Jesus, Revelations, the End Times, and Me Kevin Dickerson, 2020-08-24 This book is written for the sole purpose of showing people the signs of the times the end times It began as a documentation of the things that Jesus himself has shown and explained to the author The author didn t want to forget these things so right after the visitations he would get up and go to his computer to write these things down He would do so while he could remember every little detail Some of the things in this book would come to pass weeks after he was shown them and some are still being revealed to him today some twenty five years later This project is not done for book sales or mammon no that is not the Father s purpose The author s purpose is to scream from the roof top to announce his coming to try to get the attention of mankind to warn them To warn them to fear God and to turn to him as He will then turn to them Yes people have been predicting the Father s coming for years claiming earthquakes wars and rumors of wars All these things are true Instead of thirty five volcanos erupting a year thirty five volcanos erupt a day The last of the four world powers Rome has to rise again and even more importantly he said learn the parable of the fig tree These are two unmistakable signs of the times that cannot be duplicated The tribulation period is upon us If you know how to search the heavens you will find wormwood at our doorstep In this book there are pictures of a system of planets that are in our skies today that he believes accompanies Wormwood He would not mislead doctor any pictures for

the sake of mammon Jesus said during the end of days man is going to experience a great deception **Neutron Stars**
Sophia Anderson, AI, 2025-03-06 Neutron stars the subject of the book Neutron Stars are the ultra dense remnants of massive stars supernova explosions They serve as cosmic laboratories where extreme physics inaccessible on Earth can be observed These fascinating objects offer insights into stellar evolution the creation of elements and fundamental physical laws One intriguing fact is their immense density a teaspoonful of neutron star material would weigh billions of tons Another is the presence of magnetars a subset of neutron stars with the most powerful magnetic fields known in the universe The book explores the properties of neutron stars their formation through supernova events and the influence of their intense magnetic fields It adopts a fact based approach drawing on observational data from telescopes across the electromagnetic spectrum combined with theoretical models rooted in nuclear physics general relativity and plasma physics Progressing from basic properties to formation mechanisms the text analyzes magnetic fields and observational evidence connecting neutron star research to nuclear and plasma physics as well as gravitational physics These explorations offer applications for understanding nuclear matter and testing general relativity North Star to Southern Cross Will Kyselka, Ray
