Star Is Born 1937:

A Star is Born (1937) William A. Wellman, 1937 Esther Blodgett is just another starry eyed farm kid trying to break into the movies Waitressing at a Hollywood party she catches the eye of alcoholic star Norman Maine is given a test and is caught up in the Hollywood glamor machine

A Star Is Born Lorna Luft, Jeffrey Vance, 2025-04-08 New York Times bestselling author and daughter of Judy Garland tells the story of A Star Is Born at once the crowning achievement and greatest disappointment in her mother's legendary career This is a vivid account of a film classic's production loss and reclamation A Star Is Born the classic Hollywood tale about a young talent rising to superstardom and the downfall of her mentor lover along the way has never gone out of style It has seen five film adaptations but none compares to the 1954 version starring Judy Garland in her greatest role But while it was the crowning performance of the legendary entertainer's career the production turned into one of the most talked about in movie history The story which depicts the dark side of fame addiction loss and suicide paralleled Garland's own tumultuous life in many ways While hitting alarmingly close to home for the fragile star it ultimately led to a superlative performance one that was nominated for an Academy Award but lost in one of the biggest upsets in Oscar history Running far too long for the studio's tastes Warner Bros notoriously slashed extensive amounts of footage from the finished print leaving A Star is Born in tatters and breaking the heart of both the film's star and director George Cukor Today with a director's cut reconstructed from previously lost scenes and audio the 1954 A Star is Born has taken its deserved place among the most critically acclaimed movies of all time and continues to inspire each new generation that discovers it Now Lorna Luft daughter of Judy Garland and the film's producer Sid Luft tells the story of the production and of her mother's fight to save her career as only she could Teaming with film historian Jeffrey Vance A Star Is Born is a vivid and refreshingly candid account of the crafting loss and restoration of a movie classic complemented by a trove of images from the family collection taken both on and off the set The book also includes essays on the other screen adaptations of A Star Is Born to round out a complete history of a story that has remained a Hollywood favorite for close to a century

Hollywood Shot by Shot Norman K. Denzin, To what extent have Hollywood feature films shaped the meanings that Americans attach to alcoholics their families and the alcoholic condition To what extent has the mass culture of the movie industry itself been conceptually shaped by a broad external societal discourse Norman Denzin brings to his life long study of alcoholism a searching interest in how cultural texts signify and lend themselves to interpretation within a social nexus Both historical and diachronic in his approach Denzin identifies five periods in the alcoholism films made between 1932 and the end of the 1980s and offers a detailed critical reading of thirty seven films produced during these six decades Professor Denzin has produced a searching and provocative interpretation of more than a half century of Hollywood's social and personal construction of the problem drinker in America Readable by both lay persons and specialists Denzin's book provides us with the most comprehensive understanding of this topic to date Stanford M Lyman Robert J Morrow Eminent

Scholar in Social Science Florida Atlantic University An eminent sociologist and leading authority on alcoholism Denzin also writes skillfully about films as films and is comfortable with postmodern interpretive theory a genuinely interdisciplinary work of the first order Robert L Carringer author *The Making of Citizen Kane* Denzin has gone on an exhaustive bar crawl through hundreds of movies returning with evidence that the film about drinking is a genre of its own He writes from sound knowledge about alcoholism which unlike other diseases is frequently viewed with bittersweet romanticism Roger Ebert Norman K Denzin is professor of sociology cinema studies and interpretive theory at the University of Illinois Urbana Champaign He was awarded the George Herbert Mead Award for Lifetime Achievement from the Society for the Study of Symbolic Interaction He is the author of several books including *Screening Race Hollywood* and *a Cinema of Racial Violence The Recovering Alcoholic Interpretive Ethnography Images of Postmodernism Social Theory and Contemporary Cinema* and *Interpretive Interactionism*

Harnessing the Technicolor Rainbow Scott Higgins, 2007-12-01 Like Dorothy waking up over the rainbow in the Land of Oz Hollywood discovered a vivid new world of color in the 1930s The introduction of three color Technicolor technology in 1932 gave filmmakers a powerful tool with which to guide viewers attention punctuate turning points and express emotional subtext Although many producers and filmmakers initially resisted the use of color Technicolor designers led by the legendary Natalie Kalmus developed an aesthetic that complemented the classical Hollywood filmmaking style while still offering innovative novelty By the end of the 1930s color in film was thoroughly harnessed to narrative and it became elegantly expressive without threatening the coherence of the film's imaginary world *Harnessing the Technicolor Rainbow* is the first scholarly history of Technicolor aesthetics and technology as well as a thoroughgoing analysis of how color works in film Scott Higgins draws on extensive primary research and close analysis of well known movies including *Becky Sharp* *A Star Is Born* *Adventures of Robin Hood* and *Gone with the Wind* to show how the Technicolor films of the 1930s forged enduring conventions for handling color in popular cinema He argues that filmmakers and designers rapidly worked through a series of stylistic modes based on the demonstration restraint and integration of color and shows how the color conventions developed in the 1930s have continued to influence filmmaking to the present day Higgins also formulates a new vocabulary and a method of analysis for capturing the often elusive functions and effects of color that in turn open new avenues for the study of film form and lay a foundation for new work on color in cinema

Moving Image Cataloging Martha M. Yee, 2007-10-30 Libraries archives and museums hold a wide variety of moving images all of which require the same level of attention to issues of organization and access as their print counterparts Consequently the people who create collection level records and metadata for these resources need to be equally conversant in the principles of cataloging Martha Yee covers both descriptive AACR2R AMIM and FIAF rules and subject cataloging with a focus on LCSH In the process the reader is encouraged to think critically and to be prepared to make decisions in ambiguous situations where solutions to problems are not always obvious or clearly dictated by specific rules

The Stardom Film Karen McNally, 2020-12-08 Since the earliest days of the movie industry Hollywood has mythologized itself through stories of stardom A female protagonist escapes the confines of rural America in search of freedom in a western dream factory an ambitious conceited movie idol falls from grace and discovers what it means to embody true stardom or a fading star confronts Hollywood's obsession with youth by embarking on a determined mission to reclaim her lost fame In its various forms the stardom film is crucial to understanding how Hollywood has shaped its own identity as well as its claim on America's collective imagination In the first book to focus exclusively on these modern fairy tales Karen McNally traces the history of this genre from silent cinema to contemporary film and television to show its significance to both Hollywood and broader American culture Drawing on extensive archival research she provides close readings of a wide range of films from *Souls for Sale* 1923 to *A Star is Born* 1937 and 1954 and *Judy* 2019 moving between fictional narratives biopics and those that occupy a space in between McNally considers the genre's core set of tropes its construction of stardom around idealized white femininity and its reflections on the blurred boundaries between myth image and reality *The Stardom Film* offers an original understanding of one of Hollywood's most enduring genres and why the allure of fame continues to fascinate us

Movies About the Movies Christopher Ames, 2014-07-11 Hundreds of Hollywood on Hollywood movies can be found throughout the history of American cinema from the days of silents to the present They include films from genres as far ranging as musical film noir melodrama comedy and action adventure Such movies seduce us with the promise of revealing the reality behind the camera But as part of the very industry they supposedly critique they cannot take us behind the scenes

in any true sense Through close analysis of fifteen critically acclaimed films Christopher Ames reveals how the idea of Hollywood is constructed and constructs itself Films discussed What Price Hollywood 1952 A Star Is Born 1937 Stand In 1937 Boy Meets Girl 1938 Sullivan s Travels 1941 In a Lonely Place 1950 Sunset Boulevard 1950 The Star 1950 Singin in the Rain 1952 The Bad and the Beautiful 1952 Pennies from Heaven 1981 The Purple Rose of Cairo 1985 The Player 1992 Last Action Hero 1993

Hollywood by Hollywood Steven Cohan,2019 The backstudio picture or the movie about movie making is a staple of Hollywood film production harking back to the silent era and extending to the present day What gives backstudios their coherence as a distinctive genre Steven Cohan argues in Hollywood by Hollywood is their fascination with the mystique of Hollywood as a geographic place a self contained industry and a fantasy of fame leisure sexual freedom and modernity Yet by the same token if backstudio pictures have rarely achieved blockbuster box office success what accounts for the film industry s interest in continuing to produce them The backstudio picture has been an enduring genre because aside from offering a director or writer a chance to settle old scores in branding filmmaking with the Hollywood mystique the genre solicits consumers strong investment in the movies Whether inspiring the movie crazy fan girls of the early teens and twenties or the wannabe filmmakers of this century heading to the West Coast after their college graduations backstudios have given emotional weight and cultural heft to filmmaking as the quintessential American success story But more than that a backstudio picture is concerned with shaping perceptions of how the film industry works with masking how its product depends upon an industrial labor force including stardom and with determining how that work s value accrues from the Hollywood brand stamped onto the product Cohan supports his well theorized and well researched claims with nuanced discussions of over fifty backstudios some canonical and well known and others obscure and rarely seen Covering the hundred year timespan of feature length film production Hollywood by Hollywood offers an illuminating perspective for considering anew the history of American movies

Suicide Movies Steven Stack,Barbara Bowman,2011-01-01 How is suicide portrayed in the cinema and what does it mean for suicide prevention The first ever comprehensive study of film suicide analyzes more than 1 500 film suicides The portrayal of suicide in cinema can impact public understanding and effective prevention of suicide This book presents the first ever comprehensive analysis of how suicide has been portrayed in films over 110 years based on a thorough evaluation of more than 1 500 film suicides 1 377 in American films 135 in British films One striking finding is that while the research literature generally attributes suicide to individual psychiatric or mental health issues cinema and film solidly endorse more social causes In a compelling blend of social science and humanities approaches the authors use quantitative methods as well as the voices of scriptwriters directors actors and actresses dozens of illustrative frame grabs and numerous case examples to answer core questions such as Are we guilty of over neglecting social factors in suicide prevention and research Do cinematic portrayals distort or accurately reflect the nature of suicide in the real world Has film presentation of suicide changed over 110 years What are the literary roots of cinema portrayals This

unique book makes fascinating reading for all concerned with suicide prevention as well as areas such as sociology film and media studies and mass communication "Have You Seen . . . ?" David Thomson,2008-10-14 In 1975 David Thomson published his Biographical Dictionary of Film and few film books have enjoyed better press or such steady sales Now thirty three years later we have the companion volume a second book of more than 1 000 pages in one voice that of our most provocative contemporary film critic and historian Juxtaposing the fanciful and the fabulous the old favorites and the forgotten this sweeping collection presents the films that Thomson offers in response to the question he gets asked most often What should I see This new book is a generous history of film and an enticing critical appraisal written with as much humor and passion as historical knowledge Not content to choose his own top films though they are here Thomson has created a list that will surprise and delight you and send you to your best movie rental service But he also probes the question after one hundred years of film which ones are the best and why Have You Seen suggests a true canon of cinema and one that s almost completely accessible now thanks to DVDs This book is a must for anyone who loves the silver screen the perfect confection to dip into at any point for a taste of controversy little known facts and ideas about what to see This is a volume you ll want to return to again and again like a dear but argumentative friend in the dark at the movies *The Last Word* Justin Gautreau,2020-10-02 The Last Word argues that the Hollywood novel opened up space for cultural critique of the film industry at a time when the industry lacked the capacity to critique itself While the young studio system worked tirelessly to burnish its public image in the wake of celebrity scandal several industry insiders wrote fiction to fill in what newspapers and fan magazines left out Throughout the 1920s and 1930s these novels aimed to expose the invisible machinery of classical Hollywood cinema including not only the evolving artifice of the screen but also the promotional discourse that complemented it As likeminded filmmakers in the 1940s and 1950s gradually brought the dark side of the industry to the screen however the Hollywood novel found itself struggling to live up to its original promise of delivering the unfilmable By the 1960s desperate to remain relevant the genre had devolved into little more than erotic fantasy of movie stars behind closed doors perhaps the only thing the public couldn t already find elsewhere Still given their unique ability to speak beyond the institutional restraints of their time these earlier works offer a window into the industry s dynamic creation and re creation of itself in the public imagination The Encyclopedia of Best Films Jay Robert Nash,2019-10-23 This all inclusive A Z encyclopedia by one of the world s foremost experts on cinema provides comprehensive annotations of the best films produced from 1914 on The work offers more than 5 000 three to five star entries three stars good four stars excellent five stars masterpiece and yes author Jay Robert Nash has viewed every single one of them as well as many more that did not make the cut In addition to a precis each film s entry also includes a listing of the cast as well as the key principles involved in production from the director to the hair stylist Especially unique to this book is a rating system that helps parents determine whether or not a film is appropriate for their children Unlike the industry rating system which can be influenced

by studio lobbying Nash objectively evaluates each film and confers upon it one of four recommendations for viewing recommended acceptable cautionary and unacceptable Backmatter includes a list of top films by genre i e animated drama sports mystery adventure etc as well as an annotated name index listing all persons mentioned along with their dates of birth and death Rounding out this essential volume for the film buff are over 500 still photos from the author s private collection
