Star Maker Olaf Stapledon, 2008-01-01 This 1937 successor to *Last and First Men* offers another entrancing speculative history of the future Cited as a key influence by science fiction masters such as Doris Lessing its bold exploration of the cosmos ventures into intelligent star clusters and mingles among alien races for a memorable vision of infinity *Star Maker* William Stapledon, 2017-12-12 Widely regarded as one of the true classics of science fiction *Star Maker* is a poetic and deeply philosophical work The story details the mental journey of an unnamed narrator who is transported not only to other worlds but also other galaxies and parallel universes until he eventually becomes part of the cosmic mind First published in 1937 Olaf Stapledon's descriptions of alien life are a political commentary on human life in the turbulent inter war years The book challenges preconceived notions of intelligence and awareness and ultimately argues for a broadened perspective that would free us from culturally ingrained thought and our inevitable anthropomorphism This is the first scholarly edition of a book that influenced such writers as C S Lewis and Arthur C Clarke and which Jorge Luis Borges called a prodigious novel

Public Opinion Polling in Mid-Century British Literature Megan Faragher, 2021-08-19 Whereas modernist writers lauded the consecrated realm of subjective interiority mid century writers were engrossed by the materialization of the collective mind An obsession with group thinking was fuelled by the establishment of academic sociology and the ubiquitous infiltration of public opinion research into a bevy of cultural and governmental institutions As authors witnessed the materialization of the once opaque realm of public consciousness for the first time their writings imagined the potentialities of such technologies for the body politic Polling opened new horizons for mass politics Public Opinion Polling in Mid Century British Literature traces this most crucial period of group psychology's evolution the mid century when psychography a term originating in Victorian spiritualism transformed into a scientific praxis The imbrication of British writers within a growing institutionalized public opinion infrastructure bolstered an aesthetic turn towards collectivity and an interest in the political ramifications of meta psychological discourse Examining works by H G Wells Evelyn Waugh Val Gielgud Olaf Stapledon Virginia Woolf Naomi Mitchison Celia Fremlin Cecil Day Lewis and Elizabeth Bowen this book utilizes extensive archival research to trace the embeddedness of writers within public opinion institutions providing a fresh explanation for the new material turn so often associated with interwar writing
