Nochimson, 2010-07-05 Astaire and Rogers Tracy and Hepburn Just the mention of their names evokes the powerful

chemistry between these screen couples which utterly transcended the often formulaic films in which they appeared together. Indeed watching the synergistic flow of energy between charismatic screen partners is one of the great pleasures of cinema and television as well as an important vehicle for thinking through issues of intimacy and gender relations. In this book Martha P Nochimson engages in a groundbreaking study of screen couple chemistry. She begins by classifying various types of couples to define what sets the synergistic couple apart from other onscreen pairings. Then she moves into extended discussions of four enduring screen couples: Maureen O Sullivan, Johnny Weissmuller, Myrna Loy, William Powell, Fred Astaire, Ginger Rogers, and Katharine Hepburn, Spencer Tracy. Using theories of neuroscience, she demonstrates that their onscreen chemistry is a very real phenomenon powerful enough to subvert conventional formulations of male-female relations. Material she has uncovered in the infamous Production Code Administration files illuminates the historical context of her contentions. Finally, Nochimson traces the screen couple to its present-day incarnation in such pairs as Woody Allen, Diane Keaton, Scully Mulder of *The X-Files*, and Cliff, Claire Huxtable of *The Cosby Show*.

**Mazzaroth** Frances Rolleston, 2010-01-01 In *Mazzaroth* or *The constellations* originally published in 1862, 19th-century English linguist and scholar FRANCES ROLLESTON (1781-1864) presents readers with her theory of the gospel in the stars. Rolleston believed that through the ancient names for the stars, one could discover the oldest knowledge transmitted from

God to man the method of man's redemption and the coming of the Jewish messiah Mentioned in the book of Job the Mazzaroth is generally believed to be the signs of zodiac By passing through each sign a person with a full understanding of the constellations and their meanings can interpret God's message Rolleston painstakingly provides readers with evidence she claims that the signs of the zodiac are an allegory for the New Testament Through Egyptian hieroglyphs Assyrian writings and even the writings in ancient Mexico she constructs a system of symbols and metaphors all of which attest to a singular meaning to the arrangement of the constellations Students of the occult and readers with an interest in astrology will find this an entertaining read *Mazzaroth: Or, The Constellations* Frances Rolleston, 1862 **Mazzaroth; or, The**

*Mazzaroth* Frances Rolleston, 2001-01-01 Modern biblical dictionaries and commentaries designed for a popular readership tend to shy away from any reference to the word Mazzaroth let alone attempt to interpret it This is scarcely surprising for the word is obscure and it occurs only once in the Bible twice if it is equated with Mazzaloth Traditional sources tended to interpret the word as meaning the constellations specifically those forming the zodiac But there was no universal agreement others accepted that the word referred to the zodiac or even identified it with the star Sirius The idiosyncratic ideas expressed in the four parts of Mazzaroth and its appendix Mizraim are all based on solid research misapplied perhaps in light of Rolleston's steadfast Christian outlook but fully documented and with sources quoted at length The whole work provides the reader with an amazing compendium of obscure material on ancient mythology symbolism and etymology with comprehensive biblical references and a wealth of learned and detailed footnotes Much of the information is set out in a tabular form that inevitably reminds the reader of S L MacGregor Mathers's book of correspondences that we know as 777 And this may not be coincidental Mazzaroth may have been passed over by reviewers when it appeared but it was not ignored by esoteric scholars even though they were not its intended readership W Wynn Westcott possessed a copy and loaned it to the Golden Dawn library where it was certainly read by F L Gardner he includes the book albeit misdated in his *Bibliotheca Astrologica* and most probably by Mathers when he compiled 777 It is a valuable resource that fully deserves its rescue from oblivion just as its neglected author deserves our praise Rolleston 1781-1864 spent her life studying the sky and the scriptures
