The Low Countries:

History of the Low Countries J. C. H. Blom, E. Lamberts, 2006-06-01 The history of the smaller European countries is rather neglected in the teaching of European history at university level We are therefore pleased to announce the publication of the first comprehensive history of the Low Countries in English from Roman Times to the present Remaining politically and culturally fragmented with its inhabitants speaking Dutch French Frisian and German the Low Countries offer a fascinating picture of European history en miniature For historical reasons parts of northern France and western Germany also have to be included in the Low Countries a term that must remain both broad and fluid a convenient label for a region which has seldom if ever composed a unified whole In earlier ages it was even more difficult to set parameters again reflecting Europe as a whole when tribes and kingdoms stretched across expanses not limited to the present states of Belgium Luxembourg and the Netherlands Nevertheless its parts did demonstrate many common traits and similar developments that differentiated them from surrounding countries and lent them a distinct character Internationally the region often served both as a mediator for and a buffer to the surrounding great powers France Britain and Germany an important role still played today as Belgium and the Netherlands have increasingly become involved in the broader process of European integration in which they often share the same interest and follow parallel policies This highly illustrated volume serves as an ideal introduction to the rich history of the Low Countries for students and the generally interested reader alike

for their neutrality *The Low Countries: A History* Anthony Bailey, 2016-03-29 Here from British historian and New Yorker senior writer Anthony Bailey is the dramatic story of the Low Countries Belgium the Netherlands and Luxembourg from the early days of nomads and barbarian invaders to the birth of towns and cities to the rise and decline of world prominence and finally to the dark and tragic days of World War II **European Integration and Consensus Politics in the Low**

Countries Hans Vollaard, Jan Beyers, Patrick Dumont, 2014-08-13 The Netherlands Belgium and Luxembourg are well known cases of consensus politics Decision making in the Low Countries has been characterized by broad involvement power sharing and making compromises These countries were also founding member states of the European Union EU and its predecessors However the relationship between European integration and the tradition of domestic consensus politics remains unclear In order to explore this relationship this book offers in depth studies of a wide variety of political actors such as governments parliaments political parties courts ministries and interest groups as well as key policy issues such as the ratification of EU treaties and migration policy The authors focus not only on Europeanization but also analyse whether European integration may gradually undermine the fundamental characteristics of consensus politics in the Low Countries Drawing on consociationalism and Europeanization research this volume provides a comprehensive overview of

Europeanization in these three EU member states as well as a better understanding of the varieties of consensus politics across and within these countries This book will be of interest to students and scholars of European studies European integration European law political science European political economy and comparative politics Bronze Age Settlements in the Low Countries Harry Fokkens, 2008-06-04 The Low Countries around the deltas of the river Rhine Meuse and Scheldt have a long tradition in large scale archaeological research This book brings together research from thirteen of the largest Bronze Age settlements described by their original excavators These contributions are preceded by two introductory chapters written by the editors providing a full overview of the state of Dutch Bronze Age settlement research the key sites and the explanatory models current within it Standards have been developed for the analysis of Bronze Age house plans and settlement sites and new models for the reading of the settled landscape The rich data of the Low Countries also incorporate burial areas and deposition places The findings presented can be seen to reflect the situation over a large area of lands bordering the North Sea
