Stars, Stones and Scholars Andis Kaulins, 2008-12-12 The hermetic tradition claims As above so below Did the ancients mean that literally Stars Stones and Scholars shows that many ancient megalithic sites are not tombs but are remnants of ancient local regional and perhaps even larger Neolithic surveys of the Earth by Stone Age astronomy with gigantic stones being placed as immovable survey markers Circa 40 photographs 240 drawings and 80 maps show how megaliths were carved and sculpted with figures and cupmarks holes in the stones to represent stars and constellations long before the modern astrological Zodiac was known Megalithic sites from England Stonehenge Wales Paviland Scotland Clava Cairns Ireland Newgrange Knowth Germany Externsteine Benelux Weris France Carnac Italy La Spezia Malta Tarxien Greece Turkey Anatolia Scandinavia Tanum the Baltic Russia the Near East the Far East China and Japan Africa Central and South America Tikal Maya Aztecs Oceania Hawaii The USA Cahokia Miami Circle Clovis and Canada Peterborough Petroglyphs are included in this fascinating book Punch Mark Lemon, Henry Mayhew, Tom Taylor, Shirley Brooks, Francis Cowley Burnand, Owen Seaman, 1865 The Discovery of the Ark of the Covenant Alan Wilson, Barum Blackett, 2007-08-29 British history records that there were two major migrations from the near east into Britain in antiquity One was the fleet migration from Syria led by Albyne around 1560 BC and the other was the second fleet migration from the Trojan Dardanelles areas in Western Turkey led by Brutus around 504 BC Ancient alphabet inscriptions and other tangible and written records show that the second migration was that of the Ten Tribes of Israel The same ancient Alphabet is found all the way along the British migration routes from Palestine to Assyria through Asia Minor to the Aegean and to Etruscan Italy and Rhaetian Switzerland In Britain the Ten Tribes were known as the Khumry This research began in 1976 some 31 years ago and it has met with nothing but opposition and obstruction Around 1360 BC Moses has the fabulous box called the Ark of the Covenant made This holy box was the national talisman of the Hebrew nation It was revered as the place of the presence of the god Yahweh and the most holy thing belonging to the Hebrew nation A series of events that included the Ark being seen as an invincible means of military success and in one disaster being captured by the Philistines ended when King David placed the Ark in the care of the family of Obed Edom and he took the Ark to Jerusalem around 975 BC along with the family of Obed Edom The next King was Solomon and he built a celebrated temple in Jerusalem to house the Ark where annually the high priest entered the holy of holies chamber to serve the divine box Nothing much is said of the Ark until c 790 BC the Judean King Ahaziah attacked the Israelite King Jehoash and was totally defeated The victorious Jehoash then went to Jerusalem where he took everything from the palace and everything from the temple and he also took away the family of Obed Edom who are the family mentioned several times in the Bible as guardians of the Ark guardians of the Ark Therefore Jehoash removed the Ark from Jerusalem and took it north to Samaria Nothing is said in the Biblical record of the Ark being anywhere near Jerusalem after this event in circa 790 BC In 740-736 BC the Judean King Ahaz paid a huge bribe to the Assyrian Emperor Tiglathpileser

III to attack King Pekah of Ten Tribe Israel and as a result Israel was totally crushed by the Assyrian army A large number of Israelite nobles and leaders were immediately deported north to areas around Harran from where the patriarch Abraham has begun his migrations In successive campaigns by the Assyrian emperors Shalmaneser IV Sargon II and Sennacherib great numbers of the Israelite nation were deported north and up into the areas north of Harran In 702 BC Sennacherib recorded how he deported 200 120 people in one mass exodus The Assyrian records unmistakably and persistently call the Ten Tribes as the Khumry It is a virtual certainty that these deported Ten Tribes took the Ark with them from Israel Sennacherib was murdered by two of his sons in c 687 BC and civil war Convulsed the Assyrian Empire and as the heir Esarhaddon fought the murders the massed Ten Tribes took the opportunity to move westwards across both the upper branches of the Y shaped Euphrates river as described in the Book of Esdras II They moved slowly and unstoppably through Siasia Minor and the Greeks recorded their migration as that of the Kimmerio Khumry There is a record of the Khumry having the Ark with them on this journey from north of Assyria through Asia Minor and to the Dardanelles Finally around 650 BC the nation split into two and one half migrated to Italy whilst the other half remained in the areas around Byzantium until circa 504 BC when they gathered on the island of Lemnos before sailing to Britain in the fleets An inscribed stone that was found on Lemnos in 1876 and now in the Athens museum that records this gathering and the intent to sail to Britain Either the Ark was taken to Etrurian Italy in circa 650 BC or it remained near the Dardanelles until around 504 BC before being brought into Britain The fact is that the Greal or Holy Greal is simply a record and a comparison would be that the Bible the Koran the American Declaration of Independence or the Two Tablets brought down the mountain by Moses would all be greals Britain is the land of the Holy Greal The search was begun to locate the Ark in Britain and this proved to be relatively straightforward but technically different The persistent ancient legend in the area north of Cardiff is that a great chest lies buried and this chest is guarded by two Cigfrangawr Giant Ravens It is not difficult to perceive that this great chest is the Ark that has two golden Cherubim fearsome dragons figures What emerged was that these had been a direct transfer of culture from Israel to Britain and all across the hills of South Wales there are gigantic mounds and these huge mounds are named and set out in a pattern to mirror the pattern of the major stars in the heavens Then there are several ancient tales that tell of the great plants moving on their orbits and being in conjunction with the main stars of the various constellations The journeys of the planets seen as moving and not fixed stars are tracing out routes that can be followed around the Star t Mound Maps on the ground In short our British ancestors left us clear records of where to go The Ark is at a place where the giant mound marks the start Regulus in Leo the Lion the Judean emblem The ancient place name is The Enclosure of the Ark and the central area is The Place of Worship The top of the large hillock has clearly been molded by the hand of man and satellite photography showed spoil heaps tumbling down the slopes form a tunnel excavated horizontally to underground chambers Five very ancient drainage systems of the type used in antiquity to drain and keeps chambers dry are clearly evident Amazingly the

Above sea Levels readings of satellite photography proved absolutely that the top 60 feet of this low dome shaped hill is a man made construction This is unassailable incontrovertible and absolute scientific proof of the highest order Ground penetrating radar and other methods shows at least two underground chambers and deep reading g electronic metal detection identifies a large non ferrous box of around four feet long and two feet wide This is the precise size of the Ark of the Covenant An approach has been made to the Welsh National Assembly and hopefully something positive will at last be done to restore Khumric British heritage cultures and history *Petroglyphs and the Stars in Northumberland* P. F. Tullet,2018-11-30 Cup and ring petroglyphs are found widely in Northumberland Scotland Ireland Brittany Spain Portugal and further afield across the globe They are mysterious and beautiful objects of art in the landscape but as this book explains they are much more than that Nine petroglyph sites in Northumberland are examined here and are shown to have depicted the night sky above them in the Neolithic era to a high degree of accuracy This opens up a whole new field of study because together the Northumberland petroglyphs make up a star atlas Decoding them is likely to yield valuable astronomical information about the sky 4 500 years ago This book provides the relevant astronomical background and explains carefully how these petroglyph motifs can be deciphered It will be of interest to astronomers archaeologists conservationists of ancient monuments and particularly to amateurs who would like a field guide on how to interpret the messages on these rocks for themselves *Punch* ,1866 **Office Appliances** ,1924 **Willing's Press Guide** ,1906 Coverage of publications outside the UK and in non English languages expands steadily until in 1991 it occupies enough of the Guide to require publication in parts Parliamentary Papers ,1903 *"The" English Catalogue of Books* ,1898 Religious Freedom Act United States.
