The GDR Remembered Nick Hodgkin, Caroline Pearce, 2011 Competing representations of the former East German state in the German cultural memory Twenty years after the fall of the Berlin Wall the consequences of the country's divided past continue to be debated The legacy of the German Democratic Republic occupies a major role in German popular culture with audiences flocking to films claiming to depict the East German state as it was Politicians from both left and right make use of its legacy to support their parties approach to unification while former citizens of the GDR are still working through their own memories of the regime and adjusting to unification Since 1989 competing representations of the East German state have emerged some underlining its repressive nature others lamenting the loss of a sense of community The twentieth anniversary of the Wende is an occasion to reflect upon both the history of the GDR and the ways in which it has been remembered and the present volume presents new research on the theme from a variety of perspectives with sections on film and literature museums and memorials and historiography and politics Contributors Thomas Ahbe Pertti Ahonen Silke Arnold de Simine Stefan Berger Laura Bradley Mary Fulbrook Nick Hodgkin Anna O Driscoll Stuart Parkes Caroline Pearce Gnter Schlusche Peter Thompson Andreas Wagner Nick Hodgkin is a Cultural Historian working at the University of Sheffield UK and Caroline Pearce is Lecturer in German and Interpreting also at the University of Sheffield

States of Liberation Samuel Clowes Huneke, 2022-01-27 States of Liberation traces the paths of gay men in East and West Germany from the violent aftermath of the Second World War to the thundering nightclubs of present day Berlin Following a captivating cast of characters from gay spies and Nazi scientists to queer politicians and secret police bureaucrats States of Liberation tells the remarkable story of how the two German states persecuted gay men and how those men slowly over the course of decades won new rights and created new opportunities for themselves in the heart of Cold War Europe Relying on

untapped archives in Germany and the United States as well as oral histories with witnesses and survivors Huneke reveals that communist East Germany was in many ways far more progressive on queer issues than democratic West Germany

German Post-Socialist Memory Culture Amieke Bouma, 2025-10-01 After German unification former officers of the GDR state security service united with GDR professors and cultural managers to establish the East German Committee of Associations OKV On the basis of encompassing oral history into this complex web of interest organizations and memory clubs Bouma argues that these activists are driven by an epistemic nostalgia a longing for the time when their political understanding of the world was seemingly unchallenged Far from constituting a second life of the Stasi the main goal of OKV associations has been to validate the personal biographies of their activists against the now prevalent view that the GDR was a state of injustice While the OKV quickly adapted to the new legal procedures in post socialist Germany their staunch defence of the GDR heritage complicates their relation to SED successor party Die Linke and other radical left parties and associations even when they share practical goals Breaking new ground in the study of post socialist memory culture this book explains why former GDR cadres replicate GDR memory culture against their stigmatized status in unified Germany

Generational Shifts in Contemporary German Culture Laurel Cohen-Pfister, Susanne Vees-Gulani, 2010 The concept of the generation in today's German culture and literature and its role in German identity In the debates since 1945 on German history and culture the concept of generations has become ever more prominent Recent and ongoing shifts in how the various generations are seen and see themselves in relation to history and to each other have taken on key importance in contemporary German cultural studies The seismic events of twentieth century German history are no longer solely first generational lived experiences but are also historical moments seen through the eyes of successor generations The generation seen as a category of memory thus holds a key to major shifts in German identity The changing generational perspectives of German writers and filmmakers not only reflect but also influence these trends exposing both the expected differences between generational views and unexpected continuities Moreover as younger artists reframe recent history older generations like the 1968ers are also contributing to these shifts by reassessing their own experiences and cultural contributions This volume of new essays applies current discourse on generations in German culture to contemporary works dealing with major sociohistorical events since the Nazi period Contributors Svea Brünert Laurel Cohen Pfister Friederike Eigler Thomas C Fox Katharina Gerstenberger Erin McGlothlin Brad Prager Ilka Rasch Susanne Rinner Caroline Schaumann Maria Stehle Reinhild Steingruber Susanne Vees Gulani Laurel Cohen Pfister is Associate Professor of German at Gettysburg College and Susanne Vees Gulani is Assistant Professor of German and Comparative Literature at Case Western Reserve University *Burned Bridge* Edith Sheffer, 2014 Examines Burned Bridge the intersection between two sister cities in East and West Germany and reveals how the daily adjustments of anxious residents shaped the barrier that divided them

Drumbl,Barbora Holá,2024-04-17 Informers are generally reviled After all snitches get stitches Informers who report to repressive regimes are particularly disdained While informers may themselves be victims enlisted by the state their actions cause other individuals to suffer significant harm Informers then are central to the proliferation of endemic human rights abuses Yet little is known about exactly why ordinary people end up informing on at times betraying other people to state authorities Through a case study of Communist Czechoslovakia 1945 1989 that draws from secret police archives oral histories and a broad gamut of secondary sources this book unearths what fuels informers to speak to the secret police in repressive times and considers how transitional justice should approach informers once repression ends This book unravels the complex drivers behind informing and the dynamics of societal reactions to informing It explores the agency of both informers and secret police officers By presenting informers up close and the relationships between informers and secret police officers in high resolution this book centres the role of emotions in informer motivations and underscores the value of dignity and reconciliation in transitional reconstruction This book also leverages research from informing in repressive states to better understand informing in so called liberal democratic states which after all also rely on informers to maintain law and preserve order To learn more read the introduction and conclusion from the book s symposium <https://opiniojuris.org/2024/08/19/introduction-to-the-sympo> <https://opiniojuris.org/2024/08/23/symposium-on-informers-up> <https://justiceinconflict.org/2024/10/07/disguise-blur-purr-and-nakedness-mark-drumbl-and-barbora-hola-on-informers-up-close-stories-from-communist-prague> <https://justiceinconflict.org/2024/10/16/to-change-the-we-as-well-as-the-me-and-the-you-concluding-the-symposium-on-informers-up-close>

boardrooms to private dwellings in postwar West Germany At the heart of efforts to extract insights were extensive personalized efforts by law enforcement and security officials to manipulate desires and emotions involving dearest family members closest friends and trusted colleagues Linking personal narratives of those interrogated to the international context of postwar politics Allen reveals a compelling world inhabited by spies and refugees Allen s study illuminates the places personalities and practices of refugee interrogation in one of Europe s most successful postwar states As calls for intense scrutiny of refugees have grown dramatically Allen illustrates how decisions to shortchange the rights of migrants in periods of heightened ideological and military tension may contribute to long term threats to personal liberties and the rule of law

Gender and Memory Luisa Passerini,2017-07-12 *Gender and Memory* brings together contributions from around the world and from a range of disciplines history and sociology socio linguistics and family therapy literature to create a volume that confronts all those concerned with autobiographical testimony and narrative both spoken and written The fundamental theme is the shaping of memory by gender This paperback edition includes a new introduction by Selma Leydesdorff coeditor of the *Memory and Narrative* series of which this volume is a part Are the different ways in which men and women are recalled in public and private memory and the differences in men s and women s own memories of similar experiences simply reflections of unequal lives in gendered societies or are they more deeply rooted The sharply differentiated life experiences of men and women in

most human societies the widespread tendencies for men to dominate in the public sphere and for women's lives to focus on family and household suggest that these experiences may be reflected in different qualities of memory. The contributors maintain that memories are gendered and that the gendering of memory makes a strong impact on the shaping of social spaces and expressive forms as the horizons of memory move from one generation to the next. They argue that in order to understand how memory becomes gendered we need to travel through the realms of gendered experience and gendered language.
