**People's Game** Alan McDougall, 2014-06-26 Sport in East Germany is commonly associated with the systematic doping that helped to make the country an Olympic superpower Football played little part in this controversial story Yet as a hugely popular activity that was deeply entwined in the social fabric it exerted an influence that few institutions or pursuits could match *The People's Game* examines the history of football from the interrelated perspectives of star players fans and ordinary citizens who played for fun Using archival sources and interviews it reveals football's fluid role in preserving and challenging communist hegemony By repeatedly emphasising that GDR football was part of an international story for example through analysis of the 1974 World Cup finals Alan McDougall shows how sport transcended the Iron Curtain Through a study of the mass protests against the Stasi team BFC during the 1980s he reveals football's role in foreshadowing the downfall of communism *The Soviet Past in the Post-Socialist Present* Melanie Ilic, Dalia Leinarte, 2015-07-03 This

collection examines practical and ethical issues inherent in the application of oral history and memory studies to research about the Soviet Union and Eastern Europe since the collapse of the Soviet bloc Case studies highlight the importance of ethical good practice including the reflexive interrogation of the interviewer and researcher and aspects of gender and national identity Researchers use oral history to analyze present day recollections of the Soviet past thereby extending our understanding beyond archival records official rhetoric and popular mythology Oral history explores individual life stories but this has sometimes resulted in rather incomplete incoherent inconsistent or illogical narratives Oral history therefore presents the researcher with a number of methodological and ethical dilemmas including the interpretation of silence in

biographical accounts This collection links the discussion of oral history ethics with that of memory studies Memories are shaped by factors that may be simultaneously both consecutive and disrupted In written accounts and responses to interview questions respondents sometimes display nostalgia for the Soviet past or conversely may seek to de mythologize the realities of Soviet rule Case studies explore what to do when interview subjects and memoirists consciously sub consciously or unconsciously forget aspects of their own past or themselves seek to take control of the research process Relics Jamie Grove,Max Grove,Mini Museum,2021-10-26 Four billion years in the palm of your hand Relics A History of the World Told in 133 Objects is the story of our planet as you ve never seen it before The Mini Museum is a collection of treasures gathered from across space and time shared by tens of thousands of people in more than 120 countries Each item in the collection is a story connected to a childhood dream of sharing all the wonders the universe has to offer while bringing all of us closer together In this book the Mini Museum team shares the stories of real objects that have shaped our very existence across billions of years of history Beginning with the birth of our solar system and the very building blocks of life you ll explore our dynamic planet from the constant shifting of continents to dramatic and violent upheavals which have changed the course of all life again and again You ll visit mighty civilizations with cultures spanning millennia as well as modern symbols of creativity and innovation and the march of humanity as we reach toward the stars Every item is photographed and presented in detail There are also wild tales of adventure as the crew travels the world and prepares one of the most complex collections ever assembled **The SAGE Encyclopedia of Surveillance, Security, and Privacy** Bruce A.

Arrigo,2016-06-15 Although surveillance hit the headlines with revelations by Edward Snowden that the National Security Agency had been tracking phone calls worldwide surveillance of citizens by their governments actually has been conducted for centuries Only now with the advent of modern technologies it has exponentially evolved so that today you can barely step out your door without being watched or recorded in some way In addition to the political and security surveillance unveiled by the Snowden revelations think about corporate surveillance each swipe of your ID card to enter your office is recorded not to mention your Internet activity Or economic surveillance what you buy online or with a credit card is recorded and your trip to the supermarket is videotaped Drive through a tollbooth and your license plate is recorded Simply walk down a street and your image is recorded again and again and again Where does this begin and end In all levels of social structure from the personal to the political to the economic to the judicial The SAGE Encyclopedia of Surveillance Security and Privacy uncovers and explains how surveillance has come to be an integral part of how our contemporary society operates worldwide and how it impacts our security and privacy Key features include Approximately 450 signed entries from contributors around the globe Further readings and cross references conclude each article to guide students further as they explore a topic A Reader s Guide organizes entries by broad thematic areas **Crimes Against Humanity** Geoffrey Robertson,2013-02-05 When it was first published in 1999 Crimes Against Humanity called for a radical shift from diplomacy to justice in international

affairs In vivid non legalese prose leading human rights lawyer Geoffrey Robertson made a riveting case for holding political and military leaders accountable in international courts for genocide torture and mass murder Since then fearsome figures such as Charles Taylor Laurent Gbagbo and Ratko Mladic have been tried in international criminal court and a global movement has rallied around the human rights framework of justice Any such legal framework requires constant evolution in order to stay relevant and this newly revised and expanded volume brings the conversation up to date In substantial new chapters Robertson covers the protection of war correspondents the problem of piracy crimes against humanity in Syria nuclear armament in Iran and other challenges we are grappling with today He criticizes the Obama administration s policies around targeted killing and the trials of Khalid Sheik Mohammed and other high value detainees By rendering a complex debate accessible Robertson once again provides an essential guide for anyone looking to understand human rights and how to work toward a more complete blueprint for justice

**A Companion to German Cinema** Terri Ginsberg, Andrea Mensch, 2012-02-13 A Companion to German Cinema A Companion to German Cinema regards the shifting terrain of German filmmaking and film studies against their larger social contexts with twenty two newly commissioned essays by well established and younger scholars in the field While several of these focus on classic topics such as Weimar cinema Fifties cinema New German Cinema and its legacy and Holocaust film the collection is distinguished by its focus on new developments and the innovative light they may shed on earlier practices A Companion to German Cinema includes essays on Berlin Film Neue Heimat Film New Comedy post Wall documentaries the post Wende RAF genre and Rabenmutter imagery as well as on the persistently overlooked and under theorized Indianerfilme post AIDS documentaries sexploitation films and new multicultural and transnational films produced in Germany under the auspices of the European Union Organized into three movements representing the significance of these developments for their aesthetic theorization A Companion to German Cinema challenges its readers to address critical gaps in the field with the aim of opening it further onto new terrains of intellectual engagement

*Berliners* Vesper Stamper, 2022-10-25 A riveting story about the rivalry between two brothers living on opposite sides of the Berlin wall during its construction in the 1960s and how their complicated legacy and dreams of greatness will determine their ultimate fate A city divided A family fractured Two brothers caught between past and present Berlin 1961 Rudi M ser Fleischmann is an aspiring photographer with dreams of greatness but he can t hold a candle to his talented charismatic twin brother Peter an ambitious actor With the sudden divorce of their parents the brothers find themselves living in different sectors of a divided Berlin the postwar partition strangely mirroring their broken family But one night as the city sleeps the Berlin Wall is hurriedly built dividing society further and Rudi and Peter are forced to choose between playing by the rules and taking their dreams underground That is until the truth about their family history and the growing cracks in their relationship threaten to split them apart for good From National Book Award nominated critically acclaimed author illustrator Vesper Stamper comes a stark look at how resentment and denial can strain the bonds

of brotherhood to the breaking point      Socialism with a Human Face Gary B. Magee, Wayne Geerling, 2022-03-31 East Germany's economic history is typically told as a story of the unravelling of an inherently flawed system Yet while the system's inefficiency is undeniable its economic history was much richer than its comparatively poor economic performance suggests For many who lived there it was a system that over its forty years was capable of achievements and generally functioned at bearable levels This book combines the insights of behavioural economics with archival research to peel away layers of rhetoric and assumptions about the East German economy and explore aspects of that underlying functionality Through a series of cases studies that examine the establishment of socialist workplaces the searches for productivity growth and efficiency and the emergence of financial crisis the book considers the system from the perspective of the humans who operated it and made the decisions that made it work Unencumbered by political preconceptions it offers a more realistic understanding of East German economic history than that derived from stagnant debates about the clash of systems The new perspectives and approaches presented demonstrate that extracted from its Cold War context East Germany's economic history can be analysed for what it was rather than for what it symbolised      **The 'Second World' in Contemporary British Writing** Katrin Berndt, Andrew Wells, 2024-08-12 The thirteen contributions to this collection all explore or exemplify the ongoing British interest in the socialist world before 1990 In autobiography fiction film history and lexicography these chapters show how contemporary Britain is engaging with the past project to build socialism in Europe and what this means for the present and the future of our continent Contributions come from a wide range of disciplinary and geographical backgrounds and the volume is further enriched by a short story especially written for this book and by an in depth interview with the author of a recent popular history of the GDR Together these chapters offer a unique perspective into contemporary British writing on the second world and the enduring fascination with the failures of futures past      **Real to Reel** Martin Sohn-Rethel, 2016-03-08 Martin Sohn Rethel brings a lifetime of teaching film and media to bear on developing a new approach to analyzing the realism of the moving image      *Regimes of Twentieth-Century Germany* Marc T. Voss, 2016-10-18 *Regimes of Twentieth Century Germany* is a concise theory of and empirical study on action consciousness as an integral dimension of historical consciousness with specific emphasis on National Socialist Germany and the German Democratic Republic      *German Post-Socialist Memory Culture* Amieke Bouma, 2025-10-01 After German unification former officers of the GDR state security service united with GDR professors and cultural managers to establish the East German Committee of Associations OKV On the basis of encompassing oral history into this complex web of interest organizations and memory clubs Bouma argues that these activists are driven by an epistemic nostalgia a longing for the time when their political understanding of the world was seemingly unchallenged Far from constituting a second life of the Stasi the main goal of OKV associations has been to validate the personal biographies of their activists against the now prevalent view that the GDR was a state of injustice While the OKV quickly adapted to the new legal procedures in post socialist Germany their staunch

defence of the GDR heritage complicates their relation to SED successor party Die Linke and other radical left parties and associations even when they share practical goals Breaking new ground in the study of post socialist memory culture this book explains why former GDR cadres replicate GDR memory culture against their stigmatized status in unified Germany

**The Chancellor** Kati Marton,2021-10-26 The captivating The New York Times definitive biography of German Chancellor Angela Merkel detailing the extraordinary rise and political brilliance of the most powerful and elusive woman in the world Angela Merkel has always been an outsider A pastor s daughter raised in Soviet controlled East Germany she spent her twenties working as a research chemist entering politics only after the fall of the Berlin Wall And yet within fifteen years she had become chancellor of Germany and before long the unofficial leader of the West In this masterpiece of discernment and insight The New York Times Book Review acclaimed biographer Kati Marton sets out to pierce the mystery of Merkel s unlikely ascent With unparalleled access to the chancellor s inner circle and a trove of records only recently come to light she teases out the unique political genius that had been the secret to Merkel s success No modern leader so ably confronted Russian aggression enacted daring social policies and calmly unified an entire continent in an era when countries are becoming more divided Again and again she cleverly outmaneuvered strongmen like Putin and Trump and weathered surprisingly complicated relationships with allies like Obama and Macron Famously private the woman who emerges from this impressively researched The Wall Street Journal account is a role model for anyone interested in gaining and keeping power while staying true to one s moral convictions At once a riveting Los Angeles Review of Books political biography an intimate human portrait and a revelatory look at successful leadership in action The Chancellor brings forth one of the most extraordinary women of our time

**I Glanced Out the Window and Saw the Edge of the World** Catherine Halsall,2020-07-08 This book is about WAR not the causes and results not the planning and the campaigns not the artillery and the bombs It is about the heinous crimes committed by the combatants the horrifying experiences of civilians the devastation of cities and villages the killing and the dying the glory leading to revulsion and guilt and the assimilation of suffering that either ends in death or in the triumph of the soul It looks at the struggle of the church to remain faithful and the servants of the church who seek to bring sense and solace to the victims It discusses antisemitism racism and war itself from biblical perspectives It reveals the unjustifiable reasons for engaging in war and how this brings catastrophic results for all peoples the mental instability of the survivors and the loss and grief of those on the home front In war how can men and women carry out the actions that they do As Viktor Frankl writes After all man is that being who has invented the gas chambers of Auschwitz however he is also that being who has entered those gas chambers upright with the Lord s Prayer or the Shema Yisrael on his lips
