## **Staple State Canadian Industrial Resources In Cold War:**

**A Staple State** Melissa Clark-Jones,1987      The State, Business, and Industrial Change in Canada Michael M. Atkinson,William D. Coleman,1989-12-15 The late twentieth century has seen profound changes in the character of the international economic order According to the authors of this study Canada has failed to come to terms with those changes Our industrial policy is diffuse ad hoc and sectoral Michael Atkinson and William Coleman argue that in order to analyse Canada s industrial policy effectively particular attention must be given to industry organization state structures and systems of interest intermediation at the sectoral level To make such an analysis they introduce the concept of policy network and apply it to three types of industrial sectors the research intensive sectors of telecommunications manufacturing and pharmaceuticals the rapidly changing sectors of petrochemicals and meat processing and the contracting and troubled sectors of textiles clothing and dairy processing Through the lens of these sectors Coleman and Atkinson shed considerable light on the intersection of political considerations and policy development and offer a new base on which to move forward in planning for economic growth      *Understanding Canada* Wallace Clement,1997 The new Canadian political economy has emerged from its infancy and is now regarded as a respected and innovative field of scholarship *Understanding Canada* furthers this tradition by focusing on current issues in an accessible and informative way      W.A. Mackintosh Hugh Grant,2015-11-01 W A Mackintosh 1895 1970 was an exemplary public intellectual and a modest person of rare abilities In the first biography of this influential economist Hugh Grant addresses how Mackintosh s commitment to public service and to the principles of reason and tolerance shaped his contribution to economic scholarship government policy and university governance In the 1920s and 30s Mackintosh emerged as the country s leading economist His most notable contribution was through his co discovery with Harold Innis of the staple thesis of Canadian economic development which informed research in the field for a generation During the Second World War Mackintosh joined the Department of Finance where he played a central role in the successful management of the wartime economy and in Canada s adoption of Keynesian economic policy As the author of the federal government s 1945 White Paper Mackintosh laid out the broad strokes of Canada s adherence to Keynesianism in the post war period After his return to Queen s Mackintosh would become the university s fifteenth principal and guide the institution as it prepared for the transformation of Canadian universities A remarkable man who had a profound influence on the development of modern Canada this definitive biography restores the record on his important contributions to Canadian economic thought and national and international finance      In Search of Canada Stephen Richards Graubard,1989-01-01 *In Search of Canada*      **Empire's Ally** Jerome Klassen,Greg Albo,2013-01-10 The war in Afghanistan has been a major policy commitment and central undertaking of the Canadian state since 2001 Canada has been a leading force in the war and has spent hundreds of millions of dollars on aid and reconstruction After a decade of conflict however there is considerable debate about the efficacy of the mission as well as calls to reassess Canada s role in the

conflict An authoritative and strongly analytical work Empire's Ally provides a much needed critical investigation into one of the most polarizing events of our time This collection draws on new primary evidence including government documents think tank and NGO reports international media files and interviews in Afghanistan to provide context for Canadian foreign policy to offer critical perspectives on the war itself and to link the conflict to broader issues of political economy international relations and Canada's role on the world stage Spanning academic and public debates Empire's Ally opens a new line of argument on why the mission has entered a stage of crisis

*The Thin Edge of Innovation* Roger Hayter, Jerry Patchell, Kevin Rees, 2025-02-14 Aligned with global trends in post industrialization the economy of Metro Vancouver is changing but along its own trajectory The focus is shifting away from resource based activities to local entrepreneurial initiatives across a remarkable range of industries from software to craft beer biopharmaceuticals to mountain bikes This evolution is being shaped by local business and the city's location on the national and global periphery The Thin Edge of Innovation focusses on the performance of signature businesses in these entrepreneurial sectors to grow and foster industrial clusters and integrate with the global economy The contributors give a mixed report card to this economic transition Within Metro Vancouver innovation has stimulated economic diversification and promises to deliver high income jobs But this diversification has also been thinly spread and lacks deep local roots or dominant anchor companies This constructive study examines the distinctive opportunities facing Metro Vancouver Despite challenges it reveals a region with undoubted potential for sustained broadly beneficial local development

*A Fishery for Modern Times* Miriam Wright, 2001-12-15 In the early 1990s the northern cod populations off the coast of Newfoundland had become so depleted that the federal government placed a moratorium on commercial fishing The impact was devastating both for Newfoundland's economy and for local fishing communities Today although this natural resource exploited commercially for over 500 years appears to be returning in diminished numbers many fisheries scientists and fishers question whether the cod will ever return to its former abundance In *A Fishery for Modern Times* Miriam Wright argues that the recent troubles in the fishery can be more fully understood by examining the rise of the industrial fishery in the mid twentieth century The introduction of new harvesting technologies and the emergence of quick freezing in the late 1930s eventually supplanted household production by Newfoundland's fishing families While the new technologies increased the amount of fish caught in the northwest Atlantic Wright argues that the state played a critical role in fostering and financing the industrial frozen fish sector Many bureaucrats and politicians including Newfoundland's premier Joseph Smallwood believed that making the Newfoundland fishery modern with centralization technology and expertise would transform rural society solving deep seated economic and social problems *A Fishery for Modern Times* examines the ways in which the state ideologies of development and political economic and social factors along with political actors and fishing company owners contributed to the expansion of the industrial fishery from the 1930s through the 1960s While the promised prosperity never fully materialized the continuing reliance on approaches favouring high tech big capital

solutions put increasing pressure on cod populations in the years that followed As Wright concludes We can no longer afford to view the fisheries resources as property of the state and industry to do with it as they choose That path had led only to devastation of the resource economic instability and great social upheaval      Rural Tourism Development E. Wanda George, Heather Mair, Donald G. Reid, 2009-03-18 Rural tourism represents a merging of perhaps two of the most influential yet contradictory features of modern life Not only are the forces of economic social cultural environmental and political change working to redefine rural spaces the world over but broad global transformations in consumption and transportation patterns are reshaping leisure behaviour and travel For those concerned with both the nature of change in rural areas and tourism development the dynamics and impacts of integrating these two dramatic shifts are not well known but yet are becoming increasingly provocative discourses for study This book links changes at the local rural community level to broader more structural considerations of globalization and allows for a deeper more theoretically sophisticated consideration of the various forces and features of rural tourism development While Canadian in content the cases and discussions presented in this book can be considered generally relevant to any rural region continentally and globally that has undertaken or is considering rural tourism development      Settler Economies in World History Christopher Lloyd, Jacob Metzger, Richard Sutch, 2013-01-08 Settler Economies in World History is a comparative wide ranging historical study of the experience of the modern settler societies that have followed a distinctive economic and institutional path to the present from their neo European origins      *A History of Canadian Economic Thought* Robin Neill, 1991-06-06 A History of Canadian Economic Thought investigates the relationship between the evolution of economic theory and the particular geographical and political context of that theory Theories and policies are critiqued by testing them against both the conditions to which they were applied and against competing theories Not surprisingly Canadian economics reflects a number of significant issues in Canadian history Neill argues that there were distinctive economic movements in nineteenth century Ontario and in early twentieth century Quebec but that these have been displaced by an emerging North American discourse The book includes full accounts of the work of all the major figures in Canadian economics including John Rae H A Innis and Harry Johnson

**Development of Postwar Canadian Trade Policy** Bruce Muirhead, 1992 Muirhead agrees that any government must work to maximize national income and independent choice He shows that Canada actively pursued a policy of multilateralism and non discrimination as epitomized by the General Agreement on Tariffs and Trade In addition the government tried unsuccessfully to resurrect commercial ties with the United Kingdom its largest pre war overseas market Muirhead finds that in both these efforts Canada was thwarted by postwar realities that hindered its exploitation of markets in Britain and Western Europe The United States remained the only market able and willing to absorb the billions of dollars of Canadian exports on which Canada s prosperity depended      **Screening Nature and Nation** Michael D. Clemens, 2022-04-27 The stunning portrayals of the Canadian landscape in the documentaries produced by the National Film Board of Canada not only

influenced cinematic language but shaped our perception of the environment In the early days of the organization nature films produced by the NFB supported the Canadian government's nation building project and show the state as an active participant in the cultural construction of the land By the mid 1960s however films like Cree Hunters of Mistassini and Death of a Legend were asking provocative questions about the state's vision of nature Filmmakers like Boyce Richardson and Bill Mason began to centre the experiences of First Nations people contest the notion that nature should be transformed for economic gain and challenge the idea that the North is a wild and empty landscape bereft of civilization Author Michael Clemens describes how films produced by the NFB broadened the ecological imagination of Canadians over time and ultimately inspired an environmental movement

**Women's Work, Markets and Economic Development in Nineteenth-Century Ontario** Marjorie Griffin Cohen, 1988-12-15 Cohen focuses on the productive relations in the family and the significance of women's labour to the process of capital accumulation in both the capitalist sphere and independent commodity production In this study Marjorie Griffin Cohen argues that in research into Ontario's economic history the emphasis on market activity has obscured the most prevalent type of productive relations in the staple exporting economy the patriarchal relations of production within the family economy Cohen focuses on the productive relations in the family and the significance of women's labour to the process of capital accumulation in both the capitalist sphere and independent commodity production She shows that while the family economy was based on the mutual dependence of male and female labour there was not equality in productive relations The male ownership of capital in the context of the family economy had significant implications for the control over female labour Among countries which experience industrial development there are common patterns in the impact of change on women's work there are also significant differences One of the most important of these is the fact that economic development did not result in women's labour being withdrawn from the social sphere of production Rather economic growth has steadily brought women's productive efforts more directly into the market sphere In exploring the roots of this development Cohen adds a new dimension to the study of women's labour history

Energy, Capitalism and World Order Tim Di Muzio, 2024-12-26 This original timely and innovative collection is the first to offer critical IPE perspectives on the interconnections between energy capitalism and the future of world order The authors discuss the importance of energy for our understanding of the global political economy climate change and key new developments like fracking

Joining Empire Jerome Klassen, 2014-01-01 A fresh assessment of the neoliberal political economy behind Canadian foreign policy from Afghanistan to Haiti Joining Empire establishes Jerome Klassen as one of the most astute analysts of contemporary Canadian foreign policy and its relationship to US global power Using empirical data on production trade investment profits and foreign ownership in Canada as well as a new analysis of the overlap among the boards of directors of the top 250 firms in Canada and the top 500 firms worldwide Klassen argues that it is the increasing integration of Canadian businesses into the global economy that drives Canada's new increasingly aggressive foreign policy

Using government documents think tank studies media reports and interviews with business leaders from across Canada Klassen outlines recent systematic changes in Canadian diplomatic and military policy and connects them with the rise of a new transnational capitalist class *Joining Empire* is sure to become a classic of Canadian political economy *Remaining Loyal* David McGrane, 2014-10-01 When social democratic politicians in the 1990s moderated their ideas and policies as part of a turn towards the third way they were assailed as traitors to the cause *Remaining Loyal* demonstrates that while third way social democrats in Quebec and Saskatchewan supplemented certain social democratic ideas with more right wing economic programs their public policies remained true to the original spirit of social democracy Drawing on a range of archival resources David McGrane traces the evolution of social democracy in Quebec and Saskatchewan from their respective origins in social Catholic thought and agrarian protest movements at the turn of the twentieth century to the most recent Parti Qu b cois and New Democratic Party governments In doing so he reconstructs the public policies of traditional social democracy from the postwar era and the third way in the 1990s and early 2000s and finds both differences and continuities McGrane contends that remaining loyal to core social democratic values is exactly what differentiates the third way from neo liberalism in Saskatchewan and Quebec The first historical comparison of social democracy in Saskatchewan and Quebec *Remaining Loyal* challenges how we think about the recent ideological evolution of left wing parties in Canada and the rest of the world *Logging the Globe* M. Patricia Marchak, 1995 With the growth of industrial forestry in the southern hemisphere and the restructuring of forestry in the northern hemisphere the industry is undergoing tremendous change *Logging the Globe* investigates the transformations that are taking place and their ecological social and economic impact *Warming Up to the Cold War* Robert Teigrob, 2009-05-30 When U S President Harry Truman asked his allies for military support in the Korean War Canada s government led by Prime Minister Louis St Laurent was reluctant St Laurent s government was forced to change its position however when the Canadian populace conditioned to significant degrees by the powerful influence of American media and culture demanded a more vigorous response *Warming up to the Cold War* shows how American cultural influence helped to undermine waning Canadian nationalism Comparing Canadian and American responses to events such as the atomic bomb the Gouzenko Affair the creation of NATO and the Korean War Robert Teigrob traces the role that culture and public opinion played in shaping responses to international affairs With penetrating political and cultural insight he examines the Cold War consensus between the two countries to reveal the ways that Canada cited home grown rationales to justify its increasing subservience to American strategy and posturing Full of fascinating insights *Warming up the Cold War* is essential reading for anyone interested in the Cold War the role of culture in politics and the history of U S Canada relations **White Gold** Karl Froschauer, 2011-11-01 During the past fifty years Canadians have seen many of their white water rivers dammed or diverted to generate electricity primarily for industry and export The rush to build dams increased utility debts produced adverse consequences for the environment and local communities and ultimately

resulted in the layoff of 25 000 employees White Gold looks at what went wrong with hydro development with the predicted industrial transformation with the timing and magnitude of projects and with national and regional initiatives to link these major projects to a trans Canada power grid Karl Froschauer examines five major hydroelectric projects Niagara Falls Ontario Churchill Falls Labrador James Bay Quebec the Nelson River Manitoba and the Peace River British Columbia applying a political economic perspective that unifies his analysis of patterns of hydro development in Canada He points out that in the 1960s and 70s federal and interprovincial conflicts over transmission line ownership hydro plant investments extra provincial authority and export agendas undermined several national and regional power grid initiatives He then argues that if the provinces had chosen to integrate their power project within a national electricity network substantial technical economic and environmental advantages could have resulted Instead of providing the infrastructure for a national power grid and serving as a force for indigenous secondary industry the provincial expansions of Canada s hydro resources have merely fostered continued dependence on branch plant industrial development and staples export and have created vast surpluses of electricity for continental rather than national use Meticulously researched and documented White Gold is the first comprehensive study of hydroelectric power development in Canada Its useful analytical framework and provincial comparisons illuminate and critique the path of development over the last century and offer lessons for the future
