discovered yogurt Butter is supposed to have been discovered millenniums ago when camel s milk was placed in animal skin hides while being transported from one place to another by Arab or Turkish nomads The ambulatory movement of the camel walking across the desert seem to have a churning effect on the hides and in the evening when the milk was taken out of the sack two new products were discovered Butter and buttermilk This possibly apocryphal serendipity is on par with the supposed discovery of wine Millenniums ago a Greek slave was suffering from toothache and that was so painful that she found an earthenware pitcher full of fermenting grape juice left by some other careless slave All those bubbles made her think that it was poison and she would rather drink that than suffer the pain of a toothache So she did drink of the juice of the grape and fell asleep And the miracle of wine was discovered to gladden the hearts of generations No wonder the Greeks had a God Bacchus also known as Dionysus and the Roman equivalent Liber to whom you liberally paid libations before you drank wine for wine But nobody has told us how yogurt was discovered and by whom But in ancient Indian medicine texts the mixture of honey with yogurt eaten every day is considered to be the food of the gods to keep you everlastingly healthy Along with yogurt the side products of bacterially fermented milk included buttermilk and butter Every house proud woman made sure that she kept some yogurt back from yesterday s batch to prepare today s batch of yogurt These cultures have enzymes and bacteria which are extremely beneficial for your digestive system The enzymes produce lactic acid Lactic acid is what is going to ferment the lukewarm milk It is also what makes your yogurt sour if you leave it in a warm place after the yogurt has been made So the moment you see the yogurt set put it in a cool place

that is why in many parts of the East cutting down the coconut tree is taboo because of its spiritual emotional and traditional associated bond with human beings Coconuts are extremely rich in minerals vitamins and in fiber Doctors in coastal areas know that they do not have to worry about any harm coming to victims of typhoons and epidemics as long as they are coconuts around Asian Eastern and Pacific cultures have long use the products of coconut for healing and curing especially in alternative medicines Coconut oil is considered to be the best moisturizer as well as healing base for medical preparations since ancient times So everything from massaging to conditioning your hair and making beauty cosmetics from coconut have been a part of Eastern Pacific and Asian culture for millenniums The West has finally woken up to the medical and healing potential of the coconut and its products Thanks to extensive research being done in the UK and in the USA people have got to know all about the healing power of the coconut However it was only when Jennifer Aniston was seen in the supermarket with lots of coconuts that it began to become really popular in America as a healthy food item Until then it was just used as a hair conditioner or a skin moisturizer and in other natural beauty preparations Nobody can suffer from malnutrition or dehydration if you have a coconut tree around It is surprising how recently modern research has found out that coconuts are both antiviral and antibacterial In ancient Eastern medicine people knew how to cure throat infections mouth infections bladder and urinary infections kidney related diseases influenza pneumonia and other diseases caused by bacteria viruses and fungi for millenniums In fact if you had a tree of life in your garden you would live almost as long as did the tree That is because you were eating itself the fruit which would keep you healthy and with a strong autoimmune system throughout your life
