Blame It on the Dwarf Barry Rosenberg, 2017-07-15. Blame it on the Dwarf. Everyone else did even his mother the local witch. Despised at home, Bogden left Europe for the 19th-century gold rush in Australia. But very soon he found himself in conflict with Jack, a red-haired digger. Matters became worse when the albino Dwarf found gold. Big Jack and his mates beat him up and left him for dead. Bogden, however, had enough of his mother's magic to survive. He returned to the camp at night and woke the drunken Jack just to stick a shovel into his head. Cursing Jack's descendants, the Dwarf set fire to the miners' tents and fled. Buying nearby land, Bogden cursed it to keep other people away. Naturally, 150 years later, that was the place chosen for coal seam gas mining.

Tae Kwon Do (태권도): — An Olympic Sport Jyoti Patel, 2021-04-07. Of the many books that get published around the world, this is the first that was ever written by a female author on a deadly yet sophisticated sport: TAEKWONDO. TAEKWONDO is beyond a sport in itself and more of a representation of way of life. Kicks and punches resemble a great form of art rather than mere combat techniques; they are as subtle as a piece of paint work that requires enormous amount of dedication and effort to get it right. This book provides an illustration of some of the amazing techniques from TAEKWONDO that are focused on providing self-defense guidance for young girls, women, or to anyone who are keen on this subject.

Taekwondo: An Olympic Sport is dedicated to all those unsung heroes in the sport of TAEKWONDO who practiced this art with passion and have been religiously practicing and training young TAEKWONDO athletes. It is also dedicated to those who believe in fitness as a whole.

Myth and Identity in the Martial Arts Alexis McLeod, 2024-12-24 *Myth and Identity in the Martial Arts: Creating the Dragon* is a study of the role of myth and ideology in the formation of social identity, focusing on a variety of communities of practice involving the martial arts in East Asian and Western history. Alexis McLeod argues that myths of the martial arts should not be understood as falsehoods created as means of legitimizing modern practices but should instead be understood as narratives that enable individuals and communities to formulate social identities and to accord meaning to their practices. This book covers six influential sources of myth and identity formation in the history of martial arts: early Chinese and Indian philosophy, the formation of bushido thought in the Edo period of Japan, the Republican era, Chinese conceptions of nationhood and physical culture, Western contributions, and the innovations of Bruce Lee. African American conceptions of martial arts as a response to oppression in the twentieth century and the contemporary ideologies of mixed martial arts.
