in space Kirk agrees to help the planet Chal **Star Trek: Signature Edition: Worlds in Collision** Judith Reeves-Stevens, 2003-11-04 The Star Trek Signature Edition series continues with this thrilling adventure featuring Commander Spock Captain Kirk and the U S S Enterprise Of all the experiences shared by Captain Kirk and the crew of the Starship Enterprise during their first five year mission two were among the most perilous a journey to the nonphysical realm of Transition where the massive computer known as Memory Prime was situated and the nightmarish mission to Talin IV a world poised on the brink of destruction that Kirk was forbidden to save In the twenty third century a hundred years before a sentient artificial life form would be allowed to earn a Starfleet commission the Federation considers the use of self aware artificial intelligences to be little more than slavery except for the immense computer system of Memory Prime the key hub in the Federation s vast network of interstellar library planets There the A I s known as Pathfinders inhabit Transition a virtual world so different from our universe that the A I s themselves debate whether or not the physical universe is real But when an ancient enemy reaches out from the shadows of Vulcan s darkest history and threatens to destroy the Federation Spock must risk his career and his life to enter the Pathfinders realm Technologically and politically Talin IV is little different from late twentieth century Earth But as a series of mysterious events pushes that world closer to self annihilation the Prime Directive prevents Captain Kirk and his crew from doing anything to prevent it When the worst appears to happen and Kirk takes desperate action to give the Talin a chance to step back from the nuclear abyss Talin IV is consumed by radioactive fire Now with a world destroyed and the Enterprise dead in space the careers of Kirk and his crew are over Disgraced and despised Kirk has only one chance to redeem himself and his crew Somehow he must make his way back to Talin IV and discover what really happened even if it means proving that a world died because he broke Starfleet s most sacred law

These Are The Voyages Arnold van Beverhoudt, 2011-02-03 Compiled from documents in naval and aerospace museums around the world this is a unique look at the ships of sea air and space that have carried the name Enterprise a name with a heritage spanning more than 800 years For the first time it s all here in one concise volume o A detailed 130 page narrative history of the ships and their heroic crews o More than 80 illustrations including official photographs and ship profile drawings o An appendix listing more than 190 vessels named Enterprise o Extensive notes and a bibliography listing more than 110 sources for further reference This isn t just a book of facts and figures but a stirring tale of adventure discovery and courage often told in the words of those who were there This revised 2nd edition updates the stories of the naval vessels through the deactivation of the aircraft carrier USS Enterprise CVN 65 and the latest adventures of the starships Enterprise Come and relive the epic voyages **The Mechanics of Wonder** Gary Westfahl, 1998-01-01 This is a sustained argument about the idea of science fiction by a renowned critic Overturning many received opinions it is both controversial and stimulating Much of the controversy arises from Westfahl s resurrection of Hugo Gernsback for decades a largely derided figure as the true creator of science fiction Following an initial demolition of earlier critics Westfahl argues for Gernsback s

importance His argument is fully documented showing a much greater familiarity with early American science fiction particularly magazine fiction than previous academic critics or historians After his initial chapters on Gernsback he examines the way in which the Gernsback tradition was adopted and modified by later magazine editors and early critics This involves a re evaluation of the importance of John W Campbell to the history of science fiction as well as a very interesting critique of Robert Heinlein s *Beyond the Horizon* one the seminal texts of American science fiction In conclusion Westfahl uses the theories of Gernsback and Campbell to develop a descriptive definition of science fiction and he explores the ramifications of that definition *The Mechanics of Wonder* will arouse debate and force the questioning of presuppositions No other book so closely examines the origins and development of the idea of science fiction and it will stand among a small number of crucial texts with which every science fiction scholar or prospective science fiction scholar will have to read [The First Star Trek Movie](#) Sherilyn Connelly,2019-10-11 The story of Star Trek s resurrection between the 1969 cancellation of the original series and the 1979 release of Robert Wise s *Star Trek The Motion Picture* has become legend and like so many other legends it tends to get printed instead of the facts Drawing on hundreds of contemporary news articles and primary sources not seen in decades this book tells the true story of the first successful Star Trek revival After several attempts to relaunch the franchise ST TMP was released on a wave of prestige promotion hype and public frenzy unheard of for a film based on a television show Controversy surrounded its troubled production and 44M budget earning it a reputation at the time as the most expensive movie ever made After a black tie premiere in Washington D C its opening in 856 North American theaters broke multiple box office records a harbinger of the modern blockbuster era Despite immediate financial success the film was panned by both critics and the public leaving this enterprise nowhere to boldly go but down [Star Trek Shipyards: Federation Members](#) Ben Robinson,Marcus Riley,2019-11-19 The latest volume in the Shipyards series features ships of the United Federation of Planets including Vulcan Andorian Tellarite Bajoran Trill and Earth Civilian ships Each vessel is illustrated in CG artwork with original VFX models made for the TV shows alongside a technical overview and operational history Featuring 27 ships Starships include the Vulcan D Kyr the Vulcan cruiser and the T Plana Hath the Andorian battle cruiser the Bajoran solar sailor the El Aurian S S Lakul and Civilian Federation Ships The Festoon the S S Xhosa and Harry Mudd s Class J starship the Norkova *Federation Members* is latest volume in the *Star Trek Shipyards* series The very first series of books to collect all of the ships from Star Trek film and television shows in chronological order Each ship profile features artwork from the original visual effects models detailed technical specifications service history and annotated views of the ships features Written by Ben Robinson author of the *USS Enterprise and Klingon Bird of Prey Haynes Manual* books

A Sense-of-Wonderful Century Gary Westfahl,2013-07-30 This book gathers together many of the illuminating essays on science fiction and fantasy film penned by a major critic in the SF field The pieces are roughly organized in the chronological order of when the movies and television programs being discussed first appeared with essays providing more

general overviews clustered near the beginning and end of the volume to provide the overall aura of a historical survey Although this book does not pretend to provide a comprehensive history of science fiction and fantasy films it does intermingle analyses of films and TV programs with some discussions of related plays novels stories and comic books particularly in the essays on *This Island Earth* and *2001 A Space Odyssey* and its sequels Inciteful entertaining and full of intelligent and witty observations about science fiction and its sometimes curious relationship with the visual media these essays will both delight and entertain critics fans and viewers alike

Critical Issues in the History of Spaceflight Stephen J. Dick, Steven J. Dick, Roger D. Launius, 2006 In March 2005 the NASA History Division and the Division of Space History at the National Air and Space Museum brought together a distinguished group of scholars to consider the state of the discipline of space history This volume is a collection of essays based on those deliberations The meeting took place at a time of extraordinary transformation for NASA stemming from the new Vision of Space Exploration announced by President George W Bush in January 2004 to go to the Moon Mars and beyond This Vision in turn stemmed from a deep reevaluation of NASA's goals in the wake of the Space Shuttle Columbia accident and the recommendations of the Columbia Accident Investigation Board The new goals were seen as initiating a New Age of Exploration and were placed in the context of the importance of exploration and discovery to the American experiences
