Only Stars Know the Meaning of Space Rémy Ngamije, 2024-12-03 A vibrant and brilliant new collection of award-winning short fiction from the acclaimed author of the charming, witty, and incredibly humane *The Pittsburgh Gazette* debut *The Eternal Audience of One*. Presented as a literary mixtape, *Only Stars Know the Meaning of Space* is a work of literature that provides you with a modern reading experience. The A Side, read as one narrative, tells the story of a soon-to-be thirty-year-old aspiring writer navigating a complicated world. The B Side, taken as a separate experience, features seemingly independent and unrelated short stories: *There's Crunchy Green Apples* or *Omo*, a story about loss told by the strangest of narrative devices; a shopping list; *Sofa So Good*; *Sort Of*; or *John Muafangejo*, a first-person account of a family's history and a long journey towards hope. A group of friends attempts to navigate a recent breakup in *From the Lost City of Hurlantis to the Streets of Helldorado*, or *Franco*. When read together, however, a third world emerges: a complex intergenerational and interconnected world exploring the universal, gaping void of grief. Rather than attempting to cross this black hole directly, the collection carefully traces around its edges, revealing the enormity of this cosmic force from the electrifying voice you have been waiting for.

Mengiste, author of *The Shadow King*.

The Star Series Vincent Havelund, 2012-04 There are many people living on Earth who have come from a distant planet called Orbsey, and others who have come home. The price for the return trip was all memory of their time on Orbsey, but even their technology can't fully eradicate all memories. So many experience small glimpses of what could be: a dream of their past lives on an alien world, but they are afraid to speak of them for fear of being ridiculed. But the hidden burden of their experience cannot be denied. Stolen from Earth and forced to serve on Orbsey for at least five years, these lost children of humanity struggle to rebuild their lives upon their return to Mother Earth. Taken for research purposes, they were the subjects of Orbsey studies on the very human predilection for violence. But despite the methodology, the motives were noble: the scientists of Orbsey want to find the cure for violence. But two thousand years of observation and research have failed. Now two Orbsey students have been given a grant to travel back in time to do a full-time study on Earth. These young aliens take human wives and settle into Earth culture. When they devise a plan to return to Orbsey with their wives, their plans become complicated by temporal issues: can these women from Earth's past adjust to life in its present, let alone the future on Orbsey? These students risk it all in the name of love, proving that some things are universal after all.
