama productions, student parades and other campus rituals; students who owned cameras intruded everywhere with the mysterious little boxes into dormitories, fraternities and sororities, classrooms, dances, picnics and beer busts. The book revisits a bygone Stanford. Through the magic of the camera lens a vanished world of college life comes alive again and we can see the community that existed yesterday under the same arcades where those at Stanford today study, work and stroll. *San Francisco in the 1930s* Federal Writers' Project of the Works Progress Administration of Northern California, 2011-04-05 Originally published New York: Hastings House, 1940 as part of the American Guide series. Title of rev. 2d ed. 1947 was *San Francisco: the bay and its cities*. *California in the 1930s* Federal Writers' Project, 2013-04-23. Alive with the exuberance, contradictions and variety of the Golden State, this Depression-era guide to California is more than 700 pages of information that is, as David Kipen writes in his spirited introduction, anecdotal, opinionated and altogether habit-forming. Describing the history, culture and roadside attractions of the 1930s, the WPA Guide to California features some of the very best anonymous literature of its era, with writing by luminaries such as San Francisco poet Kenneth Rexroth, composer, writer, hobo Harry Partch and authors Tillie Olsen and Kenneth Patchen. [Public Papers of the Presidents of the United States](#) United States. President, 1976. Containing the public messages, speeches and statements of the President, 1956-1992. **The ^ADream Endures** Kevin Starr, 2002-11-28. What we now call the good life first appeared in California during the 1930s: motels, home trailers, drive-ins, barbecues, beach life and surfing, sports from polo and tennis and golf to mountain climbing and skiing, sportswear (a word coined at the time) and sun suits were all a part of the good life. Perhaps California's most distinctive influence of the 1930s. In *The Dream Endures* Kevin Starr shows how the good life prospered in California in pursuits such as film, fiction, leisure and architecture and helped to define American culture and

society then and for years to come Starr previously chronicled how Californians absorbed the thousand natural shocks of the Great Depression unemployment strikes Communist agitation reactionary conspiracies in *Endangered Dreams* the fourth volume of his classic history of California In *The Dream Endures* Starr reveals the other side of the picture examining the newly important places where the good life flourished like Los Angeles where Hollywood lived Palm Springs where Hollywood vacationed San Diego where the Navy went the California Institute of Technology in Pasadena where Einstein went and changed his view of the universe and college towns like Berkeley We read about the rich urban life of San Francisco and Los Angeles and in newly important communities like Carmel and San Simeon the home of William Randolph Hearst where each Thursday afternoon automobiles packed with Hollywood celebrities would arrive from Southern California for the long weekend at Hearst Castle The 1930s were the heyday of the Hollywood studios and Starr brilliantly captures Hollywood films and the society that surrounded the studios Starr offers an astute discussion of the European refugees who arrived in Hollywood during the period prominent European film actors and artists and the creative refugees who were drawn to Hollywood and Southern California in these years Igor Stravinsky Arnold Schoenberg Man Ray Bertolt Brecht Christopher Isherwood Aldous Huxley Thomas Mann and Franz Werfel Starr gives a fascinating account of how many of them attempted to recreate their European world in California and how others like Samuel Goldwyn provided stories and dreams for their adopted nation Starr reserves his greatest attention and most memorable writing for San Francisco For Starr despite the city's beauty and commercial importance San Francisco's most important achievement was the sense of well being it conferred on its citizens It was a city that magically belonged to everyone Whether discussing photographers like Edward Weston and Ansel Adams hard boiled fiction writers or the new breed of female star Marlene Dietrich Jean Harlow Bette Davis Carole Lombard and the improbable Mae West *The Dream Endures* is a brilliant social and cultural history in many ways the most far reaching and important of Starr's California books 66 Years on the California Gridiron, 1882-1948 S.
