Sounding the Color Line Erich Nunn, 2015 Sounding the Color Line explores how competing understandings of the U S South in the first decades of the twentieth century have led us to experience musical forms sounds and genres in racialized contexts Yet though we may speak of white or black music rock or rap sounds constantly leak through such barriers A critical disjuncture exists then between actual interracial musical and cultural forms on the one hand and racialized structures of feeling on the other This is nowhere more apparent than in the South Like Jim Crow segregation the separation of musical forms along racial lines has required enormous energy to maintain How asks Nunn did the protocols structuring listeners racial associations arise How have they evolved and been maintained in the face of repeated transgressions of the musical color line Considering the South as the imagined ground where conflicts of racial and national identities are staged this book looks at developing ideas concerning folk song and racial and cultural nationalism alongside the competing and sometimes contradictory workings of an emerging culture industry Drawing on a diverse archive of musical recordings critical artifacts and literary texts Nunn reveals how the musical color line has not only been established and maintained but also repeatedly crossed fractured and reformed This push and pull between segregationist cultural logics and music's disrespect of racially defined boundaries is an animating force in twentieth century American popular culture

Film and Fairy Tales Kristian Moen, 2013-05-07 Far from a realm of pure fantasy helping people to escape harsh realities fairy tales and the films that rooted themselves in their tropes and traditions played an integral role in formulating and expressing the anxieties of

modernity as well as its potential for radical magical transformation In Film and Fairy Tales Kristian Moen examines the role played by fairy tales in shaping cinema its culture and its discourse during its most formative years Well established by the feerie of the nineteenth century as popular entertainment and visual spectacle the wonders of mutability offered by fairy tale fantasies in the early films of Melies situated cinema itself as a realm of enchantment rife with enthralling and disturbing possibilities Through an analysis of early film theorists and a detailed case study of Tourneur s 1918 film The Blue Bird Moen shows how the spectacles and tropes of the fairy tale continued to shape ideas of cinema s place in modern life Stars like Mary Pickford and Marguerite Clark who not only played fantasy roles but presented their off screen personae in deliberately fantastic terms and the transformative claims of modernity expressed through visions such as Orientalist fairylands are analysed to show the extent to which fairy tales were used to negotiate different experiences of modernity the giddy adventures of social mobility consumer culture and identity transformation the threats and anxieties of cultural change impermanence and mutability Moen traces the evolution of the fairy tale in film to its self aestheticising peak in Snow White and the Seven Dwarfs alongside ironic allusions in films like Hitchcock s Rebecca and Howard Hawks Ball of Fire concluding with an examination of how fairy tale visions of fantastic transformation have seen a resurgence in contemporary cinema from Tim Burton to Harry Potter In the process he shows how cinema made fairy tales modern and fairy tales helped make cinema what it is today [Happy Holidays--Animated!](#) William D.
