**Supporting safety of journalists in Kenya** Nyabuga, George, 2016-07-11 Superman, Language in Use

Loredana Frățilă, 2010-04-16 Language in Use. The Case of Youth Entertainment Magazines is a collection of seven studies by several Romanian, Bulgarian, and Slovenian linguists on the discourse of entertainment magazines targeted at young readers and published in their respective countries. The starting point of the seven studies was the idea that the discourse specific to the variety of printed media products selected for analysis was characterized by distinctive features and that these features might exert a manipulative influence on the linguistic and social behavior of the targeted readership. The scholars' initial aim was to validate these hypotheses and to confirm their soundness across countries. However, they hope that besides suggesting new perspectives on the discourse chosen for analysis and thus filling a gap in the eastern European literature in the field, they may also develop, admittedly within limits, media literacy in young readers by equipping them with skills that could transform them from passive media consumers into responsible readers able to make informed decisions and thus be less vulnerable to the strategies of manipulation employed by those who control information.

*Colored Memories* Susan Curtis, 2008. Lester A. Walton was a well-known public figure in his day. An African American journalist, cultural critic, diplomat, and political activist, he was an adviser to presidents and industrialists in a career that spanned the first six decades of the twentieth century. He was a steadfast champion of democracy and lived to see the passage of major civil rights legislation. But one word best describes Walton today: forgotten. Exploring the contours of this extraordinary life, Susan Curtis seeks to discover why our collective memory of Walton has failed. In a unique narrative of historical research, she recounts a fifteen-year journey from the streets of Harlem and the Ville in St. Louis to scattered archives and obscure public records as she uncovers the mysterious circumstances surrounding Walton's disappearance from national consciousness. And despite numerous roadblocks and dead ends in her quest, she tells how she came to know this emblematic citizen of the American Century in surprising ways. In this unconventional book, a postmodern ghost story, an unprecedented experiment in life writing, Curtis shares her discoveries as a researcher, relating her frustrating search through long overlooked documents to discover this forgotten man, she offers insight into how America's obsession with race has made Walton's story unwelcome. She explores the treachery, duplicity, and archival accidents that transformed a man dedicated to the fulfillment of American democracy into a shadowy figure. Combining anecdotal memories with the investigative instincts of the historian, Curtis

embraces the subjectivity of her research to show that what a society forgets or suppresses is just as important as what it includes in its history *Colored Memories* is a highly original work that not only introduces readers to a once influential figure but also invites us to reconsider how we view, understand and preserve the past     Hollywood Faith Gerardo Marti, 2008 The author shows how a multiracial evangelical congregation of 2 000 people accommodates itself to the entertainment industry and draws in many striving to succeed in this harsh and irreverent business Hollywood's Oasis Christian Center strategically sanctifies ambition and negotiates social change by promoting a new religious identity as champion of life An identity that provides people who face difficult career choices and failed opportunities a sense of empowerment and endurance This book explores the modern evangelical movement and shows how religion adapts to social change
