Peterson,1991-01-01 From a quantitative point of view the achievement of the Kelmscott Press may not seem impressive between 1891 and 1898 it produced fifty two books and a set of specimen pages for another book Yet each was remarkably beautiful Designed by William Morris printed on hand presses ornamented with initials and borders by Morris and illustrated often by Edward Burne Jones these few Kelmscott Press books are famous everywhere today Why they have so profoundly affected twentieth century theories of book design and what cultural significance the founding of the Kelmscott Press played are some of the questions the author considers Meggs' History of Graphic Design Philip B. Beauty and the Book Megan Benton, Ingrid D. Rowland, 2000-01-01 After World War I the US was flooded with newspapers magazines radio stations and movies Many feared serious books would disappear altogether The concern caused a boom in fine editions valued for beauty craftsmanship or rarity rather than content and this is their story *Type* Simon Loxley, 2006-03-31 Type is the bridge between writer and reader between thought and understanding Type is the message bearer an art form that impinges upon every literate being and yet for most of its history it has conformed to the old adage that good typography should be invisible it should not distract with its own personality It was only at the end of the nineteenth century that designers slowly realised that they could say as much with their lettering as writers could with their words Form of course carries as much meaning as content Now anyone within reach of a computer and its limitless database of fonts has the same power Type The Secret History of Letters tells its story for the first time treating typography as a hidden measure of our history From the tempestuous debate about its beginnings in the fifteenth century to the invention of our most contemporary lettering Simon Loxley with the skill of a novelist tells of the people and events behind our letters How did Johann Gutenberg in late 1438 come to think of printing Does Baskerville have anything to do with Sherlock Holmes Why did the Nazis re-invent Blackletter What is a Zapf Type is a guide through the history of our letters and a study of their power From fashion through propaganda and the development of mass literacy Loxley shows how typography has changed our world *A Bibliography of British History, 1914-1989* Keith Robbins, American Historical Association, Royal Historical Society (Great Britain), 1996 Containing over 25 000 entries this unique volume will be absolutely indispensable for all those with an interest in Britain in the twentieth century Accessibly arranged by theme with helpful introductions to each chapter a huge range of topics is covered There is a comprehensive index **Library of Congress Catalogs** Library of Congress, 1980 **Reports of the conference on the tricentenary of the Amsterdam edition of the Bible by Nicholas Kis Tótfalusi**, 1985 **Writers Directory M-Z** Miranda Herbert Ferrara, 2004-06 This comprehensive resource features up to date bibliographical biographical and contact information for approximately 20 000 living authors worldwide who have at

least one English publication Entries typically include name pseudonyms addresses citizenship birth date specialization career information and a bibliography Contact information includes e mail addresses where available *Library of Congress Catalog* Library of Congress,1980-07 **Index to British Literary Bibliography: British literary bibliography, 1970-1979, a bibliography** Trevor Howard Howard-Hill,1992 British Literary Bibliography, 1970-1979 Trevor Howard Howard-Hill,1992 British Literary Bibliography 1970 1979 is a ten year supplement to the six volumes already published in the prestigious series Index to British Literary Bibliography and is fully indexed for consistency with earlier volumes The series provides a comprehensive record of the writings that describe and study the history of the printed book in Britain and works of bibliography and textual criticism from the earliest times The period covered by the present volume was bibliographically very active witnessing a great renewal of interest in the history of the book The volume has seven main sections General Bibliographies of and Guides to British Literature Bibliography and Textual Criticism General and Period Bibliography Regional Bibliography Book Production and Distribution Forms Genres and Subjects and Authors Complete information about each book or journal article is provided in standard form and in many instances objective annotations are given affording additional access to the items through a very detailed index *The APHA Newsletter* ,1991 **Current Book Review Citations** ,1983 **Humanities Index** ,1981 **Twentieth Century Type Designers** Sebastian Carter,1995 Whatever motivates type designers whether it is the practical need to create new faces for machines the ideal of producing the perfect letter form for our age or whether type is designed as an offshoot of other artistic activities their work has had a far reaching impact on our culture
