Getting in the Gap Dr. Wayne W. Dyer, 2021-08-10 Why Meditate The practice of meditation takes us on a fabulous journey into the gap between our thoughts where all the advantages of a more peaceful stress free healthy and fatigue free life are available but they are merely side benefits The paramount reason for daily meditation is to get into the gap between our thoughts and make conscious contact with the creative energy of life itself In this uplifting book Dr Wayne W Dyer explains the soul nourishing meditation technique for making conscious contact with God which the ancient masters have told us about You have all the potential to be an instrument of the highest good for all concerned and to be a literal miracle worker in your own life No person government entity or religious group can legitimately claim to do this for you In fact says Dr Dyer I agree with Carl Jung who said that one of the main functions of formalized religion is to protect people against a direct experience of God Dr Dyer helps you have this direct experience by leading you through the meditation technique in the accompanying audio download When you master getting into the gap stay there for prolonged segments of meditation and experience what you bring back into the world you will truly know the answer to the question Why meditate **Stop Overthinking** Brian Leader, 2020-03-19 Do you want to declutter your life from stress anxiety and negative thinking which hold your mind stuck in procrastination Do you want to learn the practice of mindfulness meditation and positive self talk to develop mental toughness Do you want to dare to take action regain self esteem and exponentially enhance your productivity If yes then keep reading There are many ways of describing overthinking It can be understood as a situation where one cannot stop worrying and thinking about things Overthinking is not a disorder It involves a fear that grows in you and overwhelms you but you can't help yourself but let it do so In some cases instead of crying it out you simply opt to hold back your tears It's the fear of failure failing at your job failing a certain class failing in your relationships Overthinking pushes you to work hard for unrealistic expectations This might sound productive but in reality you will be exhausted by maintaining this pace Overthinking leads to exhaustion Emotionally and physically you will feel exhausted since your mind never stops It is always flooded with thoughts and the worst thing about it is that you believe there is nothing you can do Overthinking is that inner voice that tries to bring you down It criticizes you and destroys your confidence and self esteem You not only doubt yourself but you also doubt those who are close to you It pushes you to second guess everything Thinking too much can be compared to a spreading fire It burns down everything that it finds on its way Therefore you will suffer as a result of overthinking This book covers the following topics Defining Overthinking Typical Behaviors of Overthinkers Anxiety Stress Fear and Negative Thinking Clearing Your Mind Why Your Mind is Cluttered How to Stop Overthinking Where to Start How to Stop Overthinking with Mindfulness Meditation How to Stop Overthinking with Positive Self Talk How to Take Control of Your Thoughts Neuroplasticity Reorganize Your Brain and Gain Control over Stress and Anxiety Overcoming procrastination Organize Your Life and Make It Simpler And much more Overthinking is when your mind clings to the faults that you have

made and takes you through them throughout the day When you overthink your life will be on constant pause You will always feel as though you are waiting for the right moment to do something The problem is that this moment never arrives You re always anticipating that something could go wrong You will be overly careful when doing anything This is influenced by the fact that you are just worried things might not work out as expected Do you want to learn more Don t wait anymore press the buy now button and get started
