BEM It seems like a simple request. The Pandronians have petitioned to send a representative to observe a Federation crew carrying out a survey mission. So Commander Arbin Bem joins Captain Kirk to evaluate aboriginal life forms of undetermined intelligence and accomplishments on planet Delta Theta Three. There the trouble begins with an omniscient entity. Then disaster summons Bem to his home planet with the Enterprise ordered to assist him in every way. The shocking theft of a priceless treasure threatens to reduce Pandronian civilization to anarchy and bring the crew of the Enterprise to the brink of disaster. SLAVER WEAPON A billion years ago Slavers ruled the galaxy but all that remains of their once awesome empire is concentrated in extraordinary cubes known as stasis boxes. Now the Enterprise must transport a stasis box containing the ultimate weapon: a war computer handgun with settings that fire nuclear explosions. But the Kzin violent ferocious catlike creatures crave the weapon that will make the galaxy a smorgasbord for their insatiable appetites. With ruthless cunning they lure the unsuspecting starship to an icy planet where a cataclysmic fate awaits them and the universe. *Star Trek Log* Alan Dean Foster, 1976

Star Trek Robert Greenberger, 2012-11-08 This is the first book to combine an authoritative history of the Star Trek franchise including all six television series and eleven feature films with anecdotes about the show from those who helped shape it from the outside in. The fans' Star Trek expert Robert Greenberger covers everything from show creator Gene Roddenberry's initial plans for a series combining science fiction and Western elements, the premiere of the original series in 1966, its cancellation, the franchise's return in an animated series and its subsequent history on television and film up to expectations for the 2013 J.J. Abrams film. Along the way Greenberger analyzes Star Trek's unique cultural impact and tremendous cult following including the famous and first ever save the show mail campaign. But this isn't a sugarcoated history; this book chronicles the missteps as well as the achievements of Roddenberry and others behind the franchise. Approximately two dozen sidebars provide personal experiences of dedicated Trekkies who influenced or became a part of the franchise. Star Trek fandom is unparalleled in the effects it has had on the franchise itself. The book is illustrated with a large collection of photographs of memorabilia many of which have never been seen before in print. **Catalog of**
