Starting Off Establishing Communication And Play In The Handicapped Child:

Starting Off Chres Kiernan,1980 **Starting Off** Chris Kiernan,Rita Jordan,Chris Saunders,1978 Training Behaviour Therapists (Psychology Revivals) Derek Milne,2015-03-27 Originally published in 1986 one of the major developments in behavioural psychotherapy and mental health in the previous decade had been the growing involvement of non psychologists in behaviour therapy This was a result of the fact that there were too few psychologists to cope with problem behaviour and that other professionals or carers began to appreciate more clearly their potential as agents of behaviour change Foremost among these mediators of therapy were parents nurses particularly psychiatric nurses and teachers especially remedial teachers Their involvement had greatly increased the efficiency of behaviour therapy at the time and opened up a new era in applied psychology It also entailed the development of new training formats evaluation procedures and implementation strategies The main aim of this book was to provide a summary of the research relevant to these issues and to offer practical guidelines to those who were interested in training or being trained as behaviour therapists For this reason there are chapters by researchers who have been involved in training parents nurses and teachers These chapters provide a detailed account of training in a form that was rarely available in published form at the time and even today should be of great assistance to readers

Curricula for Diversity in Education Tony Booth,Mary Masterton,Patricia Potts,Will Swann,2013-06-17 They can make a start by recognising and accepting difference in their students and by providing curricula that are accessible to all This volume portrays attempts to alleviate difficulties in learning across the curriculum in history mathematics poetry and science and explores ways of supporting children with disabilities It examines how approaches to reducing difficulties have changed in the last decade looking at the experience of children and young people under pressure children who are bullied young people affected by HIV and AIDS youth trainees and children in care There is a final section on basic methods of research into educational practice

Toys and Play for the Handicapped Child Barbara Riddick,2005-08-04 *Toys and Play for the Handicapped Child* is written by a psychologist who ran the first professionally staffed Toy Library in the UK Her experience enables her to write in practical detail about the role of toys and play both in normal development and in the development of handicapped children It will be found equally useful by parents teachers and other professionals and by those concerned to promote productive play in handicapped and non handicapped children

Bad Mouting Jenny Corbett,2013-11-05 The power of language is overwhelming and this is shown in the way in which words are used to define portray and explain people and situations With this in mind then it is interesting to note how the language of special needs has always been composed of words and images which foster fear mistrust loathing and hostility idiot imbecile and moron are frequently used as terms of abuse Whilst there has been considerable theorizing on the psychological and sociological aspects of special education as well as a recognition of the influence of policies and politics there has not yet been a concerted attempt to analyze the way in which language is used to create codes and images This

general lack of interest may be because semantics seem peripheral to special education the focus has rather been on individual case studies teaching programmes legislation and practice Jenny Corbett however has a particular interest in the language of special needs Over the past few years she has explored the ways in which new discourses have emerged to challenge those of enlightened modernity the political correctness of special needs language in the mid 1990s and the ways in which imagery is changing as proud labels displace the legacy of negativity In this book the author brings together the findings of these explorations as she looks at where the language of special needs has emerged from where it seems to be going at present and what is likely to become of it in the near future In order to more fully understand why some learners are marginalised and given an inferior status says Jenny Corbett it is important to explore the way in which language has been used
