Gruen, Olga A. Shenderova, Alexander Ya. Vul', 2006-03-30 We are pleased to present the Proceedings of the NATO Advanced Research Workshop Syntheses Properties and Applications of Ultrananocrystalline Diamond which was held June 7 10 2004 in St Petersburg Russia The main goal of the Workshop was to provide a forum for the intensive exchange of opinions between scientists from Russia and NATO countries in order to give additional impetus to the development of the science and applications of a new carbon nanostructure called ultrananocrystalline diamond UNCD composed of 2 5 nm crystallites There are two forms of UNCD dispersed particles and films The two communities of researchers working on these two forms of UNCD have hitherto lacked a common forum in which to explore areas of scientific and technological overlap As a consequence the two fields have up to now developed independently of each other The time had clearly come to remedy this situation in order to be able to take full advantage of the enormous potential for societal benefits to be derived from exploiting the synergistic relationships between UNCD dispersed particulates and UNCD films The NATO sponsored ARW therefore occurred in a very timely manner and was successful in beginning the desired dialogue a precondition for making progress toward the above stated goal The discovery of UNCD completes a triad of nanostructured carbons which includes fullerenes and nanotubes *Cosmic Melodies - Celestial poetic journey* Bhumika Tewari, 2023-11-27 Cosmic Melodies is an enchanting collection of celestial poems that invites readers to embark on a journey through the vast expanse of the universe Each poem within this symphony of verses is a unique exploration of the night sky's poetic tapestry weaving together imagery emotion and cosmic wonder From the ephemeral echoes of twilight to the dance of shadows and the serenades of stardust the poems in this collection paint vivid pictures of the cosmic landscape The verses are carefully crafted to capture the essence of the moonlit lullabies the tranquil tapestry of the night and the whimsical ballet of celestial bodies *Blue Mooned: Diamond* Rachelle Ayala, 2024-03-05 Diamond Dionne is a daring treasure hunter with a hidden agenda When she and her sidekick Amethyst Angelova break into an ancient crypt they find themselves in the clutches of Prince Renaud a tortured soul driven by a thirst for revenge along
