

STANLEY BALDWIN

PHILIP WILLIAMSON

Stanley Baldwin Conservative Leadership And National Values

Ferenc Hörcher, Daniel Pitt

Stanley Baldwin Conservative Leadership And National Values:

Stanley Baldwin Philip Williamson,2007-05-31 This book is both an examination of one of the dominant figures of twentieth century British politics and a contribution to the understanding of political leadership and Conservative ideology It reinterprets the career of Stanley Baldwin Conservative leader 1923-37 and three times prime minister in terms of his construction of a public character his exploitation of the new mass media and his exposition of a distinctive Conservative doctrine and language Baldwin's remarkable ascendancy is shown to have been based on his manipulation of widely held national values

Stanley Baldwin Philip Williamson,2002-06 This book is both an examination of one of the dominant figures of twentieth century British politics and a contribution to the understanding of political leadership and Conservative ideology It reinterprets the career of Stanley Baldwin Conservative leader 1923-37 and three times prime minister in terms of his construction of a public character his exploitation of the new mass media and his exposition of a distinctive Conservative doctrine and language Baldwin's remarkable ascendancy is shown to have been based on his manipulation of widely held national values

Popular Conservatism and the Culture of National Government in Inter-War Britain Geraint Thomas,2020-11-05 A radical reading of British Conservatives fortunes between the wars exploring how the party adapted to mass democracy after 1918

Veteran MPs and Conservative Politics in the Aftermath of the Great War Richard Carr,2016-03-03 Between 1918 and 1939 448 men who performed uniformed service in the First World War became Conservative MPs This relatively high profile cohort have been under explored as a distinct body yet a study of their experiences of the war and the ways in which they and the Conservative Party represented those experiences to the voting public reveals much about the political culture of Interwar Britain and the use of the Great War as political capital Radicalised ex servicemen have thus far been considered a rather continental phenomenon historiographically And whilst attitudes to Hitler and Mussolini form part of this analysis the study also explores why there were fewer such types in Britain The Conservative Party it will be shown played a crucial part in such a process with British politics serving as a contested space for survivors interpretations of what the war should mean

British Conservative Leaders Charles Clarke,Toby S. James,Tim Bale,Patrick Diamond,2025-09-30 As the party that has held power more times than any other the Conservatives have played a crucial role in the shaping of British society And yet the leaders who have stood at its helm from Sir Robert Peel to Rishi Sunak via Winston Churchill and Margaret Thatcher have steered the party vessel with enormously varying degrees of success particularly latterly when the short but destructive tenures of Boris Johnson and Liz Truss did much to damage the party's reputation for competence The requirements techniques and goals of Conservative leadership since the party's nineteenth century factional breakaway have been forced to evolve almost beyond recognition and not all its leaders have managed to keep up This comprehensive and enlightening book now fully updated with chapters on all Conservative leaders up to Rishi Sunak and an assessment of the party's leadership in relation to Brexit considers the attributes and

achievements of each leader in the context of their respective time and diplomatic landscape Offering a compelling analytical framework by which they may be judged it also provides detailed personal biographies from some of the country's foremost political critics and exclusive interviews with former leaders themselves An indispensable contribution to the study of party leadership British Conservative Leaders is the essential guide to understanding British political history and governance

The Conservatives - A History Robin Harris, 2011-11-10 The history of the Conservative party has extraordinarily rarely been written in a single volume for the general reader There are academic multi volume accounts and a multitude of smaller books with limited historical scope But now Robin Harris Margaret Thatcher's speechwriter and party insider has produced this authoritative but lively history book which tells the whole story and fills a gaping hole in Britain's historiographical record Taking as his starting point the larger than life personalities of the Conservative Party's leaders and prime ministers since its inception Robin Harris's book also analyses the interconnected themes and issues which have dominated Conservative politics over the years The careers of Peel Disraeli Salisbury Baldwin Chamberlain Churchill Eden Macmillan Heath Thatcher Major Hague and Cameron together amount to an alternative history of Britain since the early nineteenth century This landmark book is essential reading for anyone with an interest in history or politics or anyone who has ever wondered how Britain came to be the nation it is today

Training minds for the war of ideas Clarisse Berthezène, 2024-06-04 This book examines attempts by the Conservative party in the interwar years to capture the brains of the new electorate and create a counter culture to what they saw as the intellectual hegemony of the Left It tells the fascinating story of the Bonar Law Memorial College Ashridge founded in 1929 as a College of citizenship to provide political education through both teaching and publications The College aimed at creating Conservative Fabians who were to publish and disseminate Conservative literature which meant not only explicitly political works but literary historical and cultural work that carried implicit Conservative messages This book modifies our understanding of the history of the Conservative party and popular Conservatism but also more generally of the history of intellectual debate in Britain It sheds new light on the history of the middlebrow and how that category became a weapon for the Conservatives

God In Number 10 Mark Vickers, 2022-10-20 Mark Vickers has given us a wonderful new reference book of the beliefs and non beliefs of 20th century PMs a meaty volume that can also be consumed as a social history of British religion THE TELEGRAPH This carefully researched and well written study reveals the religious faith of our Prime Ministers or lack of it in vivid colours Prepare to be shocked and surprised as the author lays bare their souls SIR ANTHONY SELDON Mark Vickers acclaimed volume on the faith of the twentieth century Prime Ministers casts a new perspective on these holders of the highest political office in the realm While there are biographies aplenty on the 18 men and 1 woman who took up residence behind the famous black door it is notable that that many of these works fail to reflect an important sometimes the most important aspect of the life of their subject God in Number 10 rectifies this omission offering intriguing insights into Margaret Thatcher's legendary Sermon on

the Mound Tony Blair's perception of Jesus as a modernizer Arthur Balfour's recourse to spiritualism Stanley Baldwin's mystical experiences and Winston Churchill's involvement with astrology The book considers the role of religion generally in the political classes of the period the reasons for the declining influence of faith in the public forum and the relationship between Church and State The families of H H Asquith Bonar Law Ramsay MacDonald Neville Chamberlain Harold Macmillan Alec Douglas Home and Harold Wilson have all expressed their support for God in Number 10 and where able helped in the research while John Major has assisted fully

Intellectual Conservatism Ferenc Hörcher, Daniel Pitt, 2025-09-29 This book examines the history of intellectual conservatism from its late 18th century founding father Edmund Burke to its last great representative the late Sir Roger Scruton Focusing on British intellectual conservatism and investigating this under researched area of political thought through multiple contributions and disciplines the editors aim is to provide an account of the supportive or critical intellectual work behind conservative politics in the 19th and 20th century with a long term view on the modern conservative movement It is an up to date account of some of the major theoretical issues of conservatism that utilises case studies to provide pictures of particular conservative intellectuals explain key concepts and reconstruct major schools and defining debates within conservatism There is a particular focus on the role of Christianity the British common law tradition and on the connection between culture and politics Intellectual Conservatism From Burke to Scruton is valuable for university students studying history political science PPE or the social sciences as well as those interested in the contemporary debates in Western politics on the future of Europe and the US

The Cambridge History of Christianity: Volume 9, World Christianities C.1914-c.2000 Hugh McLeod, 2006-01-12 A comprehensive history of Christianity in the century when it truly became a global religion

Empire, Politics and the Creation of the 1935 India Act Andrew Muldoon, 2016-05-06 The 1935 Government of India Act was arguably the most significant turning point in the history of the British administration in India The intent of the Act a proposal for an Indian federation was the continuation of British control of India and the deflection of the challenge to the Raj posed by Gandhi Nehru and the nationalist movement This book seeks to understand why British administrators and politicians believed that such a strategy would work and what exactly underpinned their reasons It is argued that British efforts to defuse and disrupt the activities of Indian nationalists in the interwar years were predicated on certain cultural beliefs about Indian political behaviour and capacity However this was not simply a case of Orientalist policy making Faced with a complicated political situation a staggering amount of information and a constant need to produce analysis the officers of the Raj imposed their own cultural expectations upon events and evidence to render them comprehensible Indians themselves played an often overlooked role in the formulation of this political intelligence especially the relatively few Indians who maintained close ties to the colonial government such as T B Sapru and M R Jayakar These men were not just mediators as they have frequently been portrayed but were in fact important tacticians whose activities further demonstrated the weaknesses of the colonial information economy The author employs

recently released archival material including the Indian Political Intelligence records to situate the 1935 Act in its multiple and overlapping contexts internal British culture and politics the imperial information order in India and the politics of Indian nationalism This rich and nuanced study is essential reading for scholars working on British Indian and imperial history

Labour and the Countryside Clare V. J. Griffiths, 2007-05-10 The common reputation of the British Labour Party has always been as a thing of the town an essentially urban phenomenon which has failed to engage with the rural electorate or identify itself with rural issues Yet during the inter war years Labour viewed the countryside as a crucial electoral battleground even claiming that the party could never form a majority administration without winning a significant number of seats across rural Britain Committing itself to a series of campaigns in rural areas during the 1920s and 30s Labour developed a rural and often specifically agricultural programme on which to attract new support and members Labour and the Countryside takes this forgotten chapter in the party's history as a starting point for a fascinating and wide ranging re examination of the relationship between the British Left and rural Britain The first account of this aspect of Labour's history this book draws on extensive research across a wide variety of original source material from local party minutes and trade union archives to the records of Labour's first two periods in government Historical literary and visual representations of the countryside are also examined along with newspapers magazines and propaganda materials In reconstructing the contexts within which Labour attempted to redefine itself as a voice for the countryside the resulting study presents a fresh perspective on the political history of the inter war years

Neo-Tories Bernhard Dietz, 2018-05-31 The danger to British democracy in the interwar period came from a different source to that which has thus far been assumed It came from a network of radical conservatives who challenged the political system and sought to replace it with an authoritarian corporate state In this book Bernhard Dietz provides the first systematic analysis of this network and its members which are called Neo Tories With strong links to the European right yet a minority back home this group of British conservatives are all the more fascinating today because it is on their ultimate failure that the success of British democracy rested

Mosley and British Politics 1918-32 D. Howell, 2014-10-21 Oswald Mosley has been reviled as a fascist and lamented as the lost leader of both Conservative and Labour Parties Concerned to articulate the demands of the war generation and to pursue an agenda for economic and political modernization his ultimate rejection of existing institutions and practices led him to fascism

Evolution of the British Party System Robert C. Self, 2014-07-30 By the end of the nineteenth century reform and development of the British electoral system had inaugurated a new style of mass politics which fundamentally transformed the face of the British party system This book traces the evolution of recognisably modern parties from their roots in the 1880s through half a century of dramatic change in organisational structure electoral competition and constitutional thought In the House of Commons the Labour Party replaced the Liberals as the radical answer to the Conservative Party In the country at large the complex web of Victorian social regional and religious allegiances gave way to a cruder but more

dynamic model of modern political loyalties The transformation at Westminster and in the constituencies is surveyed in relation to changes to the franchise including the vote for women class consciousness political organisation and doctrine The comprehensive account explains the varying fortunes of the parties in the face of mass democracy collectivism the First World War and economic uncertainty It also provides a critical insight into the debates and conflicts of interpretation which surround this pivotal period in British political history British Prime Ministers From Balfour to Brown Robert

Pearce, Graham Goodlad, 2013-09-02 The origins of the post of Prime Minister can be traced back to the eighteenth century when Sir Robert Walpole became the monarch's principal minister From the dawn of the twentieth century to the early years of the twenty first however both the power and the significance of the role have been transformed British Prime Ministers from Balfour to Brown explores the personalities and achievements of those twenty individuals who have held the highest political office between 1902 and 2010 It includes studies of the dominant premiers who helped shape Britain in peace and war Lloyd George Churchill Thatcher and Blair as well as portraits of the less familiar from Asquith and Baldwin to Wilson and Heath Each chapter gives a concise account of its subject's rise to power ideas and motivations and governing style as well as examining his or her contribution to policy making and handling of the major issues of the time Robert Pearce and Graham Goodlad explore each Prime Minister's interaction with colleagues and political parties as well as with Cabinet Parliament and other key institutions of government Furthermore they assess the significance and current reputation of each of the premiers This book charts both the evolving importance of the office of Prime Minister and the continuing restraints on the exercise of power by Britain's leaders These concise accessible and stimulating biographies provide an essential resource for students of political history and general readers alike *Postwar Conservatism, A Transnational Investigation* Clarisse

Berthezène, Jean-Christian Vinel, 2017-04-19 This volume offers a unique comparative perspective on post war conservatism as it traces the rise and mutations of conservative ideas in three countries Britain France and the United States across a short twentieth century 1929 1990 and examines the reconfiguration of conservatism as a transnational phenomenon This framework allows for an important and distinctive point the 1980s were less a conservative revolution than a moment when conservatism understood in Burkean terms was outflanked by its various satellites and political avatars namely populism neoliberalism reaction and cultural and gender traditionalism No long running unique conservative mind comes out of this book's transnational investigation The 1980s did not witness the ascendancy of a movement with deep roots in the 18th century reaction to the French Revolution but rather the decline of conservatism and the rise of movements and rhetoric that had remained marginal to traditional conservatism **Electoral Pledges in Britain Since 1918** David Thackeray, Richard

Toye, 2020-08-04 Nobody doubts that politicians ought to fulfil their promises what people cannot agree about is what this means in practice The purpose of this book is to explore this issue through a series of case studies It shows how the British model of politics has changed since the early twentieth century when electioneering was based on the articulation of

principles which it was expected might well be adapted once the party or politician that promoted them took office. Thereafter manifestos became increasingly central to electoral politics and to the practice of governing and this has been especially the case since 1945. Parties were now expected to outline in detail what they would do in office and explain how the policies would be paid for. Brexit has complicated this process with the will of the people as supposedly expressed in the 2016 referendum result clashing with the conventional role of the election manifesto as offering a mandate for action.

World War II Spencer C. Tucker, 2016-09-06 With more than 1 700 cross referenced entries covering every aspect of World War II the events and developments of the era and myriad related subjects as well as a documents volume this is the most comprehensive reference work available on the war. This encyclopedia represents a single source of authoritative information on World War II that provides accessible coverage of the causes course and consequences of the war. Its introductory overview essays and cross referenced A Z entries explain how various sources of friction culminated in a second worldwide conflict document the events of the war and why individual battles were won and lost and identify numerous ways the war has permanently changed the world. The coverage addresses the individuals campaigns battles key weapons systems strategic decisions and technological developments of the conflict as well as the diplomatic economic and cultural aspects of World War II. The five volume set provides comprehensive information that gives readers insight into the reasons for the war's direction and outcome. Readers will understand the motivations behind Japan's decision to attack the United States appreciate how the concentration of German military resources on the Eastern Front affected the war's outcome understand the major strategic decisions of the war and the factors behind them grasp how the Second Sino Japanese War contributed to the start of World War II and see the direct impact of new military technology on the outcomes of the battles during the conflict. The lengthy documents volume represents a valuable repository of additional information for student research. **A Companion to Early Twentieth-Century Britain** Chris Wrigley, 2008-04-15 This Companion brings together 32 new essays by leading historians to provide a reassessment of British history in the early twentieth century. The contributors present lucid introductions to the literature and debates on major aspects of the political social and economic history of Britain between 1900 and 1939. Examines controversial issues over the social impact of the First World War especially on women. Provides substantial coverage of changes in Wales Scotland and Ireland as well as in England. Includes a substantial bibliography which will be a valuable guide to secondary sources.

Yeah, reviewing a books **Stanley Baldwin Conservative Leadership And National Values** could build up your near friends listings. This is just one of the solutions for you to be successful. As understood, exploit does not recommend that you have fabulous points.
