Popular Culture as Art and Knowledge George A. Gonzalez, 2019-01-15 This volume settles the debate between analytic and continental philosophy It turns to art more specifically popular culture to demonstrate the validity of continental philosophy Drawing on the philosophy of Georg Hegel perhaps the most important of continental philosophers James Kreines holds that reason in the world metaphysically exists Reasons of the world are reasons of the Hegelian Absolute Thus similar to the fact that gravity is curves in the space time continuum along which matter moves reasons are the grooves in the Absolute along which human decision making occurs Art allows us to conceptualize understand speculate about the grooves reasons of the Absolute Two key points can be drawn from Kreines s position first normative values are embedded in reality Thus in complete contradistinction to analytic philosophy there is no bifurcation between the empirical and the normative to exist is to have normative value Secondly the role of social science is to cogitate explore identify the reasons of the world that shape social political norms Such an approach would decisively move the social sciences away from an emphasis on statistically significant patterns of human behavior e.g. voting studies and toward an approach that seeks to analyze the reasons of the world that motivate shape social and political decisions Art particularly popular culture becomes an important source in identifying the way that people reason about the world and how they perceive political elites reasoning in the world To adjudicate between continental and analytic philosophy this book on relies on the broadcast

iterations of Star Trek as well as Nazi cinema With regard to contemporary American politics in addition to Star Trek it draws on the television series Game of Thrones Veep House of Cards and The Man in the High Castle Popular culture is germane to philosophy and contemporary politics because television movie creators frequently try to attract viewers by conveying authentic philosophical and political motifs Conversely viewers seek out authentic movies and television shows This is in contrast to opinion surveys for instance as the formation of the data begins with the surveyor seeking to directly solicit an opinion however impromptu or shallow
