Indian Smes And Start-ups: Growth Through Innovation And Leadership Leo-paul Dana, Omvir Gautam, Ashish Gupta, Naman Sharma, 2023-05-03 Over the years India has emerged as the third largest start up ecosystem in the world earning itself the reputation of being the emerging land for

delivering unicorns It has become one of the most attractive regions in the world for initiating and scaling up new business ideas Many venture capitalists have invested in India s start up ecosystem and the government has also launched a variety of schemes to promote this growth Indian organisations have become more competitive making their global presence felt and expanding their reach into new industries and sectors What factors have been pivotal for the growth of Indian start ups How did the Indian ecosystem evolve to fuel this growth Is the role of leadership in start ups more crucial than in other organisations This book through its diverse range of chapters not only provides answers to the above questions but also makes sincere efforts to highlight the innovative potential that start ups carry and the leadership that is required to sail them through global competition The book also provides an insight on the race of unicorns and how Indian start ups have been extremely successful in bagging this coveted title This edited book is a must read for budding entrepreneurs and researchers who aim to understand and conduct research on Indian start ups and their ecosystem support

Creating Wealth from Knowledge J. R. Bessant,Tim Venables,2010-01-01 This book illustrates that although innovation has always mattered in economic development simply increasing expenditure in creating knowledge may not be the answer we need to look at the whole system through which such knowledge translates to value creation The contributors explore the implications of the changing twenty first century context of networked global and increasingly open innovation a world in which knowledge flows become as important as knowledge creation In so doing they address four key questions what is the context within which innovation occurs in the UK How do new firms form on the basis of knowledge and its deployment How do established firms access and use knowledge to improve their current activities and generate new directions What technical and organizational infrastructures enable these activities Drawing out lessons for future research this book will be of great interest to academics concerned with science and innovation policy and its implementation Managers and policy makers involved in innovation and technology strategy and with developing responses to new challenges such as open innovation will also find much to interest them within this book
