Beauty and the Book Megan Benton, Ingrid D. Rowland, 2000-01-01 After World War I the US was flooded with newspapers magazines radio stations and movies Many feared serious books would disappear altogether The concern caused a boom in fine editions valued for beauty craftsmanship or rarity rather than content and this is their story *Type* Simon Loxley, 2006-03-31 Type is the bridge between writer and reader between thought and understanding Type is the message bearer an art form that impinges upon every literate being and yet for most of its history it has conformed to the old adage that good typography should be invisible it should not distract with its own personality It was only at the end of the nineteenth century that designers slowly realised that they could say as much with their lettering as writers could with their words Form of course carries as much meaning as content Now anyone within reach of a computer and its limitless database of fonts has the same power Type The Secret History of Letters tells its story for the first time treating typography as a hidden measure of our history From the tempestuous debate about its beginnings in the fifteenth century to the invention of our most contemporary lettering Simon Loxley with the skill of a novelist tells of the people and events behind our letters How did Johann Gutenberg in late 1438 come to think of printing Does Baskerville have anything to do with Sherlock Holmes Why did the Nazis re-invent Blackletter What is a Zapf Type is a guide through the history of our letters and a study of their power From fashion through propaganda and the development of mass literacy Loxley shows how typography has changed our world *A Bibliography of British History, 1914-1989* Keith Robbins, American Historical Association, Royal Historical Society (Great Britain), 1996 Containing over 25 000 entries this unique volume will be absolutely indispensable for all those with an interest in Britain in the twentieth century Accessibly arranged by theme with helpful introductions to each chapter a huge range of topics is covered There is a comprehensive index **Library of Congress Catalogs** Library of Congress, 1980 **Reports of the conference on the tricentenary of the Amsterdam edition of the Bible by Nicholas Kis Tótfalusi**, 1985 **Writers Directory M-Z** Miranda Herbert Ferrara, 2004-06 This comprehensive resource features up to date bibliographical biographical and contact information for approximately 20 000 living authors worldwide who have at
