Be Your Dog's Best Friend Katya Lidsky, 2025-08-15 Bonding with a dog is good for the animal and good for us. Along the way to achieving the behaviors we desire from a dog, we change our behaviors too, taking us right to the intersection between dog guardianship and personal growth. This how-to bond book, set against the backdrop of a true love story, explores what happens when we prioritize the relationship with our canines over the results we get from them. With a woven narrative that features various foster dogs as well as exercises to practice with your own dog, it positions dog adoption as both a selfish and a selfless act. Every dog has the capacity to help us be the best version of ourselves, day after day, and in bonding to improve the relationship with our pet, we end up strengthening the relationship we really want: the one with ourselves.

Puppy Kisses To Partnership Joyce Guthrie, 2012-08-12 The purpose of this book is to take you and your puppy from the dream before your puppy is even a reality, which means finding the right breeder, one using ENS, an enrichment program, and PAT testing, to picking the right puppy, to properly training your puppy once you bring him or her home, to build that ultimate relationship, that perfect partnership that bonds you for life. There are so many optimal steps that can be taken long before you and your puppy ever step into a training class. The techniques used are applicable to large breeds, mixed breeds, and rescues, as well as giants. The term giants refers more to size and weight than any particular breed.
