Carmichael,2015-12-01 Challenging the popular conception of Southern youth on the eve of the Civil War as intellectually lazy violent and dissipated Peter S Carmichael looks closely at the lives of more than one hundred young white men from Virginia s last generation to grow up with the institution of slavery He finds them deeply engaged in the political economic and cultural forces of their time Age he concludes created special concerns for young men who spent their formative years in the 1850s Before the Civil War these young men thought long and hard about Virginia s place as a progressive slave society They vigorously lobbied for disunion despite opposition from their elders then served as officers in the Army of Northern Virginia as frontline negotiators with the nonslaveholding rank and file After the war however they quickly shed their Confederate radicalism to pursue the political goals of home rule and New South economic development and reconciliation Not until the turn of the century when these men were nearing the ends of their lives did the mythmaking and storytelling begin and members of the last generation recast themselves once more as unreconstructed Rebels By examining the lives of members of this generation on personal as well as generational and cultural levels Carmichael sheds new light on the formation and reformation of Southern identity during the turbulent last half of the nineteenth century      Athlete's Bible: Strong Edition Fellowship of Christian Athletes,Holman Bible Staff,2018-06 The Athlete s Bible Strong Edition features the NLT translation and includes study notes and tools provided by Fellowship of Christian Athletes to help equip encourage and empower athletes in any sport to study God s Word      **Words of Light** Eduardo Cadava,2018-06-05 Here Eduardo Cadava demonstrates that Walter Benjamin articulates his conception of history through the language of photography Focusing on Benjamin s discussions of the flashes and images of history he argues that the questions raised by this link between photography and history touch on issues that belong to the entire trajectory of his writings the historical and political consequences of technology the relation between reproduction and mimesis images and history remembering and forgetting allegory and mourning and visual and linguistic representation The book establishes the photographic constellation of motifs and themes around which Benjamin organizes his texts and thereby becomes a lens through which we can begin to view his analysis of the convergence between the new technological media and a revolutionary concept of historical action and understanding Written in the form of theses what Cadava calls snapshots in prose the book memorializes Benjamin s own thetic method of writing It enacts a mode of conceiving history that is neither linear nor successive but rather discontinuous constructed from what Benjamin calls dialectical images In this way it not only suggests the essential rapport between the

fragmentary form of Benjamin's writing and his effort to write a history of modernity but it also skillfully clarifies the relation between Benjamin and his contemporaries the relation between fascism and aesthetic ideology It gives us the most complete picture to date of Benjamin's reflections on history     Iron Age and Hardware, Iron and Industrial Reporter ,1889     *The Great Depression in America* William H. Editor & Publisher ,1917      **The History of the Irish Famine** Christine Kinealy,2018-09-20 The Great Irish Famine remains one of the most lethal famines in modern world history and a watershed moment in the development of modern Ireland socially politically demographically and culturally In the space of only four years Ireland lost twenty five per cent of its population as a consequence of starvation disease and large scale emigration Certain aspects of the Famine remain contested and controversial for example the issue of the British government s culpability proselytism and the reception of emigrants However recent historiographical focus on this famine has overshadowed the impact of other periods of subsistence crisis both before 1845 and after 1852 This first volume addresses the questions when did the famine begin and end to what extent is the British government after 1846 culpable for the suffering and mortality how important was philanthropy in alleviating the distress what was the role and responsibility of Irish elites is the word famine appropriate given that Ireland continued to export large amounts of food      The Supreme Court Reporter ,1912      **London Grain, Seed, and Oil Reporter** ,1919      **Looking at the Stars** Carrie Teresa,2019-06 As early as 1900 when moving picture and recording technologies began to bolster entertainment based leisure markets journalists catapulted entertainers to godlike status heralding their achievements as paragons of American self determination Not surprisingly mainstream newspapers failed to cover black entertainers whose inherent inferiority precluded them from achieving such high cultural status Yet those same celebrities came alive in the pages of black press publications written by and for members of urban black communities In Looking at the Stars Carrie Teresa explores the meaning of celebrity as expressed by black journalists writing against the backdrop of Jim Crow era segregation Teresa argues that journalists and editors working for these black centered publications rather than simply mimicking the reporting conventions of mainstream journalism instead framed celebrities as collective representations of the race who were then used to symbolize the cultural value of artistic expression influenced by the black diaspora and to promote political activism through entertainment The social conscience that many contemporary entertainers of color exhibit today arguably derives from the way black press journalists once conceptualized the symbolic role of celebrity as a tool in the fight against segregation Based on a discourse analysis of the entertainment content of the period s most widely read black press newspapers Looking at the Stars takes into account both the institutional perspectives and the discursive strategies used in the selection and framing of black celebrities in the context of Jim Crowism
