Starting From Scratch An Album Of Drawin:

The Antonio II Badile Album of Drawings: The Origins of Collecting Drawings in Early Modern Northern Italy

Evelyn Karet,2017-07-05 Evelyn Karet's in depth study of the Antonio II Badile Album the earliest known example of an art collection pasted onto the pages of a book is both focused and broad in its appeal to those interested in the early modern era. The provenance of the album is traced from its assemblage to the seventeenth century collection of Conte Lodovico Moscardo to its dismantling by the dealer Francis Matthiesen in the 1950s establishing that the volume conserved in the Frits Lugt Collection is not an original but a replica produced by Matthiesen. Although Antonio II must be celebrated as the collector of the drawings, new paleographic analysis has identified the actual compiler of the album after Antonio's death providing a terminus post quem in the late 1530s or early 1540s. Karet enlarges the focus from the album itself to the historic tradition of collecting drawings in northern Italy in the early modern era before Vasari for which the album provides a new point of reference. Throughout the book Karet discusses the Badile family, examines the individual drawings in the book, investigates the contacts between artists and humanists, their rich diverse collections and the humanist mind set that fostered the appreciation of drawings. She explores notable early drawing collections in northern Italy and the role of northern Italy as a center of collection in the sixteenth and seventeenth centuries. The book concludes with two appendices: a reconstruction of the original album including a discussion of the reconstruction process, suggestions about what the album originally looked like, and a page by page guide to its contents and a detailed analysis of Francis Matthiesen's career. This book opens up new areas of inquiry into an overlooked subject.

The Boy With Zero Self-Esteem Aone Ofmany,2019-01-05 We all have heard of the terms and disorders so many of our fellow citizens in society deal with: daily depression, loneliness, anxiety, anger, paranoia, agoraphobia, attempted suicide, incel mindset, being bullied, low self esteem, and the list goes on and on. It is difficult to live a normal happy life with just one of these mental health afflictions. Now imagine living with all of them. This book will open up the life of one ordinary man who started off just like any happy go lucky kid and how he grew up to encompass all the mental conditions listed above. A badly needed real story about the origins of mental health issues in a person who could be just about anybody out there. But more importantly than how he suffered from mental health, this book will reveal how he was able to overcome his issues and demons to achieve a simple and happy ordinary life with his family. That normalcy we all crave deep down. How meditation and cannabis, yes good ol weed, helped him find peace and stable mental health. He's only one out the millions of men out there who have looked for love, acceptance and understanding in this unfair world and ended up being devastated because of it. But he is also one of those men who was able to change his life for the better. We hope you will enjoy his journey.
