Roombelow suffers from the after effects of the attack by rock chewing Scarab beetles and even the Aquamites world is crumbling. A hole appeared in the Aquamites Emerald Lake. The lake began to empty and thirty Aquamites were swept away to end up in the lake of the Tritians. Rescue cannot come soon enough because the Tritians live in a radioactive environment that poisons the young Aquamites and Jimmy's close friend Annison is in trouble. Jimmy organised rescue for the young Aquamites by his advanced home race from the star world of Attalia. Twenty eight Aquamites were saved but one was beyond help. Annison refused assistance until all her friends were treated. As a result Annison slipped into a coma from which the Attalians could not revive her. One of the significant advantages of Starship Rescue books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes.
