The Love Principles:

The Love Principles Arleen Lorrance, 2001 The Love Principles presents a broad very practical exploration of the transformational power of unconditional love Real life examples show how to make the difficult possible and demonstrate that joy can become commonplace The Love Principles encourages readers to lift up into the more of who they are to exercise creative jurisdiction over their minds feelings and bodies and to function with consciousness in all circumstances **The Principles of Nature, Her Divine Revelations** Andrew Jackson Davis, 1851 *The Principles of Nature, Her Divine Revelations, and a Voice to Mankind* Andrew Jackson Davis, 1854 **Bentham's an Introduction to the Principles of Morals and Legislation** Steven Sverdlik, 2023 Bentham's Introduction to the Principles of Morals and Legislation is a foundational work of the utilitarian tradition in moral and political philosophy In this comprehensive guide for philosophy students Steven Sverdlik discusses the entire Introduction highlighting its central claims and their relations to contemporary debates in areas such as moral and legal philosophy The Guide emphasizes Bentham's original goal of introducing a utilitarian penal code Sverdlik considers the chapters of Bentham's text sequentially explaining and connecting the work's main themes These are Bentham's fundamental moral assumptions the principle of utility and his hedonistic theory of intrinsic value on the one hand and on the other his psychological theories about pleasure and pain human motivation decision making and action Sverdlik explains the abstract psychological framework Bentham develops and how he applies it in the context of penal or criminal law Bentham's psychological and moral theories form the groundwork of his treatment of the deterrence of potential offenders the punishment of convicted offenders and the criminalization of various types of behavior By restating Bentham's thinking about these topics in contemporary philosophical terms Sverdlik allows readers to see how it relates to current ideas about the proper goals of criminal justice systems **The Principles of Nature, Her Divine Revelations, (and) a Voice to Mankind** Andrew J. Davis, 1996-09 1881 Contents Part I The Key General remarks on the condition of society in past and present times Part II The Revelation The original condition of all matter as liquid fire Evolution of an igneous atmosphere from the Great Centre and form **The Principles of New Ethics II** Wang Haiming, 2020-10-29 From Descartes to Spinoza Western philosophers have attempted to propose an axiomatic systemization of ethics However without consensus on the contents and objects of ethics the system remains incomplete This four-volume set presents a model that highlights a Chinese philosopher's insights on ethics after a 22 year study Three essential components of ethics are examined metaethics normative ethics and virtue ethics This volume is the first part of the discussion on normative ethics The author sets out to discuss morality and shows how the reasoning behind it can be both good and bad for human society from various perspectives A system of an ultimate standard of morality is introduced and it is shown that where there are conflicts between different moral norms that cannot be compromised people undoubtedly sacrifice less important moral norms to follow more fundamental and important moral norms or principles The ultimate standard of

morality is also the ultimate value standard for the evaluation of the goodness or badness of state institutions Justice is the fundamental value standard to measure state institutions Equality is the most important justice The Chinese version of this set sold more than 60 000 copies and has exerted tremendous influence on the academic scene in the People's Republic The English version will be an essential read for students and scholars of ethics and philosophy in general

The Principles of Nature (digitally re-edited) Andrew Jackson Davis, 2014-05-19 This rare book has been digitally re-edited from a facsimile reprint of the original Much care and attention has been spent bringing the book back to its original glory The scanning process always introduces errors but as far as we know we have managed to find the majority and fix them in this edition If you are an Andrew Jackson Davis fan or you are new to the author then this is his masterpiece This work was produced whilst he was under hypnosis and the gems therein come direct from the Fountain of Knowledge

Davis was a young uneducated man at the time of producing this book and its contents and style are far beyond anything he could have produced. He was a remarkable man as you will find out from the Introduction.

Principles of Biblical Hermeneutics J. Edwin Hartill, J. E. Hartill, 1960-10-05

Biblical hermeneutics is the science of interpreting the Bible. The aim of this book is to explain and illustrate the various principles of Bible interpretation that must be followed if one is to understand the teachings of God's Word correctly. Such a study is pivotal to anyone who studies the Bible. Unless consistent principles of interpreting its passages are followed, the truth of God becomes blurred and confused. Determining what the Bible means must precede all application of its words to the lives of its readers and hearers. Dr. S. Franklin Logsdon, Bible teacher and evangelist, says of this book: "These principles of Bible study by Dr. J. Edwin Hartill have been tested and proved in his own personal teaching for many years. They are succinct, pointed, practical, original, understandable, simple keys to unlock the storehouse of Scripture to things both old and new. This publication makes a distinct contribution to Bible lovers in their search for increased knowledge of divine truth. It is a privilege and an honor to commend it to God's people. Using a graphic combination of text, charts, and outlines, Dr. Hartill states: 'I trust that as you study these principles, your understanding of the Word and your love for its truth may deepen so that you may more ably pass it on to others.' Included are chapters on: The Dispensational Principle, The Covenantal Principle, The Ethnic Division Principle, The Discrimination Principle, The Predictive Principle, The Application Principle, The Typical Principle, The Principle of Human Willingness in Illumination, The First Mention Principle, The Progressive Mention Principle, The Full Mention Principle, The Context Principle, The Agreement Principle, The Direct Statement Principle, The Gap Principle, The Three-fold Principle, The Election Principle, The Repetition Principle, The Synthetic Principle, The Principle of Illustrative Mention, The Double Reference Principle, The Christo-Centric Principle, The Numerical Principle.
