The Logic Of Spiritual Values:

The Logic of Spiritual Values Robert Bolton, 1996

Anishinaabe Ways of Knowing and Being Lawrence W.

Gross, 2016-04-15 Very few studies have examined the worldview of the Anishinaabeg from within the culture itself and none have explored the Anishinaabe worldview in relation to their efforts to maintain their culture in the present day world This book fills that gap Focusing mainly on the Minnesota Anishinaabeg Lawrence Gross explores how their worldview works to create a holistic way of living However as Gross also argues the Anishinaabeg saw the end of their world early in the 20th century and experienced what he calls postapocalypse stress syndrome As such the book further explores how the values engendered by the worldview of the Anishinaabeg are finding expression in the modern world as they seek to rebuild their society

Overcoming Violence Against Women and Girls Michael L. Penn, Rahel Nardos, 2003 This book provides university students policy makers activists public health workers clinicians and lay citizens alike with a vivid overview of the scope of the problem of gender based violence worldwide as well as a sense of the important work now underway to eradicate it An integration of a vast range of data and insights from all the major disciplines that have contributed to our understanding of this problem this book is invaluable as a classroom text The authors have been guided throughout this work by the desire to contribute a document that would move the current international discourse along by providing an historical interdisciplinary overview that is at once critical constructive and visionary

Common Faith Kevin Mott-Thornton, 2018-08-17 Published in 1998 this book provides a much needed philosophical analysis of the political and educational issues that are raised when spiritual development is regarded as a central educational aim The author examines the meaning of spirituality in the educational context and provides a suitable educational characterization following a detailed critique of certain ideas put forward by John Dewey Alistair MacIntyre and Charles Taylor In the second part of the book the author examines various attempts to derive policies concerning the personal education of pupils from cultural and political claims The educational implications of a wide range of political perspectives are explored including those of liberalism communitarianism conservatism and pluralism Particular attention is given to the constraints imposed on educationalists by the liberalisms of John Rawls and Joseph Raz and in the final part the author questions whether any nationally common conception of spiritual education is either educationally adequate or politically acceptable
