John Wilson,1977 **Living with Fire** Tom Griffiths,Christine Hansen,2012-11-12 Within the Yarra River catchment area
nestles the valley of Steels Creek a small shallow basin in the lee of Kinglake plateau and the Great Dividing Range The
escarpment walls of the range drop in a series of ridges to the valley and form the south eastern boundary of the Kinglake
National Park The gentle undulations that flow out from the valley stretch into the productive and picturesque landscape of
Victoria s famous wine growing district the Yarra Valley Late on the afternoon of 7 February 2009 the day that came to be
known as Black Saturday the Kinglake plateau carried a massive conflagration down the fringing ranges into the Steels
Creek community Ten people perished and 67 dwellings were razed in the firestorm In the wake of the fires the devastated
residents of the valley began the long task of grieving repairing rebuilding or moving on while redefining themselves and
their community In *Living with Fire* historians Tom Griffiths and Christine Hansen trace both the history of fire in the region
and the human history of the Steels Creek valley in a series of essays which examine the relationship between people and
place These essays are interspersed with four interludes compiled from material produced by the community In the
immediate aftermath of the fire many people sought to express their grief shock sadness and relief in artwork Some painted
or wrote poetry while others collected the burnt remains of past treasures from which they made new objects These
expressions supplemented by historical archives and the essays they stand beside offer a sensory and holistic window into
the community s contemporary and historical experiences A deeply moving book *Living with Fire* brings to life the stories of

one community's experience with fire offering a way to understand the past and in doing so prepare for the future
