Stanley Sorcerers Apprentice:

Stanley Frank McLynn, 1991 This is the second volume of Frank McLynn's biography of Henry Morton Stanley. It covers the years 1877 to 1904. During this period of his life King Leopold II of the Belgians was a dominant figure. **Stanley** Tim Jeal, 2011-10-06 Henry Morton Stanley was a cruel imperialist, a bad man of Africa. Or so we think, but as Tim Jeal brilliantly shows, the reality of Stanley's life is yet more extraordinary. Few people know of his dazzling trans-Africa journey, a heart-breaking epic of human endurance which solved virtually every one of the continent's remaining geographical puzzles. With new documentary evidence, Jeal explores the very nature of exploration and reappraises a reputation in a way that is both moving and truly majestic. **Slum Travelers** Ellen Ross, 2007-07-26 Late nineteenth-century Britain saw the privileged classes forsake society balls and gatherings to turn their considerable resources to investigating and relieving poverty. By the 1890s at least half a million women were involved in philanthropy, particularly in London. *Slum Travelers*, edited, annotated, and with a superb introduction by Ellen Ross, collects a fascinating array of the writings of these lady explorers who were active in the east, south, and central London slums from around 1870 until the end of World War I. Contributors range from the well-known, including Annie Besant, Sylvia Pankhurst, and Beatrice Webb, then Potter, to the obscure. The collection reclaims an important group of writers whose representations of urban poverty have been eclipsed by better-known male authors such as Charles Dickens and Jack London. **Travellers in Africa** Timothy Youngs, 2017-03-01 Works of travel have been the subject of increasingly sophisticated studies in recent years. This book undermines the conviction with which nineteenth-century British writers talked about darkest Africa. It places the works of travel within the rapidly developing dynamic of Victorian imperialism. Images of Abyssinia and the means of communicating those images changed in response to social developments in Britain. As bourgeois values became increasingly important in the nineteenth century and technology advanced, the distance between the consumer and the product were justified by the scorn of African ways of eating. The book argues that the ambiguities and ambivalence of the travellers are revealed in their relation to a range of objects and commodities mentioned in narratives. For instance, beads occupy the dual role of currency and commodity. The book deals with Henry Morton Stanley's expedition to relieve Emin Pasha and attempts to prove that racial representations are in large part determined by the cultural conditions of the traveller's society. By looking at Joseph Conrad's *Heart of Darkness*, it argues that the text is best read as what it purports to be: a kind of travel narrative. Only when it is seen as such and is regarded in the context of the fin de siècle can one begin to appreciate both the extent and the limitations of Conrad's innovativeness. *War Power, Police Power* Mark Neocleous, 2014-02-12 In this, the first book to deal with the concepts of war power and police power together, Mark Neocleous conducts a critical exploration of the ways in which war power and police power are intertwined in the form of state violence and exercised in social. *BAMONIMAMBO (The Witnesses): Rediscovering DR CONGO and BRITISH ISLES Common History* Norbert X & Deo MBU-MPUTU & KATYA KASEREKA,

Visualizing Africa in Nineteenth-Century British Travel Accounts Leila Koivunen, 2008-11-19 This study examines and explains how British explorers visualized the African interior in the latter part of the nineteenth century providing the first sustained analysis of the process by which this visual material was transformed into the illustrations in popular travel books At that time central Africa was effectively a blank canvas for Europeans unknown and devoid of visual representations While previous works have concentrated on exploring the stereotyped nature of printed imagery of Africa this study examines the actual production process of images and the books in which they were published in order to demonstrate how why and by whom the images were manipulated Thus the main focus of the work is not on the aesthetic value of pictures but in the activities interaction and situations that gave birth to them in both Africa and Europe *Masquerade and Identities* Efrat Tseëlon, 2003-08-29 Masquerade both literal and metaphorical is now a central concept on many disciplines This timely volume explores and revisits the role of disguise in constructing expressing and representing marginalised identities and in undermining easy distinctions between true identity and artifice The book is interdisciplinary in approach spanning a diverse range of cultures and narrative voices It provides provocative and nuanced ways of thinking about masquerade as a tool for construction and a tool for critique The essays interrogate such themes as mask and carnival fetish fashion stigma of illegitimacy femininity as masquerade lesbian masks cross dressing in Jewish folk theatre the mask in seventeenth and eighteenth century London and nineteenth century France the voice as mask *The Last Expedition* Daniel Liebowitz, Charles Pearson, 2005 Henry Morton Stanley undertook the greatest African expedition of the 19th century to rescue Emin Pasha last lieutenant of the martyred General Gordon and governor of the southern Sudan Instead of ten months the trip took three years and cost the lives of thousands of people as Stanley's column hacked its way across the last great unexplored territory in Africa Stanley's secret agenda was territorial expansion on the model of Leopold's Congo or the British East India Company *Heroes of Empire* Edward Berenson, 2011 Examines through the lives of five important English and French figures the history of the exploration and colonization of Africa between 1870 and 1914 and the role the mass media played in promoting colonial conquest *African Exploits* William G. Stairs, 1998 A record of the experiences of a young Canadian caught up in European expansion into Africa in the 1880s *African Exploits* provides a disturbing record of William Stairs's two African expeditions and the devastating clash of cultures that occurred during the imperial scramble for the dark continent *The Troubled Heart of Africa* Robert B. Edgerton, 2024-06-04 This book serves as a basic primer on how one of the world's most mineral rich countries was turned into one of its greatest tragedies Publishers Weekly Written over a century ago Joseph Conrad's *Heart of Darkness* continues to dominate our vision of the Congo unlikely as it might seem that a late Victorian novella could encapsulate a country roughly equal in size to the United States east of the Mississippi Conrad's Congo is hell itself a place where civilization won't take where literal and metaphor darkneses converge and where human conduct unmoored from social Western in other words norms turns barbaric As Robert Edgerton

shows in this crisply narrated yet sweeping work of history the Congo is still trying to awaken from the nightmare of its past struggling to pull free from the grip of the heart of darkness cliché Plundered for centuries for its natural resources which remain Africa's most abundant the Congo was not always a place of horror Before the Portuguese landed on its shores at the end of the 15th century it was a prosperous and thriving region The Congo River the world's second longest as well as the deepest and one of the only routes to the continent's interior provided indigenous populations with ample means for living and trading What the Portuguese found first to exploit were people and with the slave trade began a dizzying downward spiral of conquest and degradation that continued for centuries By the 19th century the race to explore the full length of the legendary river masked a fight for territorial and moral control among the French Arabs British Germans as well as American missionaries all of whom dreamed of possessing Africa's very heart When King Leopold of Belgium managed to solidify control in 1885 the Congo question seemed solved His reign of course was almost pathological in its cruelty the true source of Conrad's horror and its grim legacy endures to this day Edgerton documents the Congo's long sad history with a sense of empathy with and admiration for the character of the land and its inhabitants Since independence in June 1960 the country has endured the machinations and disappointments of one dictator after another beginning with Patrice Lumumba and continuing through Joseph Mobutu Laurent Kabila and today Kabila's son Joseph who assumed power after his father was assassinated in January 2001 Whether called the Congo Free State or Zaire or the Democratic Republic of the Congo the country remains perilously unstable *The Troubled Heart of Africa* is the only book to give a complete history of the Congo filling in the blanks in the country's history before the advent of Henry Stanley David Livingstone King Leopold and other figures and carrying us straight into today's headlines The Congo continues today to be the subject of intense speculation and concern and with good reason upon it hangs the fate of sub-Saharan Africa as a whole Here is a book that helps us face the stark truths of the Congo's past and appreciate both the enormous potential and uncertainty of its future

Popular Conservatism in Imperial London, 1868-1906 Alex Windscheffel, 2007 First detailed investigation into the popular dimensions of late Victorian London Conservatism 1759 Frank McLynn, 2006-02-06 History would have been different if not for the events of 1759 It was the fourth year of the Seven Years or the French and Indian War and crucial victories against the French in the first truly global conflict laid the foundations of British supremacy throughout the world for the next hundred years The defeat of the French not only paved the way for the global hegemony of the English language but also made the emergence of the United States possible Guiding us through England s often extremely narrow victories in India North America and the Caribbean McLynn controversially suggests that the birth of the British Empire was more a result of luck than of rigorous planning McLynn includes anecdotes of the intellectual and cultural leaders of the day Swedenborg Hume Voltaire and sources ranging from the Vatican archives to oral histories of Native Americans From publisher description

The Road Not Taken Frank McLynn, 2012-07-05 Britain has not been successfully invaded since 1066 nor in nearly 1 000 years has it known a true revolution one that brings radical systemic and enduring change The contrast with Britain s European neighbours France Germany Italy Spain Greece Russia is dramatic all have been convulsed

by external warfare revolution and civil war and experienced fundamental change to their ruling elites or social and economic structures Frank McLynn takes seven occasions when Britain came closest to revolution the Peasants Revolt of 1381 the Jack Cade rebellion of 1450 the Pilgrimage of Grace in 1536 the English Civil Wars of the 1640s the Jacobite Rising of 1745 6 the Chartist Movement of 1838 48 and the General Strike of 1926 Why at these dramatic turning points did history finally fail to turn McLynn examines Britain's history and themes of social religious and political change to explain why social turbulence stopped short of revolution on so many occasions
