Stars of the Silver Screen ,1984 **Excerpts from a Film (1942-1987)** A.C. Wise,2017-03-22 Excerpts from a Film 1942 1987 by A C Wise is a disturbing horror novelette about a young woman who like many others goes to Hollywood to become a star and is haunted by the murders of several other aspiring actresses And of her influence rippling up through the years on the man who discovered her and on film itself At the Publisher s request this title is being sold without Digital Rights Management Software DRM applied **100 Best Quotes from Los Angeles' Celebrities** Kate Kastelein,2012-05-05 People love Hollywood Not just the sensational films that come from Los Angeles but the actors actresses writers producers and directors who bring them to life The silver screen illustrates and borrows from American culture sometimes its a challenge to remember which came first the movie or the meme Movie quotes influence our language and transport us to a different time and place but what about the people behind the famous phrases The stars of Hollywood share the best insight into the creative process and celebrity culture **Night butterflies of the silver screen** Artur Friedberg,2015-06-07 At the first glance the novel could have been classified as a thriller with suspense and sensual plot that at least partly is set in an environment of soft porno movie production in London at the time of end of 1980s including elements of mafia and IRA activities Nonetheless there was cleverly smuggled a great deal of information about the work of cameraman as well as of director while rehearsing with the actors or carrying out shooting of the movie Further on it entertains with real and anecdotic information about the cinematic environment Besides the novel is bringing a spectrum of information about writing a script for a historical movie and development of the concept of its realization While doing so it is also building up a reflective view over 15s century French poet Francois Villon his personality and highly original oeuvre The main thread of the contemporary action of the novel drifts towards the historical one and in a way they become tragically connected *Vampires in the Movies* Adam Woog,2011 Vampire movies have a long and rich history from what was probably the first one in 1896 through the classics of the early twentieth century Nosferatu Bela Lugosi s version of Dracula and on to the present day mania for Twilight and other modern takes In between there have been hundreds of versions and variations including American Sign Language vampires comedies space vampires and much more This book explores the lore of vampire films why they remain perennially popular with audiences and themes that run through the history of these cinematic bloodsuckers **The Stardom Film** Karen McNally,2020-12-08 Since the earliest days of the movie industry Hollywood has mythologized itself through stories of stardom A female protagonist escapes the confines of rural America in search of freedom in a western dream factory an ambitious conceited movie idol falls from grace and discovers what it means to embody true stardom or a fading star confronts Hollywood s obsession with youth by embarking on a determined mission to reclaim her lost fame In its various forms the stardom film is crucial to understanding how Hollywood has shaped its own identity as well as its claim on America s collective imagination In the first book to focus exclusively on these modern fairy

tales Karen McNally traces the history of this genre from silent cinema to contemporary film and television to show its significance to both Hollywood and broader American culture Drawing on extensive archival research she provides close readings of a wide range of films from *Souls for Sale* 1923 to *A Star is Born* 1937 and 1954 and *Judy* 2019 moving between fictional narratives biopics and those that occupy a space in between McNally considers the genre's core set of tropes its construction of stardom around idealized white femininity and its reflections on the blurred boundaries between myth image and reality *The Stardom Film* offers an original understanding of one of Hollywood's most enduring genres and why the allure of fame continues to fascinate us *Silver Screen to Digital* Carlo Montanaro, 2019-12-03 A history of transformations in moviemaking technology from pigments to pixels celluloid to CGI An era has ended After one hundred and twenty five years a change has taken place in cinemas The thousands of figures formed by silver and colored pigments can no longer be viewed through transparent film instead everything has become digital compressed virtual and built into the rapid alternation of millions hopefully for quality's sake of dots or pixels within a very neat and minuscule grid But projection is just the last link in a chain that is transforming the most direct language invented by humanity over the centuries The other links shooting editing special effects re-elaboration and sound reproduction have by now undergone radical transformations that have often signified progress Perhaps it is worth the trouble then having accepted this transformation revolution once and for all to understand where we started out from how cinematographic language was born and how its grammar first and later its syntax evolved thanks to technological development Without lightweight equipment for sound recording sensitive emulsions and portable and compact lighting it would not have been possible at the end of the fifties for example to create identifiable currents of experimentation and concept under such titles as free cinema or nouvelle vague which were largely based on footage from life and no longer reconstructed in the studio That which filmmakers today can achieve even more effectively thanks to a range of digital technologies paradoxically involves working with even more minimal equipment such as a smartphone in front of green or blue screens against absolutely virtual backgrounds In short no more silver and more and more pixels This volume journeys through the history of cinema focusing on the machines and mechanisms that contributed to the magic **David Bowie and Film** Stephen Glynn, 2022-10-31 This book constitutes the first monograph dedicated to an academic analysis of David Bowie's appearances in film Through close textual analysis together with production and reception histories Bowie's silver screen career is explored in full The book covers performance documentaries such as *Ziggy Stardust and the Spiders from Mars* star vehicles ranging from the eulogised *The Man Who Fell to Earth* to the excoriated *Just a Gigolo* plus roles from the horror chic of *The Hunger* and cult fantasy of *Labyrinth* to the valiant high brow *Baal* and vainglorious high budget *Absolute Beginners* ending with Bowie as Bowie in *Bandslam* and others as Bowie in *Velvet Goldmine* and *Stardust* Alongside showing his willingness to experiment and at times fail across a variety of genres this study investigates Bowie's performative style that while struggling to accommodate the requirements of

cinematic realism fits more harmoniously with alternative production codes and aesthetics More broadly by exploring the commercial socio cultural and ideological significance of Bowie on film the book demonstrates how notions of gender sexuality and identity formation plus commodity and cultural capital function and fluctuate in contemporary society *The Quarterly Journal of the Library of Congress* Library of Congress,1980 *Moving Images* John Fullerton,Astrid Söderbergh Widding,2000-06-22 In 1888 Thomas Edison announced that he was experimenting on an instrument which does for the eye what the phonograph does for the ear which is the recording and reproduction of things in motion Just as Edison's investigations were framed in terms of the known technologies of the phonograph and the microscope the essays in this collection address the contexts of innovation and reception that have framed the development of moving images in the last 100 years Three concerns are of particular interest the contexts of innovation and reception for moving image technologies the role of the observer whose vision and cognitive processes define some of the limits of inquiry and epistemological insight and the role of new media which engaging with the domestic sphere as cultural interface are transforming our understanding of public and private spheres The 17 previously unpublished essays in *Moving Images* represent the best of current research in the history of this field They make a timely and stimulating contribution to debates concerning the impact of new media on the history of cinema Contributors include William Boddy Carlos Bustamante Warren Buckland Valeria Camporesi Bent Fausing Oliver Gaycken Alison Griffiths Christopher Hales Jan Holmberg Solveig J lich Frank Kessler Jay Moman Sheila C Murphy Pelle Snickars Paul C Spehr Bj rn Thuresson and ke Walldius **David Bowie** Eoin Devereux,Aileen Dillane,Martin Power,2015-03-24 *David Bowie Critical Perspectives* examines in detail the many layers of one of the most intriguing and influential icons in popular culture This interdisciplinary book brings together established and emerging scholars from a wide variety of backgrounds including musicology sociology art history literary theory philosophy politics film studies and media studies Bowie's complexity as a singer songwriter producer performer actor and artist demands that any critical engagement with his overall work must be interdisciplinary and wide ranging in its scope The chapters are organised around the key themes of textualities psychologies orientalisms art and agency and performing and influencing in Bowie's work This comprehensive book contributes a great deal to the study of popular music performance gender religion popular media and celebrity *The Couch and the Silver Screen* Andrea Sabbadini,2005-07-05 *The Couch and the Silver Screen* is a collection of original contributions which explore European cinema from psychoanalytic perspectives Both classic and contemporary films are presented and analysed by a variety of authors including leading cinema historians and theorists psychoanalysts with a specific expertise in the interpretation of films as well as the filmmakers themselves This composite approach offers a fascinating insight into the world of cinema *The Couch and the Silver Screen* is illustrated with stills throughout and Andrea Sabbadini's introduction provides a theoretical and historical context for the current state of psychoanalytic studies of films The book is organised into four clear sections Set and Stage Working Through Trauma Horror Perspectives and Documenting
