The National Poultry Improvement Plan ,1938 *Miscellaneous Publication* ,1956 Transanal Stapling Techniques for Anorectal Prolapse David Jayne,Angelo Stuto,2008-12-23 It has never been easy to introduce new concepts and therapeutic interventions into surgical practice When attempting to do so one is faced with the interagency of traditional dogma which still in this era of evidence based medicine tends to dominate the surgical thought process This is particularly so in the area of coloproctology where prejudice and personal opinion often influence objective analysis whenever tradition is challenged A large body of literature on anorectal prolapse has accumulated over the years although much is based on personal viewpoint rather than scientific evidence it has nevertheless been passed down through the generations as accepted wisdom and practice As a consequence it is a challenge to change the mindset of a generation of surgeons and to introduce new concepts and novel techniques which at first might appear to be a radical departure from conventional teaching It is obviously not possible to present the basis for the development of transanal stapling techniques for anorectal prolapse in this Foreword this is dealt with in detail elsewhere in this book The interested reader will have the opportunity to share in the new and emerging concepts surrounding anorectal prolapse and to deepen their understanding of the patient physiology and basis for surgical correction Although hemorrhoidal disease and external rectal prolapse have been known about for centuries the understanding of internal rectal prolapse intussusception and rectocele has only really advanced with the emergence of radiological imaging techniques such as defecography *Sober Thoughts on Staple Themes* Richard Randolph,1889
