

The Lonely Skyscraper

J.P. Deceliere

The Lonely Skyscraper:

The Lonely Skyscraper Jenny Hawkesworth, 1980-01-01 A big city skyscraper lonely when the workers go home at night finds a new and happy life in the country as the home for the forest animals

The American Skyscraper, 1850-1940 Joseph J. Korom, 2008 The skyscraper is an American invention that has captured the public's imagination for over a century. The tall building is wholly manmade and borne in the minds of those with both slide rules and computers. This is the story of the skyscraper's rise and the recognition of those individuals who contributed to its development. This volume is unique: its approach, information, and images are fresh and telling. The text examines America's first tall buildings, the result of twelve years of in-depth research by an accomplished and published architect and architectural historian. Over 300 compelling photographs, charts, and notes make this the ultimate tool of reference for this subject. Biographies woven throughout with period norms, politics, and lifestyles help to place featured skyscrapers in context. Quite simply, there is no book like this. The text, carefully and insightfully written, is clear, concise, and easily digestible, the text being the product of well-documented original research written in an informative tone. **The American Skyscraper 1850-1940: A Celebration of Height** is a richly documented journey of a fascinating topic and it promises to be a superb addition to libraries, schools of architecture, students of architecture, and lovers of art.

American Skyscrapers Lamia Doumato, 1987

The Black Skyscraper Adrienne Brown, 2017-11-15 How did writers and artists view the intersection of architecture and race in the modernist era? Winner of the MSA First Book Prize of the Modernist Studies Association. With the development of the first skyscrapers in the 1880s, urban built environments could expand vertically as well as horizontally. Tall buildings emerged in growing cities to house and manage the large and racially diverse populations of migrants and immigrants flocking to their centers following Reconstruction. Beginning with Chicago's early 10-story towers and concluding with the 1931 erection of the 102-story Empire State Building, Adrienne Brown's **The Black Skyscraper** provides a detailed account of how scale and proximity shape our understanding of race. Over the next half century, as city skylines grew, American writers imagined the new urban backdrop as an obstacle to racial differentiation. Examining works produced by writers, painters, architects, and laborers who grappled with the early skyscraper's outsized and disorienting dimensions, Brown explores this architecture's effects on how race was seen, read, and sensed at the turn of the twentieth century. In lesser-known works of apocalyptic science fiction, light romance, and Jazz Age melodrama, as well as in more canonical works by W. E. B. Du Bois, F. Scott Fitzgerald, Aaron Douglas, and Nella Larsen, the skyscraper mediates the process of seeing and being seen as a racialized subject. From its distancing apex, reducing bodies to specks to the shadowy mega-blocks it formed at street level, the skyscraper called attention, Brown argues, to the malleable nature of perception. A highly interdisciplinary work, **The Black Skyscraper** reclaims the influence of race on modern architectural design, as well as the less well-understood effects these designs had on the experience and perception of race.

Fully Connected Julia Hobsbawm, 2017-04-20 Shortlisted for the CMI's Management Book of the Year Award

2018 and the Business Book Awards 2018 Twenty five years after the arrival of the Internet we are drowning in data and deadlines Humans and machines are in fully connected overdrive and starting to become entwined as never before Truly it is an Age of Overload We can never have imagined that absorbing so much information while trying to maintain a healthy balance in our personal and professional lives could feel so complex dissatisfying and unproductive Something is missing That something Julia Hobsbawm argues in this ground breaking book is Social Health a new blueprint for modern connectedness She begins with the premise that much of what we think about healthy ways to live have not been updated any more than have most post war modern institutions which are themselves also struggling in the twenty first century In 1946 the World Health Organization defined health as a state of complete physical mental and social well being and not merely the absence of disease or infirmity What we understood by social in the middle of the last century now desperately needs an update In Fully Connected Julia Hobsbawm takes us on a journey often a personal one from Telex to Twitter to illustrate how the answer to the Age of Overload can come from devising management based systems which are both highly practical and yet intuitive and which draw inspiration from the huge advances the world has made in tackling other kinds of health specifically nutrition exercise and mental well being Drawing on the latest thinking in health and behavioural economics social psychology neuroscience management and social network analysis this book provides a cornucopia of case studies and ideas to educate and inspire a new generation of managers policymakers and anyone wanting to navigate through the rough seas of overload

Paradox (Star Legacy Saga Book 3) J.P. Deceliere, 2019-12-16 A huge mistake jeopardized the lives of two important members of the Arks and now humanity's duty will be to save their kidnapped friends and survive another adventure An old wise man warned the Razarians to avoid the seventh planet of the Traveler yet the illegitimate leader took the last survivors of his species towards doom While exploring the rainforest planet the human explorers will have to realize that to find their loved ones they will need help of an old friend Their encounter with an unfriendly hive will surely be tough for the last Razarians and the secrets inside that planet will leave them with a bitter taste Confused aren't you Two stories that don't have anything in common two timelines that have been separated by space and time until now Here is where both stories connect joined by the unexpected bursting of a red transformation and by the cosmic power of a blackhole

The Pig and the Skyscraper Marco d'Eramo, 2020-05-05 You expect the city of Al Capone and what you find are pleasant boulevards coursing up and down between the neo classical buildings of the 1893 Universal Exhibition The city center unfolds before you an architectural miracle that is to twentieth century urban planning what Venice must have been for the fifteenth century Like a cross between Philip Marlowe and Walter Benjamin Marco d'Eramo stalks the streets of Chicago leaving no myth unturned Maintaining a European's detached gaze he slowly comes to recognize the familiar stink of modernity that blows across the Windy City the origins of whose greatness the slaughterhouses the railroads the lumber and cereal crop trades are by now ancient history and where what rears its head

today is already scheduled for tomorrow's chopping block Chicago has been the stage for some of modernity's key episodes the birth of the skyscraper the rise of urban sociology the world's first atomic reactor the hard-nosed monetarism of the Chicago School Here in this postmodern Babel where the contradictions of American society are writ large Eramo bears witness to the revolutionary subversive power of capitalism at its purest
