and peaks together making the book easier to use **Missing in the Minarets** William Alsup, 2020-06-23 This riveting narrative details the mysterious disappearance of Peter Starr a San Francisco attorney from a prominent family who set off to climb alone in the rugged Minaret region of the Sierra Nevada in July 1933 Rigorous and thorough searches by some of the best climbers in the history of the range failed to locate him despite a number of promising clues When all hope seemed gone and the last search party had left the Minarets mountaineering legend Norman Clyde refused to give up Climbing alone he persevered in the face of failure resolved that he would learn the fate of the lost man Clyde s discovery and the events that followed make for compelling reading Recently reissued with a new afterword this re creation of a famous episode in the annals of the Sierra Nevada is mountaineering literature at its best *In the Memory of the Map* Christopher Norment, 2012-03-15 Throughout his life maps have been a source of imagination and wonder for Christopher Norment Mesmerized by them since the age of eight or nine he found himself courted and seduced by maps which served functional and allegorical roles in showing him worlds that he might come to know and helping him understand worlds that he had already explored Maps may have been the stuff of his dreams but they sometimes drew him away from places where he should have remained firmly rooted In the Memory of the Map explores the complex relationship among maps memory and experience what might be called a cartographical psychology or cartographical history Interweaving a personal narrative structured around a variety of maps with stories about maps as told by scholars poets and fiction writers this book provides a dazzlingly rich personal and intellectual account of what many of us take for granted A dialog between desire and the maps of his life an exploration of the pleasures utilitarian purposes benefits and character of maps this rich and powerful personal narrative is the matrix in which Norment embeds an exploration of how maps function in all our lives Page by page readers will confront the aesthetics mystery function power and shortcomings of maps causing them to reconsider the role that maps play in their lives Ansel Adams and the American Landscape Jonathan Spaulding, 1995 Spaulding provides a full biography and a critical analysis of the work of the man who introduced the general public to photography as art *The ^ADream Endures* Kevin Starr, 2002-11-28 What we now call the good life first appeared in California during the 1930s Motels home trailers drive ins barbecues beach life and surfing sports from polo and tennis and golf to mountain climbing and skiing sportswear a word coined at the time and sun suits were all a part of the good life perhaps California s most distinctive influence of the 1930s In *The Dream Endures* Kevin Starr shows how the good life prospered in California in pursuits such as film fiction leisure and architecture and helped to define American culture and society then and for years to come Starr previously chronicled how Californians absorbed the thousand natural shocks of the Great Depression unemployment strikes Communist agitation reactionary conspiracies in *Endangered Dreams* the fourth volume of his classic history of California In *The Dream Endures* Starr reveals the other side of the picture examining the newly important places where the good life flourished like Los Angeles where Hollywood lived Palm Springs where Hollywood vacationed San Diego

where the Navy went the California Institute of Technology in Pasadena where Einstein went and changed his view of the universe and college towns like Berkeley We read about the rich urban life of San Francisco and Los Angeles and in newly important communities like Carmel and San Simeon the home of William Randolph Hearst where each Thursday afternoon automobiles packed with Hollywood celebrities would arrive from Southern California for the long weekend at Hearst Castle The 1930s were the heyday of the Hollywood studios and Starr brilliantly captures Hollywood films and the society that surrounded the studios Starr offers an astute discussion of the European refugees who arrived in Hollywood during the period prominent European film actors and artists and the creative refugees who were drawn to Hollywood and Southern California in these years Igor Stravinsky Arnold Schoenberg Man Ray Bertolt Brecht Christopher Isherwood Aldous Huxley Thomas Mann and Franz Werfel Starr gives a fascinating account of how many of them attempted to recreate their European world in California and how others like Samuel Goldwyn provided stories and dreams for their adopted nation Starr reserves his greatest attention and most memorable writing for San Francisco For Starr despite the city's beauty and commercial importance San Francisco's most important achievement was the sense of well being it conferred on its citizens It was a city that magically belonged to everyone Whether discussing photographers like Edward Weston and Ansel Adams hard boiled fiction writers or the new breed of female star Marlene Dietrich Jean Harlow Bette Davis Carole Lombard and the improbable Mae West The Dream Endures is a brilliant social and cultural history in many ways the most far reaching and important of Starr's California books
