Altman,2016-08-30 Volume two of a fifty year oral history of Star Trek by the people who were there sharing never before told stories [The Impossible Has Happened](#) Lance Parkin,2016-07-19 A biographer goes in search of Gene Roddenberry creator of the world s most successful science fiction franchise This book reveals how an undistinguished writer of cop shows set out to produce Hornblower in

space and ended up with Star Trek an optimistic almost utopian view of humanity's future that has been watched and loved by hundreds of millions of people around the world. Along the way Lance Parkin examines some of the great myths and turning points in the franchise's history and Roddenberry's particular contribution to them. He looks at the view that the early Star Trek advanced a liberal egalitarian and multi-racial agenda, charts the various attempts to resuscitate the show during its wilderness years in the 1970s, explores Roddenberry's initial early involvement in the movies and spin-off Star Trek: The Next Generation as well as his later estrangement from both, and sheds light on the colorful personal life, self-mythologizing and strange beliefs of a man who nonetheless gifted popular culture one of its most enduring narratives.
