Star Point Joseki:

Dictionary of Basic Joseki Yoshio Ishida, 1977 The Power of the Star-point Shūkaku Takagawa, 1988 The Sanren Sei which consists of three stones played in a row on the star points on one side is the most powerful and dramatic of modern fuseki patterns yet it is the easiest to master He has enjoyed consistent popularity ever since it was invented because of its emphasis on developing a bold attacking style In this lucid explanation Takagawa Shukaku helps you grasp its key concepts and shows you how to use it to secure center influence and build large moyos He gives a comprehensive coverage of Sanren Sei basics then shows it in action in top level professional play Sanren sai strategy is easy both to understand and to apply The main themes of this opening are clear and compelling and there are relatively few josekis to memorize yet by the time you finish this book you will understand why it has been the favorite fuseki of so many great players *Handbook of Star Point Joseki* Kawamoto Noboru, Craig R. Hutchinson, 2001 The 3-3 Point Modern Opening Strategy Ch'i-hun Cho, 1991 Opening theory in go has a long history and has undergone many changes In the 17th through 19th centuries the first move in the corner was usually played on the 3 4 point or occasionally the 5 3 or the 5 4 point The star point was almost never played Then in the mid 1930s the New Fuseki became the vogue The star point became a key feature and emphasis was placed on central influence In present day opening theory the star point still carries great weight since it occupies the corner in one move has a powerful influence along the sides and permits a much faster development than the 3 4 point Its weakness lies at the 3 3 point from which the corner territory can easily be destroyed However more and more openings are being played today which emphasize tight territorial control Here again the 3 3 point is critical whether played to secure the corner territory with one move or to destroy the opponents corner territory In these openings many questions arise about joseki in relation to the surrounding positions In other words joseki cannot be confined to just one corner or just one side the whole board must be taken into account This book analyzes the role of the 3 3 point in opening strategy and features examples taken from about 100 of Chi Chikun's games The opening is the most enjoyable part of the game to study It is also the most intuitive part of the game and its concepts are the easiest to grasp Any reader who knows the rules should make effortless progress by reading this book *Utilizing Outward Influence* Jin Jiang, Zhao Zheng, 1995 **Dictionary of Basic Joseki** Yoshio Ishida, 1977 Positional Judgment, High-speed Game Analysis Ch'i-hun Cho, 1989 Sensor Networks and Signal Processing Sheng-Lung Peng, Margarita N.
